Collected Papers Sigmund Freud,1925 **Performative Contradiction and the Romanian Revolution** Johan Bogdan,2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule It was the bloodiest revolution in a Warsaw Pact country culminating in the overthrow and execution of Nicolae Ceau escu However there was no major democratic reform and power remained in the hands of key figures from the old regime This has led many theorists to question the authenticity of the entire revolution Performative Contradiction and the Romanian Revolution focuses in on the circumstances which led to these accusations It argues that the notion of an authentic revolution as a conceptual paradigm is

neither a sufficient appropriate nor useful tool for an analysis of the events in Romania Engaging with the work of theorists including Stiegler Agamben Baudrillard Badiou Spinoza and Derrida it argues that performative contradiction is a more useful theoretical model for exploring this event Applying the concept to specific cases within the revolution the book demonstrates the power of performative contradiction as an analytic tool *Doing Cultural Theory* David Walton,2012-03-26 Will be a very useful tool for any student trying to make sense of the vast expanses of contemporary cultural theory and criticism Well written and admirably self reflective it combines rigorous explications and applications of many of the most influential concepts and theorists Lawrence Grossberg University of North Carolina Accessible and insightful throughout offering help to both experienced and inexperienced students of cultural theory Highly recommended John Storey University of Sunderland *Doing Cultural Theory* teaches more than just the basics of cultural theory It unpacks its complexities with real life examples and shows readers how to link theory and practice This book Offers accessible introductions to how cultural studies has engaged with key theories in structuralism poststructuralism and postmodernism Teaches straightforward ways of practising these theories so students learn to think for themselves Uses practice boxes to show students how to apply cultural theory in the real world Guides students through the literature with carefully selected further reading recommendation Other textbooks only show how others have analyzed and interpreted the world *Doing Cultural Theory* takes it a step further and teaches students step by step how to do cultural theory for themselves **Social Science Quotations**

Robert Merton,2018-04-27 *Social Science Quotations* has been prepared to meet an evident unmet need in the literature of the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute the historical core of the social sciences and social thought those works with staying power often described as the classical texts Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably expressed Both consequential and memorable these words have been quoted over the generations entering into the collective memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and social theories It is particularly useful for graduate students taking courses that examine the history of their discipline

Progress in Behavior Modification Michel Hersen,Richard M. Eisler,Peter M. Miller,2013-10-22 *Progress in Behavior Modification* Volume 12 covers the developments in the study of behavior modification The book presents papers on the

appraisal of research and a proposal for an integrative model for agoraphobia on organizational behavior management and on behavioral techniques for decreasing aberrant behaviors of retarded and autistic persons The text also includes papers on behavior therapy in rehabilitation competence depression and behavior modification with women and on the theory research and practice in self control procedures with the mentally retarded A paper on the modification of adult aggression is also considered Psychologists and students taking related courses will find the book invaluable *Motivational Science* Edward Tory Higgins, Arie W. Kruglanski, 2000 A current collection of articles that define the field of motivational science

Gardner, 1993-07-01 This ebook is now available from Bloomsbury Academic Bloomsbury Academic publish acclaimed resources for undergraduate and postgraduate courses as well as the general reader across a broad range of subjects including Archaeology Art Visual Culture Biblical Studies Business Management Drama Performance Studies Economics Education Film Media History Linguistics Literary Studies Music Sound Studies Philosophy Politics International Relations Psychology Religious Studies Social Work Social Welfare Sociology Study Skills Theology and Wellbeing Health Lifestyle Visit bloomsbury.com for more information *Gaslighting, the Double Whammy, Interrogation and Other Methods of Covert Control in Psychotherapy and Analysis* Theodore L. Dorpat, 1996-10-28 In treatment the psychotherapist is in a position of power Often this power is unintentionally abused While trying to embody a compassionate concern for patients therapists use accepted techniques that can inadvertently lead to control indoctrination and therapeutic failure Contrary to the stated tradition and values of psychotherapy they subtly coerce patients rather than respect and genuinely help them The more gross kinds of patient abuse deliberate ones such as sexual and financial exploitation are expressly forbidden by professional organizations However there are no regulations discouraging the more covert forms of manipulation which are not even considered exploitative by many clinicians In this book noted psychiatrist Theo L Dorpat strongly disagrees Using a contemporary interactional perspective Dorpat demonstrates the destructive potential of manipulation and indoctrination in treatment This book is divided into three parts Part I explores the various ways power can be abused Part II examines eleven treatment cases in which covert manipulation and control either caused analytic failure or severely impaired the treatment process Cases discussed include the analyses of Dora and the Wolf Man by Freud the two analyses of Mr Z by Kohut as well as other published and unpublished treatments An interactional perspective is used to examine the harmful short and long term effects of using indoctrination methods as well as to unravel conscious and unconscious communications between therapists and patients that can contribute to manipulations Part III shows readers how to work using a non directive egalitarian approach in both psychoanalytic psychotherapy and psychoanalysis
