Regime Shift Comparative Dynamics Of The Japanese Political Economy Cornell Studies In Political Economy:

Regime Shift T. J. Pempel, 1998-12-15 The Liberal Democratic Party which dominated postwar Japan lost power in the early 1990s During that same period Japan's once stellar economy suffered stagnation and collapse Now a well known commentator on contemporary Japan traces the political dynamics of the country to determine the reasons for these changes and the extent to which its political and economic systems have been permanently altered T J Pempel contrasts the political economy of Japan during two decades the 1960s when the nation experienced conservative political dominance and high growth and the early 1990s when the bubble economy collapsed and electoral politics changed The different dynamics of the two periods indicate a regime shift in which the present political economy deviates profoundly from earlier forms This shift has involved a transformation in socioeconomic alliances political and economic institutions and public policy profile rendering Japanese politics far less predictable than in the past Pempel weighs the Japanese case against comparative data from the United States Great Britain Sweden and Italy to show how unusual Japan's political economy had been in the 1960s Regime Shift suggests that Japan's present troubles are deeply rooted in the economy's earlier success It is a much anticipated work that offers an original framework for understanding the critical changes that have affected political and economic institutions in Japan

Japan and East Asian Regionalism S. Javed Maswood, 2012-12-06 This book studies specific regional issues and problems exploring recent related political developments in Japan and how these might impact on future foreign policy priorities and objectives The expert body of contributors consider issues such as the nexus between domestic politics and foreign policy environmental aid and management human rights and democracy and conflict management

Governing the Global Economy Dag Harald Claes, Carl Henrik Knutsen, 2011-04-29 *Governing the Global Economy* explores the dynamic interaction between politics and economics between states and markets and between international and domestic politics The contributors study how the governance of the global economy is shaped by interaction between international institutions domestic politics and multinational enterprises from a wide range of theoretical perspectives and methods Presenting a fresh approach to the study of international political economy this volume covers the systemic characteristics of the liberal world order the role of international institutions domestic economic politics and policies the strategies and behaviour of multinational enterprises The volume also includes topical discussion of the challenges to the global economy from the recent financial crisis and analysis of economic politics in particular the regions of

Africa and Europe as well as the countries of Japan and South Korea With contributions from prominent scholars in political science economics and business studies who have all contributed greatly to advancing the study of political economy over the last decade *Governing the Global Economy* aims to bridge the gap between undergraduate textbooks and advanced theory It is essential reading for all students and scholars of international political economy and globalization **The Far East and Australasia 2003** Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume **Handbook on East Asian Economic Integration** Kimura, Fukunari,Pangestu, Mari,Thangavelu, Shandre M.,Findlay, Christopher,2021-12-09 This comprehensive Handbook provides an in depth analysis of the nature of East Asian economic integration alongside thoughtful insights into contemporary issues such as agricultural development structural transformation and East Asian trade alongside skills and human capital development policies of ASEAN Contributors also provide detailed explanations on trade poverty and Aid for Trade institutional reforms regulatory reform and measuring integration Asian Regional Governance Kanishka Jayasuriya,2004-07-31 Jayasuriya looks at the changing global and domestic political economies shaping the new regionalism in Asia and examines the relationship between regional domestic political and economic structures and forms of regional governance Well known contributors in the field focus on the impact of globalization on Asian regionalism new security challenges monetary cooperation sovereignty democratization industry policy and China s engagement with southeast Asia Providing a detailed overview of the conceptual foundations of regional governance this text is an indispensable resource for all who want to understand the emerging dynamics of regionalism in the Asia Pacific Governing Global Production J. Wilson,2013-02-04 Northeast Asian steel industries have developed global production networks but by spanning multiple national spaces these networks unite many national economies while belonging exclusively to none Who therefore is in control Jeffrey D Wilson examines how states and firms coordinate their activities to govern global production **Foreign Labor and Political Economy in Israel and Japan** David Vance Stoll Bartram,1999 **Political Economy and the Changing Global Order** Richard Stubbs,Geoffrey R. D. Underhill,2006 Covering the basics necessary for a course in international political economy IPE this text comes from a non American critical perspective and the contributors are drawn from prominent scholars of IPE around the world **Persistence of Institutions** Jiho Jang,2002 Conventional wisdom has it that globalization invites or forces countries to converge on a universally superior pattern of organization and economic behaviors This dissertation argues against this view of efficiency convergence theories and demonstrates that there is variation in how different states respond to similar external pressures Globalization and economic crises are not homogeneous in their effects nor do they force countries industries and firms to converge toward a homogeneous organizational pattern of best practice or optimal efficiency A key predictor of this is institutions history and values embedded in and upholding those institutions Based on historical institutionalism this study theoretically argues that there is

continuity in institutions emphasizing the constraints created by existing structures and institutions This analysis is based on a number of considerations 1 the interlocking nature of institutions and thus difficulty of transforming them 2 the persistence of attitudes values and practices that sustain and put those institutions in place and 3 the way in which institutions reinforce the values attitudes and practices that created them in the first place Understanding the different mechanism of sustaining institutional persistence is the key to understanding why common international trends frequently have such different domestic consequences disrupting previously stable patterns in some countries while washing over others seemingly without effect As an example of a country in which neoliberal policies have been significantly limited this study assesses South Korea hereafter referred to as Korea as a case study encompassing approximately three decades of state activism vis vis corporations The result found in this study is that there is no rapid disappearance of institutional pattern of state activism in Korea This study examining four institutions 1 state led ideology 2 centralized and personalized power of the president 3 bureaucratic system as a function of policy implementation and 4 the state advised financial sector This study demonstrates that whereas formal institutions collapse or are dismantled informal institutions such as social networks and operating procedures persist to shape the behavior of economic actors Institutional structure is so integrated that it cannot be easily divided into separate parts for the new regime in order to produce efficient solutions to the economic crisis This study contributes to the new insight of state activism in terms of how formal and informal institutions are linked in providing a context for policy patterns This study helps scholars understand the process in which the state often uses formal institutions to validate decisions made in the context of informal ones and informal institutions to bypass constraints of formal ones

Nothing New in the (North) East? Luke Nattage, 2006 **Macalester International**, 2002 **Technological Change, Sectoral Institutions, and Policymaking** Seungjoo Lee, 2000 **Joint U.S.-Korea Academic Studies**, 2009 *China Review*, 2002 *The Political Economy of East Asia* Ming Wan, 2008 For students of international political economy it is hard to ignore the growth dynamism and global impact of East Asia Japan and China are two of the largest economies in the world in a region now accounting for almost 30 percent more trade than the United States Canada and Mexico combined What explains this increasing wealth and burgeoning power In his new text Ming Wan illustrates the diverse ways that the domestic politics and policies of countries within East Asia affect the region's production trade exchange rates and development and are in turn affected by global market forces and international institutions Unlike most other texts on East Asian political economy that are essentially comparisons of major individual countries Wan effectively integrates key thematic issues and country specific examples to present a comprehensive overview of East Asia's role in the world economy The text first takes a comparative look at the region's economic systems and institutions to explore their evolution a rich and complex story that looks beyond the response to Western pressures Later chapters are organized around close examination of production trade finance and monetary relations While featuring extended discussion of China Japan South Korea and

Taiwan Wan is inclusive in his analysis with coverage including Myanmar Thailand Laos Vietnam Cambodia Malaysia Singapore Indonesia Brunei and the Philippines The text is richly illustrated with more than fifty tables figures and maps that present the latest economic and political data to help students better visualize trends and demographics Each chapter ends with extensive lists of suggested readings 田口浩二,2008 *Far East and Australasia 2008* Europa Publications,Routledge Staff,2007-11-15 A systematic survey of all the countries of East Asia South East Asia Australia New Zealand and the Pacific Islands Essential for anyone with a professional interest in the region Keeps up to date with current economic and political developments Part One General Survey Written by acknowledged authorities on the Pacific Rim this collection of essays forms an impartial overview of the area as a whole Topics include regional security issues human rights environmental issues recent economic trends and USA s relations with the Asia Pacific region Country Surveys Individual chapters on each country containing articles on geography history and the economy an economic and demographic survey of the latest available statistics on population agriculture industry finance trade transport tourism and education a directory of names addresses and contact numbers covering the constitution government legislature judiciary political organizations diplomatic representation religion the media finance trade industry tourism defence and education a select bibliography Regional Information Includes all major international organizations active in the region their aims activities publications and principal personnel a detailed survey of major commodities in Asia and the Pacific a directory of research institutes specializing in the region select bibliographies of books and periodicals covering the Far East and Australasia and an index of regional organizations **The Journal of Japanese Studies** ,2004
