Sierra Crossing 1st Roads To Calif:

Sierra Crossing Thomas Frederick Howard, 1998-06-30 A critical era in California's history and development the building of the first roads over the Sierra Nevada is thoroughly and colorfully documented in Thomas Howard's fascinating book During California's first two decades of statehood 1850-1870 the state was separated from the east coast by a sea journey of at least six weeks Although Californians expected to be connected with the other states by railroad soon after the 1849 Gold Rush almost twenty years elapsed before this occurred Meanwhile various overland road ventures were launched by emigrants former gold miners state government officials the War Department the Interior Department local politicians town businessmen stagecoach operators and other entrepreneurs whose alliances with one another were constantly shifting The broad landscape of international affairs is also a part of Howard's story Constructing roads and accumulating geographic information in the Sierra Nevada reflected Washington's interest in securing the vast western territories formerly held by others In a remarkably short time the Sierra was transformed by vigorous exploration road promotion and road building Ox drawn wagons gave way to stagecoaches able to provide service as fine as any in the country Howard effectively uses diaries letters newspaper stories and official reports to recreate the human struggle and excitement involved in building the first trans Sierra roads Some of those roads have become modern highways used by thousands every day while others are now only dim traces in the lonely backcountry

The WPA Guide to California Federal Writers' Project, 2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers

Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The guide to California stands out among the rest of the WPA guides for the quality of its writing, photographs, and pen and ink drawings. The Golden State contains much diversity of people, places, and things, and the WPA Guide expertly reflects and records the eclectic quality of this quintessentially American state. Published in 1939, the guide's essays on history cover everything from the gold rush to the movie industry at the nascence of Hollywood's golden age, and its back road tours through California's coastal fishing villages and mountain mining towns still provide a splendid alternative to freeways.
