**Milner's Young Men** Walter Nimocks,1968      **Milner's Young Men** Walter Nimocks,1970      **Milner's Young Man** Walter Nomocks,1968      **Isaiah Berlin** A. Dubnov,2012-03-14 This study offers an intellectual biography of the philosopher political thinker and historian of ideas Sir Isaiah Berlin It aims to provide the first historically contextualized monographic study of Berlin s formative years and identify different stages in his intellectual development allowing a reappraisal of his theory of liberalism      Modernizing England's Past Michael Bentley,2006-01-12 What came before postmodernism in historical studies By thinking through the assumptions methods and cast of mind of English historians writing between about 1870 and 1970 this book reveals the intellectual world of the modernists and offers a full analysis of English historiography in this crucial period Modernist historiography set itself the objective of going beyond the colourful narratives of whigs and popularizers in order to establish history as the queen of the humanities and as a rival to the sciences as a vehicle of knowledge Professor Bentley does not follow those who deride modernism as positivist or empiricist but instead shows how it set in train brilliant new styles of investigation that transformed how historians understood the English past But he shows how these strengths were eventually outweighed by inherent confusions and misapprehensions that threatened to kill the very subject that the modernists had intended to sustain      **British Paternalism and Africa, 1920-1940** Penelope Hetherington,2023-11-06 British Paternalism and Africa 1978 is a study of the beliefs and assumptions of members of the British intelligentsia who concerned themselves with British African politics in the period between the wars The journals and books published in Britain during this period were used as source material to discover the attitudes of politicians missionaries administrators and others concerning African issues In the two decades before the Second World War the debate about the future of the African colonies still seemed to be the preserve of Europeans anxious to influence British politics according to their own particular brand of paternalism It is argued that some writers still used arguments about Britain s civilizing mission while others emphasised the need for a period of reconstruction of African society to be carried out before independence could be granted Only the Marxist Leninist writers rejected doctrines which implied the necessity for continued European presence in Africa      *Parkin* William Christian,2008-09-09 George Parkin born on a New Brunswick farm died a knight of the realm and most famous Canadian in the world As orator and journalist he strengthened bonds between English speaking peoples As principal of Upper Canada College and a founder of the Rhodes Scholarships he put formation of character above training the intellect      British culture and the end of empire Stuart Ward,2017-03-01 This book is the first major attempt to examine the cultural manifestations of the demise of imperialism as a social and political ideology in post war Britain Far from being a matter of indifference or resigned acceptance as is often suggested the fall of the British Empire came as a profound shock to the British national imagination and resonated widely in British popular culture The sheer range of subjects discussed from the satire boom of the 1960s to the worlds of sport and the arts

demonstrates how profoundly decolonisation was absorbed into the popular consciousness Offers an extremely novel and provocative interpretation of post war British cultural history and opens up a whole new field of enquiry in the history of decolonisation      *Reassessing John Buchan* Kate Macdonald,2015-09-30 A collection of edited essays on the novelist John Buchan 1875 1940 author of among many other works *The Thirty Nine Steps* 1915 *Witch Wood* 1927 and *Sick Heart River* 1940 It considers Buchan s writing and reputation from the perspective of the twenty first century and examines Buchan s major fiction and non fictional writing      **The Changing Face of Colonial Education in Africa** Peter Kallaway,2021-07-29 The Changing Face of Colonial Education in Africa offers a detailed and nuanced perspective of colonial history based on 15 years of research that throws fresh light on the complexities of African history and the colonial world of the first half of the twentieth century It provides an analytical background to the history of education in the colonial context by balancing contributions by missionary agencies colonial government humanitarian agencies scientific experts and African agents It offers a foundation for the analysis of modern educational policy for the postcolonial state It attempts to move beyond cliché about colonial education to an understanding of the complexities of how educational policy was developed in different places at different times while giving credence to arguments that see schooling as a form of social control in the colonial environment It is essential reading for academics researchers and policymakers looking to better understand colonial education and contextualize modern developments related to the decolonizing African education It is intended to provide an essential background for policy makers by demonstrating the significance of a historical perspective for an understanding of contemporary educational challenges in Africa and elsewhere      **The Cliveden Set** Norman Rose,2011-02-28 Lloyd George once spoke of a very powerful combination in its way the most powerful in the country Its proceedings were invariably conducted at Cliveden the country estate of the fabulously wealthy Nancy and Waldorf Astor Collectively dubbed God s Truth Ltd the group included leading politicians academics writers and newspaper editors Its pedigree impeccable its social standing beyond reproach its persuasive powers permeated the clubs and institutions of London the senior common rooms of Oxbridge colleges the quality press and the great country houses of England Suddenly in the late 1930s the Cliveden Set was catapulted into uncalled for notoriety It had been identified as a cabal that sought to manipulate even determine British foreign policy in order to uphold its narrow class interests It would use any means however devious even negotiate a humiliating dishonourable settlement with Nazi Germany to maintain its privileges those of a decaying ruling class But was the Cliveden Set a traitorous cabal challenging the constitutional structures of British democracy or simply an unstructured think tank of harmless do gooders Norman Rose discerningly probes this fascinating tale brilliantly disentangling fact from fiction and setting this privileged clique in the wider perspective of its times      **War of Words** Vincent Kuitenbrouwer,2012 Tussen 1899 en 1902 woedde in Zuid Afrika een oorlog tussen de Boerenrepublieken en het Britse Rijk Veel Nederlanders steunden in die tijd de Boeren Dit uitte zich in een vloedgolf aan propagandamateriaal om een tegenwicht te bieden aan de

Britse berichtgeving over de oorlog Dit boek bevat een grondige analyse van de Nederlandse pro Boeren beweging vanaf haar begin in de jaren 1880 Kuitenbrouwer gaat in op de organisaties die de banden tussen Nederland en Zuid Afrika trachtten aan te halen en zo belangrijke knooppunten werden in een internationaal netwerk Aan de hand van bronnenmateriaal toont de auteur aan dat de propagandacampagne voor de Boeren nog lang nagalmde in de twintigste eeuw

0 Britain and Empire, 1880-1945 Dane Kennedy, 2014-07-22 Britain and Empire 1880 1945 traces the relationship between Britain and its empire during a period when the two spheres intersected with one another to an unprecedented degree The story starts with the imperial expansion of the late nineteenth century and ends with the Second World War at the end of which Britain was on the brink of decolonisation The author shows how empire came to figure into almost every important development that marked Britain's response to the upheavals of the late nineteenth century and first half of the twentieth century He examines its influence on foreign policy party politics social reforms cultural practices and national identity At the same time he shows how domestic developments affected imperial policies Written in an engaging and accessible manner this book integrates British and imperial history in a single narrative provides a useful synthesis of recent historical research in the area analyses topics ranging from ideology and culture to politics and foreign affairs contains a chronology glossary who's who and guide to further reading Britain and Empire 1880 1945 provides an up to date accessible survey ideal for students coming to the subject for the first time *Stanley Melbourne Bruce* David Lee, 2010-07-22

Australia's Prime Minister and premier diplomat in the 1930 1940s this new biography presents him as a consistent internationalist and places him in a global context **Unforeseen Legacies** Bruce H. Ziff, Osgoode Society for Canadian Legal History, 2000-01-01 An exploration of Canadian values and beliefs as filtered through the ideologies of Colonel Reuben Wells Leonard the Leonard Trust and the law governing private discriminatory action **New Babylon New Nineveh** Charles Von Onselen, 2012-11-15 Available again in a single volume New Babylon New Nineveh explores the past struggles of everyday people on the Witwatersrand South Africa 1886 1914 This was a period of extraordinary social political and economic change Charles van Onselen examines a host of practices processes and problems which in many ways make for startling comparisons with modern day South Africa Van Onselen investigates the pervasive but highly problematic use of alcohol and prostitution which were used to control both black and white mine workers by the state and the mine owners This exploitation of the lifestyle of the single miners later gave way to the official encouragement of working class family life This gave rise to the advent of domestic servants and the introduction of a systematic programme of suburbanisation and cheap public transportation We see how not even these developments were able to protect the poorest and weakest South Africans of the time Van Onselen explains how Afrikaner unemployment and an affinity for trade unionism were paralleled by further marginalisation black unemployment and the resultant formation of prison gangs which flourish even to the present day **Lloyd George's Secretariat** John Turner, 1980 When Lloyd George became Prime Minister during the First World

War he appointed a private secretariat to help him run the complex machinery of wartime government This book drawing extensively on private and public archives describes the work of that Secretariat during its two years of existence and discusses its contribution to policy making and to the development of the Prime Minister's office The Garden Suburb so named from its temporary offices in the garden of 10 Downing Street has won a poor reputation Contemporaries described it as a nest of intrigue and imperialist anti democratic sentiment which helped to turn Lloyd George from a great Radical into a cynical dictator and historians have tended to accept their word This examination reveals a different picture On the one hand wartime government was imperfectly co ordinated and members of the Secretariat performed a genuine administrative task in helping Lloyd George to supervise it and save it from breakdown although their small number and limited resources allowed them to cover only a few politically sensitive questions On the other hand the Garden Suburb was more eclectic in its ideological and political affiliations than has been allowed Home Rule collective security temperance state supervision of industry Christian Science and the revival of agriculture as well as imperial unity and opposition to socialism each contributed through the Secretariat to the climate of ideas in which policy was made

**Sir John Seeley and the Uses of History** Deborah Wormell, 1980-03-06 Sir John Seeley is best known for his remark that the empire was acquired in a fit of absent mindedness

**South Africa, Greece, Rome** Grant Parker, 2017-08-31 How have ancient Greece and Rome intersected with South African histories This book canvasses architecture literature visual arts and historical memory Some of the most telling manifestations of classical reception in South Africa have been indirect for example neo classical architecture or retellings of mythical stories Far from being the mere handmaiden of colonialism and later apartheid classical antiquity has enabled challenges to the South African establishment and provided a template for making sense of cross cultural encounters Though access to classical education has been limited many South Africans black and white have used classical frames of reference and drawn inspiration from the ancient Greeks and Romans While classical antiquity may seem antithetical to post apartheid notions of heritage it deserves to be seen in this light Museums historical sites and artworks up to the present day reveal juxtapositions in which classical themes are integrated into South African pasts

**Geopolitics and Empire** Gerry Kearns, 2009-06-11 Geopolitics and Empire examines the relations between two phenomena that are central to modern conceptions of international relations Geopolitics is the understanding of the inter relations between empires states individuals private companies NGOs and multilateral agencies as these are expressed and shaped spatially This view of the world achieved notoriety as the scientific basis claimed by Nazi ideologists of global conquest However under this or another name similar sets of ideas were important on both sides of the Cold War and now have a renewed resonance in debates over the New World Order of the so called Global War on Terror Geopolitics is a way of describing the conflicts between states as constrained by both physical and economic space It makes such conflicts seem inevitable The argument of the book is that this view of the world continues to appear salient because it serves to make the projection of

force overseas seem an inevitable aspect of the foreign policy of states This quasi Darwinian view of international relations makes the pursuit of Empire appear a responsibility of larger and more powerful states Powerful states must become Empires or submit to others seeking something similar In its associations with Empire the study of Geopolitics returns continually to the ideas of a British geographer who never himself used the term Halford Mackinder is the source of many of the ideas of Geopolitics and by examining his ideas both in their original context and as they have been repeatedly rediscovered and reinvented this book contributes to current discussions of the ideology and practices of the US Empire today
