the Non Aligned Movement NAM The authors argue that in the 1940s between the dissolution of the Comintern and the rise of NAM Tito's influence and ambition were far wider than has been understood extending to Italy France Greece and Spain via the international Communist networks established during the Spanish Civil War Klinger and Kulji disclose for the first time the connection between Tito's expulsion from the Cominform and the Rome assassination attempt on the Italian Communist Party leader Palmiro Togliatti the man who had plotted to overthrow Tito Tito's Secret Empire offers a pivotal contribution to our understanding of Tito as a figure of real rather than imagined global significance This dazzlingly original book will reward all those who are interested in the history of international Communism the Cold War and the Non Aligned Movement or in Tito the man one of the most significant leaders of the twentieth century Geoarchaeology Carlos Cordova,2018-08-30 Geoarchaeology is traditionally concerned with reconstructing the environmental aspects of past societies using the methods of the earth sciences The field has been steadily enriched by scholars from a diversity of disciplines and much has happened as the importance of global perspectives on environmental change has emerged Carlos Cordova provides a fully up to date account of geoarchaeology that reflects the important changes that have occurred in the past four decades Innovative features include the development of the human ecological approach and the impact of technology on this approach how the diversity of disciplines contributes to archaeological questions frontiers of archaeology in the deep past particularly the Anthropocene the geoarchaeology of the contemporary past the emerging field of ethno geoarchaeology the role of geoarchaeology in global environmental crises and climate change Russia and Soul Dale Pesmen,2018-08-06 This ethnography of everyday life in contemporary Russia is also an examination of discourses and practices of soul or dusha Russian soul has historically appeared as a myth a consoling fiction and a trope of national and individual self definition that drew romantic foreigners to Russia Dale Pesmen shows that in the 1990s this soul was scorned worshipped and used to create manipulate and exploit cultural capital Pesmen focuses on soul in part as what people chose to do and how they did it especially practices considered definitive of Russians such as hospitality the use of alcoholic beverages steam baths Russian language music and suffering Attempting to avoid narrow definitions of soul as a thing Pesmen developed a new way of structuring ethnographic interviews During her stay in a formerly closed military industrial city and surrounding villages Pesmen spent time on public transportation and in kitchens steam baths vegetable gardens shops and workplaces She uses stories from her fieldwork along with examples from the media and literature to introduce a phenomenology of russkaia dusha and of related American and other non Russian metaphysical notions exploring diverse elements in their makeup examining and questioning the world created when people believe in the existence of such deep vast enigmatic internal centers Among theoretical issues she addresses are those of power community self exchange coherence and morality Pesmen's attention to dusha gives her a multifaceted perspective on Russian culture and society and informs her rich portrayal of life in a Russian city at a historically critical moment Dry Creek W.
