Kanter,Carl Brandon Strehlke,1988 Catalog of an exhibition which opened at The Metropolitan Museum of Art on Dec 20 1988 This first comprehensive study in English devoted to Sieneese painting to be published in four decades centers on the fifteenth century a fascinating but frequently neglected period when Sieneese artists confronted the innovations of Renaissance painting in Florence Two introductory essays survey fifteenth century Sieneese painting and individual entries examine 139 key works in exhaustive detail presenting new insights into long debated issues of interpretation and attribution and often utilizing previously unpublished material Most of the major paintings are reproduced in color and supplemented with illustrations of related comparative works *Art as Politics in Late Medieval and Renaissance Siena* TimothyB. Smith,2017-07-05 In *Art as Politics in Late Medieval and Renaissance Siena* contributors explore the evolving relationship between image and politics in Siena from the time of the city state s defeat of Florence at the Battle of Montaperti in 1260 to the end of the Sieneese Republic in 1550 Engaging issues of the politicization of art in Sieneese painting sculpture architecture and urban design the volume challenges the still prevalent myth of Siena s cultural and artistic conservatism after the mid fourteenth century Clearly establishing uniquely Sieneese artistic agendas and vocabulary these essays broaden our understanding of the intersection of art politics and religion in Siena by revisiting its medieval origins and exploring its continuing role in the Renaissance *Sieneese Painting* Bruce Cole,1987 **Painting in Late Medieval and Renaissance Siena, 1260-1555** Diana Norman,2003-01-01 The city of Siena one of Italy s major artistic centers was home to many celebrated painters among them Duccio Simone Martini Ambrogio and Pietro Lorenzetti Sassetta and Beccafumi This generously illustrated book provides a survey of Sieneese painting from 1260 to 1555 an era of extraordinary artistic creativity in the Tuscan city Art historian Diana Norman addresses the style and artistic technique of Sieneese painters throughout the three centuries and explores why paintings were made where they were originally seen and how they were used and enjoyed by their audiences The book focuses on works of art made for Siena itself many of which are still to be seen within the city Norman organizes the discussion around types of commissions and throughout the book situates the paintings within the context of the political social and religious circumstances of late medieval and renaissance Siena *Renaissance Siena* A. Lawrence Jenkins,2005-08-01 The art of Renaissance Siena is usually viewed in the light of developments and accomplishments achieved elsewhere but Sieneese artists were part of a dynamic dialogue that was shaped by their city s internal political turmoil diplomatic relationships with its neighbors internal social hierarchies and struggle for self definition These essays lead scholars in a new and exciting direction in the study of the art of Renaissance Siena

exploring the cultural dynamics of the city and its art in a specifically Sienese context This volume shapes a new understanding of Sienese culture in the early modern period and defines the questions scholars will continue to ask for years to come What emerges is a picture of Renaissance Siena as a city focused on meeting the challenges of the time while formulating changes to shape its future Central to these changes are the city's efforts to fashion a civic identity through the visual arts

Locating Renaissance Art Carol M. Richardson, 2007-01-01 Renaissance art history is traditionally identified with Italian centers of production and Florence in particular Instead this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art It also considers the impact of differing locations on art and artists and some of the economic political and cultural factors crucial to the emergence of an artistic center During c 1420 1520 no city or court could succeed in isolation and so artists operated within a network of interests and local and international identities The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests
