Webster,2015-09-08 Even Mississippi textbooks rarely mention the part Mississippi men and women played in World War I Mississippians in the Great War presents in their own words the story of Mississippians and their roles This body of work divides into five sections each associated with crucial dates of American action Comments relating to various military actions are interspersed throughout to give the reader a context of the wide variety of experiences Additionally where possible Anne L Webster provides information on the soldier or sailor to show what became of him after his service Webster examined newspapers from all corners of the state for letters home most appearing in newspapers from Natchez Greenville and Pontotoc The authors of the letters gathered here are from soldiers aviators sailors and relief workers engaged in the service of their country Letter writing skills varied from citizens of minimal literacy to those who would later become published authors and journalists These letters reflect the experiences of green young Mississippians as they endured training camp voyaged across the Atlantic to France and participated in horrific battles leaving some scarred for life To round out the picture Webster includes correspondence from nurses and YMCA workers who describe drills uniforms parades and celebrations *The Last Lion: Volume 1* William Manchester,2012-11-06 The first volume in William Manchester s masterful magnum opus account of Winston Churchill s life The Last Lion Visions of Glory follows the first fifty eight years of Churchill s life the years that mold him into the man who will become one of the most influential politicians of the twentieth century In this the first volume Manchester follows Churchill from his birth to 1932 when he began to warn against the re militarization of Germany Born of an American mother and the gifted but unstable son of a duke his childhood was one of wretched neglect He sought glory on the battlefields of Cuba Sudan India South Africa and the trenches of France In Parliament he was the prime force behind the creation of Iraq and Jordan laid the groundwork for the birth of Israel and negotiated the independence of the Irish Free State Yet as Chancellor of the Exchequer he plunged England into economic crisis and his fruitless attempt to suppress Gandhi s quest for Indian independence brought political

chaos to Britain Throughout Churchill learned the lessons that would prepare him for the storm to come and as the 1930 s began he readied himself for the coming battle against Nazism an evil the world had never before seen **C. A. Brannen Series** Jack S. Ballard,2007 Capt Field E Kindley with the famous Eddie Rickenbacker was one of America s foremost World War I flying aces Like Rickenbacker s Kindley s story is one of fierce dogfights daring aerial feats and numerous brushes with death Yet unlike Rickenbacker s Kindley s story has not been fully told until now Field Kindley gained experience with the RAF before providing leadership for the U S Air Service Kindley was the fourth ranking American air ace his exploits earned him a Distinguished Service Cross with Oak Leaf Cluster from the United States and a Distinguished Flying Cross from the British government In February 1920 during a practice drill Kindley led some enlisted men unwittingly entered the bombing target area Buzzing the troops to warn them off the field Kindley somehow lost control of his plane and died in the ensuing crash Using arduously gathered primary materials and accounts of Great War aces Jack Ballard tells the story of this little known hero from the glory days of aerial warfare Through this tale an era and a daring flyer live again **The Last Century of Sea Power, Volume 1** H. P. Willmott,2021-12-22 In this first of three volumes on sea power the author reviews the story of political economic and military oceanic control from the 1890s through WWI Choice The transition to modern war at sea began during the period of the Sino Japanese War 1894 1895 and the Spanish American War 1898 and was propelled forward rapidly by the advent of the dreadnought and the nearly continuous state of war that culminated in World War I By 1922 most of the elements that would define sea power in the 20th century were in place Written by one of our foremost military historians this volume acknowledges the complex nature of this transformation focusing on imperialism the growth of fleets changes in shipbuilding and armament technology and doctrines about the deployment and use of force at sea among other factors There is careful attention to the many battles fought at sea during this period and their impact on the future of sea power The narrative is supplemented by a wide range of reference materials including a detailed census of capital ships built during this period and a remarkable chronology of actions at sea during World War I The author dean of naval historians provides a sweeping look at and analysis of the transformation of naval power His dry wit and sense of irony add spice to the impressive array of facts and analysis of the greatest period of naval warfare Willmott is fearless in his judgments Seapower This book first of a series contains a wealth of facts and opinions the latter provided with Willmott s unerring analytical eye and mordant wit Bernard D Cole National War College **The Rising Sun** John Toland,2014-11-26 The Rising Sun is quite possibly the most readable yet informative account of the Pacific war Chicago Sun Times This Pulitzer Prize winning history of World War II chronicles the dramatic rise and fall of the Japanese empire from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki Told from the Japanese perspective The Rising Sun is in the author s words a factual saga of people caught up in the flood of the most overwhelming war of mankind told as it happened muddled ennobling disgraceful frustrating full of paradox In weaving together the historical facts and human

drama leading up to and culminating in the war in the Pacific Toland crafts a riveting and unbiased narrative history In his Foreword Toland says that if we are to draw any conclusion from *The Rising Sun* it is that there are no simple lessons in history that it is human nature that repeats itself not history Unbelievably rich readable and exciting The best parts of Toland's book are not the battle scenes but the intimate view he gives of the highest reaches of Tokyo politics **Newsweek** **The Rise of Fascism** Patrick G. Cobb William E. Ellis,2017-09-29 This biography of a little remembered Southern humorist delivers on its claim that Cobb's life is emblematic of changes that registered on a larger scale *Journal of Southern History* Humor is merely tragedy standing on its head with its pants torn Irvin S Cobb Born and raised in Paducah Kentucky humorist Irvin S Cobb 1876 1944 rose from humble beginnings to become one of the early twentieth century's most celebrated writers As a staff reporter for the *New York World* and *Saturday Evening Post* he became one of the highest paid journalists in the United States He also wrote short stories for noted magazines published books and penned scripts for the stage and screen In *Irvin S Cobb The Rise and Fall of a Southern Humorist* historian William E Ellis examines the life of this significant writer Though a consummate wordsmith and a talented observer of the comical in everyday life Cobb was a product of the Reconstruction era and the Jim Crow South As a party to the endemic racism of his time he often bemoaned the North's harsh treatment of the South and stereotyped African Americans in his writings Marred by racist undertones Cobb's work has largely slipped into obscurity Nevertheless Ellis argues that Cobb's life and works are worthy of more detailed study citing his wide ranging contributions to media culture and his coverage of some of the biggest stories of his day including on the ground reporting during World War I A valuable resource for students of journalism American humor and popular culture this illuminating biography explores Cobb's life and his influence on early twentieth century letters **Evolution Versus Revolution** Melvyn L. Fein,2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always

saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future

**Very, Very, Very Dreadful** Albert Marrin, 2018-01-09 From National Book Award finalist Albert Marrin comes a fascinating look at the history and science of the deadly 1918 flu pandemic and its chilling and timely resemblance to the worldwide coronavirus outbreak In spring of 1918 World War I was underway and troops at Fort Riley Kansas found themselves felled by influenza By the summer of 1918 the second wave struck as a highly contagious and lethal epidemic and within weeks exploded into a pandemic an illness that travels rapidly from one continent to another It would impact the course of the war and kill many millions more soldiers than warfare itself Of all diseases the 1918 flu was by far the worst that has ever afflicted humankind not even the Black Death of the Middle Ages comes close in terms of the number of lives it took No war no natural disaster no famine has claimed so many In the space of eighteen months in 1918 1919 about 500 million people one third of the global population at the time came down with influenza The exact total of lives lost will never be known but the best estimate is between 50 and 100 million In this powerful book filled with black and white photographs nonfiction master Albert Marrin examines the history science and impact of this great scourge and the possibility for another worldwide pandemic today A Chicago Public Library Best Book of the Year

*Human Hierarchies* Melvyn L. Fein, 2017-09-08 Human beings are

hierarchical animals Always and everywhere people have developed social ranking systems These differ dramatically in how they are organized but the underlying causal mechanisms that create and sustain them are the same Whether they are on the top or bottom of the heap people attempt to be superior to some other persons or group This is the root of Melvyn L Fein s thesis presented in *Human Hierarchies A General Theory* Fein traces the development of changes from hunter gatherer times to our own techno commercial society In moving from small to large communities humans went from face to face contests for superiority to more anonymous and symbolic ones Societies evolved from hunting bands where the parties knew each other through big men societies chieftainships agrarian empires patronage chains caste societies estate systems and market oriented democracies Where once small groupings were organized primarily by strong forces such as personal relationships the now standard large groupings are more dependent on weaker forces such as those provided by social roles Bureaucracies and professional roles have become prominent Bureaucracies allow large scale organizations to maintain control of people by limiting the potential destructiveness of unregulated tests of strength and by clarifying chains of command Their rigidity and unresponsiveness requires that they be supplemented by professional roles At the same time a proliferation of self motivated experts delegate authority downward thereby introducing a more flexible decentralization This analysis is a unique and significant advance in both the sociology and anthropology of stratification among humans Douglas MacArthur Earle Rice,2009 A Companion to the Meuse-Argonne Campaign Edward G. Lengel,2014-03-04 *A Companion to the Meuse Argonne Campaign* explores the single largest and bloodiest battle in American military history including its many controversies in historiographical essays that reflect the current state of the field Presents original essays on the French and German participation in and perspectives on this important event Makes use of original archival research from the United States France and Germany Contributors include WWI scholars from France Germany the United States and the United Kingdom Essays examine the military social and political consequences of the Meuse Argonne and points the way for future scholarship in this area **Imperial Requiem** Justin C. Vovk,2014-06 *Augusta Victoria Mary Alexandra and Zita* were four women who were born to rule In *Imperial Requiem* Justin C Vovk narrates the epic story of four women who were married to the reigning monarchs of Europe s last empires during the late nineteenth and early twentieth centuries Using a diverse array of primary and secondary sources letters diary entries and interviews with descendants Vovk provides an in depth look into the lives of four extraordinary women who stayed faithfully at their husbands sides throughout the cataclysm of the First World War and the tumultuous years that followed At the centers of these four great monarchies were Augusta Victoria Germany s revered empress whose unwavering commitment to her bombastic husband made her a national icon Mary whose Cinderella story and immense personal strength made her the soul of the British monarchy through some of its greatest crises Alexandra the ill fated tsarina who helped topple the Russian monarchy through her ineffective rule and Zita the resolute empress of Austria whose story of loss and exile captivated the world s attention for seven decades *Imperial*

Requiem shares the fascinating story of four princesses who married for love graced imperial thrones and watched as their beloved worlds were torn apart by war revolution heartache and loss      **Bulgaria** Steven Otfinoski,2004 A look at Bulgaria since the fall of communism      *George S.
