Course of Study in History in the Common School Lucy Maynard Salmon,1902 *The Wiley International Handbook of History Teaching and Learning* Scott Alan Metzger,Lauren McArthur Harris,2018-03-02 A comprehensive review of the research literature on history education with contributions from international experts The Wiley International Handbook of History Teaching and Learning draws on contributions from an international panel of experts Their writings explore the growth the field has experienced in the past three decades and offer observations on challenges and opportunities for the future The contributors represent a wide range of pioneering established and promising new scholars with diverse perspectives on history education Comprehensive in scope the contributions cover major themes and issues in history education including policy research and societal contexts conceptual constructs of history education ideologies identities and group experiences in history education practices and learning historical literacies texts media and social spaces and consensus and dissent This vital resource Contains original writings by more than 40 scholars from seven countries Identifies major themes and issues shaping history education today Highlights history education as a distinct field of scholarly inquiry and academic practice Presents an authoritative survey of where the field has been and offers a view of what the future may hold Written for scholars and students of education as well as history teachers with an interest in the current issues in their field The Wiley International Handbook of History Teaching and Learning is a comprehensive handbook that explores the increasingly global field of history education as it has evolved to the present day Teaching the Holocaust in School History Lucy Russell,2006-08-17 If we expose students to a study of human suffering we have a responsibility to guide them through it But is this the role of school history This issue is the rationale behind teaching the Holocaust primarily historical moral or social Is the Holocaust to be taught as a historical event with a view to developing students critical historical skills or as a tool to combat continuing prejudice and discrimination These profound questions lie at the heart of Lucy Russell s fascinating analysis of teaching the Holocaust in school history She considers how the topic of the Holocaust is currently being taught in schools in the UK and overseas Drawing on interviews with educationalists academics and teachers she discovers that there is in fact a surprising lack of consensus regarding the purpose of and approaches to teaching the Holocaust in history Indeed the majority view is distinctly non historical there is a tendency to teach the Holocaust from a social and moral perspective and not as history This book attempts to explain and debate this phenomenon *Teaching History Creatively* Hilary Cooper,2016-11-10 The fully updated second edition of Teaching History Creatively introduces teachers to the wealth of available approaches to historical enquiry ensuring creative effective learning This book clearly sets out the processes of historical enquiry demonstrating how these are integrally linked with key criteria of creativity and helps

readers to employ those features of creativity in the classroom Underpinned by theory and research it offers informed and practical support and is illustrated throughout with examples of children's work Key themes addressed include investigating sources using archives in your own research project becoming historical agents and history detectives drama for exploring events myths and legends communicating historical understanding creatively With brand new chapters from the Stone Ages to the Iron Age using prehistoric sources The withdrawal of the Romans and the conquest and settlement of Britain by the Anglo Saxons in addition to many new case studies this exciting edition puts an emphasis on accessible recent research new evidence and interpretations and encourages the creative dynamism of the study of history Teaching History Creatively provides vivid and rich examples of the creative use of sources of approaches to understanding chronology and concepts of time and of strategies to create interpretations It is an essential purchase for any teacher or educator who wishes to embed creative approaches to teaching history in their classroom Learning to Teach History in the Secondary School Terry Haydn, Alison Stephen, James Arthur, Martin Hunt, 2003-12-16 The revised edition of the highly successful first edition which has established itself as the student reference guide for student teachers of history *Announcement of Courses* Stanford University, 1916 **Empathy and History** Tyson Retz, 2018-07-27 Empathy and History offers a comprehensive and dual account of empathy's intellectual and educational history Beginning in an influential educational movement that implanted the concept in R G Collingwood's re-enactment doctrine the book goes back to reveal the fundamental role that empathy played in the foundation of the history discipline before tracing its reception and development in twentieth century hermeneutics and philosophy of history Attentive to matters of practice it illuminates the distinct character of the historical context that empathetic understanding seeks to capture and sets out a new approach to empathy as a special variety of historical questioning **History Teacher's Magazine**, 1910 **Doing History** Linda S. Levstik, Keith C. Barton, 2015-01-30 Now in its fifth edition Doing History offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The premise is that children can engage in valid forms of historical inquiry collecting and analyzing data examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing discussion and debate The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory Doing History emphasizes diversity of perspectives in two ways readers encounter students from a variety of backgrounds and students themselves look at history from multiple perspectives It provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning **Teaching U.S. History** Diana

Turk, Rachel Mattson, Terrie Epstein, Robert Cohen, 2010-01-12 Teaching U S History is a must read for any aspiring or current teacher who wants to think critically about how to teach U S history and make historical discussions come alive in our schools classrooms
