This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other Britain exploited France's defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence whilst France's successful use of intelligence enabled it to undermine Britain's position in Palestine Egypt Saudi Arabia and Iraq Shedding new light on the clandestine Franco Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab Jewish war in Palestine this book which presents close to 400 secret Syrian and British documents obtained by the French intelligence is essential reading for scholars with an interest in the political history of the region inter Arab and international relations and intelligence studies **Best Little Stories from**

World War II C. Brian Kelly, 2010-11-01 The untold stories of bravery triumph and redemption in the depths of the darkest world war Behind the great powers global military conflict and infamous battles are more than 100 incredible stories that bring to life the Second World War During the six years of war were countless little known moments of profound triumph and tragedy bravery and cowardice and good and evil These amazing and unbelievable stories of brotherhood redemption escape and civilian courage shed new light on the war that gripped the entire world Experience the action through the eyes of people like Lieutenant Jacob Beser who was aboard both the Enola Gay and Bock's Car and felt the force of the shockwave that nearly destroyed the planes after dropping the H bombs that obliterated Hiroshima and Nagasaki Professor William Miller who collapsed during a death march of POWs in Germany and was saved by the same man who had rescued him from what would have been a fatal car wreck in Pennsylvania five years earlier The brave civilians who answered the British Admiralty's call to help rescue an army from Dunkirk during the height of a dangerous battle and sailed small fishing boats into relentless German fire ultimately saving 335 000 men from This is the perfect book for any history buff looking for the untold stories of military and civilian daring during World War 2 *Eavesdropping on Hell* Robert J. Hanyok, 2005 A study of how Allied communications intelligence organizations reported intelligence on the Holocaust Explains how the Western COMINT system operated during WWII describes how the wartime records of SIS and GC summarizes what information is available from SIGINT records about the Holocaust Resource description page **The Bletchley Park Codebreakers in**

Their Own Words Joel Greenberg, 2022-09-21 A fascinating anthology which sheds new light on the Bletchley Park story and shows that there is still more to tell Tony Comer OBE formerly Departmental Historian at GCHQ This important volume tells the story of Bletchley Park through countless letters written by key players to former colleagues and loved ones as the war unfolded Having intercepted millions of German communications the codebreakers had felt bound by the Official Secrets Act and said little about their wartime activities Some who had stayed on at GCHQ after the war were concerned that speaking out could jeopardise their pensions Over one hundred letters have been included in this volume and have either been recovered from family members or declassified by GCHQ They reveal fresh information about the clandestine operation and disclose the true feelings of the participants at Bletchley Park In contrast to early accounts which lacked detail and were

occasionally inaccurate this book thoroughly lays bare the day to day experiences at Bletchley Park and uncovers the operational and technical reasons behind the organisation's successes and failures. Simultaneously intimate and comprehensive it will interest historians, World War II researchers and anyone who wants to learn the secrets of Britain's signal intelligence effort.

[The Polish Underground Army, the Western Allies, and the Failure of Strategic Unity in World War II](#) Michael Alfred Peszke, 2015-07-11 This military history covers the attempts of General Wladyslaw Sikorski and his successor General Kazimierz Sosnkowski to integrate Polish forces into Western strategy and to have their clandestine forces declared an allied combatant. It addresses such topics as Poland's part in the Norwegian and French campaigns, the Battle of Britain, Polish intelligence services, Polish radio communications, the Polish Parachute Brigade, the German invasion of the Soviet Union, the Bomber Offensive, the Katyn graves, Polish air crews in the RAF Transport Command, the Tehran Conference, Polish Wings in the 2nd Tactical Air Force, the Bardsea Plan, the invasion of Normandy, the Pierwsza Pancerna, the Warsaw Uprising, Operation Freston, the disbanding of the Polish Home Army and the Yalta Conference.

[Evaluating Counterterrorism Performance](#) Beatrice de Graaf, 2011-03-15 This book offers a new model for measuring the success and impact of counterterrorism strategies using four comparative historical case studies. The effectiveness of counterterrorism measures is hard to assess, especially since the social impact of terrorist attacks is a fundamental and complex issue. This book focuses on the impact of counterterrorist measures by introducing the concept of the performative power of counterterrorism, the extent to which governments mobilize public and political support, thereby sometimes even unwittingly assisting terrorists in creating social drama. The concept is applied to counterterrorism in the Netherlands, Italy, the Federal Republic of Germany, and the United States in the 1970s. Based on in-depth case study research using new primary sources and interviews with counterterrorist officials and radicals, a correlation is established between a low level of performative power and a decline of terrorist incidents. This is explored in terms of the link between social drama as enhanced by counterterrorist measures and ongoing radicalization processes. This book demonstrates that an increase in visible and intrusive counterterrorist measures does not automatically lead to a more effective form of counterterrorism. In the open democracies of the West, not transforming counterterrorism into a performance of power and repression is at least as important as counterterrorism measures themselves. This book will be of much interest to students of terrorism and counterterrorism discourse, analysis, media and communication studies, conflict studies, and IR Security Studies in general.
