

THE FASTEST- AND SLOWEST-GROWING METROPOLITAN AREAS IN THE U.S.

This map shows the United States' 25 fastest and 25 slowest major metropolitan areas by population growth since 2010. Each area is marked with its location, name, and percentage of change in population.

Metropolitan areas contain multiple cities, but for the sake of readability, this map labels only the principal city. An area's percentage of change is measured by the difference from its census-reported population in 2010 to its estimated population during 2017. Metropolitan areas with fewer than 300,000 residents are excluded from this map.
