Regional Dynamics Of Language Differentiation In Belgium A Study In Culturalpolitical Geography:

The Regional Dynamics of Language Differentiation in Belgium Alexander B. Murphy, Jeffrey A. Gritzner, 1988

Regional Worlds: Advancing the Geography of Regions Martin Jones, Anssi Paasi, 2017-10-02 A key concern in the debate and empirical research on the geography of regions is the evolution of the conceptualizations and practical uses of the idea of region. This idea prioritises both the intellectual and the practical development of regional studies. This book drives the discussion further. It stresses the complex forms of agency advocacy involved in the production and reproduction of regional spaces and space of regionalism as well as the importance of geohistory and context. The book moves beyond the territorial relational divide that has characterized debates on regions and regional borders since the 1990s. The contributors answer key questions from different conceptual and concrete contextual angles and to motivate readers to reflect on the perpetual significance of regional concepts and how they are mobilized by various actors to maintain or transform the contested spatialities of societal power relations. This book was based on a special issue of *Regional Studies*. **The Routledge**

Handbook of Language Policy and Planning Michele Gazzola, François Grin, Linda Cardinal, Kathleen Heugh, 2023-09-28 The Routledge Handbook of Language Policy and Planning is a comprehensive and authoritative survey including original contributions from leading senior scholars and rising stars to provide a basis for future research in language policy and planning in international, national, regional and local contexts. The Handbook approaches language policy as public policy that can be studied through the policy cycle framework. It offers a systematic and research informed view of actual processes and methods of design, implementation and evaluation. With a substantial introduction, 38 chapters and an extensive bibliography, this Handbook is an indispensable resource for all decision makers, students and researchers of language policy and planning within linguistics and cognate disciplines such as public policy, economics, political science, sociology and education.

Routledge Library Editions: Political Geography Various, 2021-06-23 From votes to strikes to street violence, politics is intrinsically geographical. Many of the books in this set, originally published between 1964 and 1990, illustrate that the social contexts provided by localities are crucial in defining distinctive political identities and subsequent political activities.

Dividing the Land Edward T. Price, 1995-04-15 Many property lines drawn in early America still survive today and continue to shape the landscape and character of the United States. Surprisingly though, no one until now has thoroughly examined the process by which land was divided into private property and distributed to settlers from the beginning of colonization to early nationhood. In this unprecedented study, Edward T. Price covers most areas of the United States in which the initial division of land was controlled by colonial governments: the original thirteen colonies and Maine, Vermont, Kentucky, West Virginia, Tennessee, Louisiana and Texas. By examining different land policies and the irregular pattern of property that resulted from them, Price chronicles the many ways colonies managed land to promote settlement, develop agriculture, defend frontiers and attract investment. His analysis reveals as much about land planning techniques carried to America from

Europe as innovations spurred by the unique circumstances of the new world Price's analysis draws on his thorough survey of property records from the first land plans in Virginia in 1607 to empresario grants in Texas in the 1820s This breadth of data allows him to identify regional differences in allocating land assess the impact of land planning by historical figures like William Penn of Pennsylvania and Lord Baltimore of Maryland and trace changes in patterns of land division and ownership through transfers of power among Britain the Netherlands France Spain Mexico and the Republic of Texas Geography of Time, Place, Movement and Networks, Volume 1 Stanley D. Brunn, 2024-05-23 This book describes the journey concept relating to cultural and social history of Western and non Western worlds By including time journeys negotiated by women racial minorities artists and scholars from the humanities and social natural and physical scientists the book explores time space journeys in personal professional and cultural life and place experiences The sixteen chapters in this book offer new insights into time place worlds in different contexts including history culture astronomy and science fiction The concept is one where science and art worlds intersect in the emerging worlds of the unknown With contributors from different disciplines and countries expanding our understanding of this concept this volume provides a valuable source for disciplinary and interdisciplinary classes and seminars exploring these scholarly frontiers *Just Democracy* Philippe Van Parijs, 2014-12-01 Philippe Van Parijs is one of the world's leading political philosophers In this book he argues that the purpose of democracy should be to promote justice we need not just democracy in the sense of unqualified democracy but a just democracy Machiavelli and Rawls must be brought together In a series of provocative and timely essays he explores what creating such a just democratic political system would involve in order to tackle such issues as intergenerational justice multiculturalism and linguistic diversity He illustrates his arguments with examples drawn from the European Union and his native Belgium Calvinists Incorporated Anne Kelly Knowles, 1997-02 Bringing immigrants onstage as central players in the drama of rural capitalist transformation Anne Kelly Knowles traces a community of Welsh immigrants to Jackson and Gallia counties in southern Ohio After reconstructing the gradual process of community building Knowles focuses on the pivotal moment when the immigrants became involved with the industrialization of their new region as workers and investors in Welsh owned charcoal iron companies Setting the southern Ohio Welsh in the context of Welsh immigration as a whole from 1795 to 1850 Knowles explores how these strict Calvinists responded to the moral dilemmas posed by leaving their native land and experiencing economic success in the United States Knowles draws on a wide variety of sources including obituaries and community histories to reconstruct the personal histories of over 1 700 immigrants The resulting account will find appreciative readers not only among historical geographers but also among American economic historians and historians of religion **Historical Dictionary of Brussels** Paul F. State, 2015-04-16 Brussels has become the capital of Europe serving as the headquarters for key regional and international agencies including the European Union the North Atlantic Treaty Organization UN organizations multinational businesses lobbying firms governmental groups and nongovernmental

organizations Its status as a diplomatic political and economic center assumes ever greater importance as the EU grows in depth and breadth This second edition of Historical Dictionary of Brussels covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Brussels

Nation Shapes Fred M. Shelley, 2013-04-23 This book provides a concise and comprehensive description of all of the borders of every country in the contemporary world including physical boundaries their historical evolution and border related conflicts with other countries Nation Shapes The Story behind the World s Borders examines the importance of country boundaries the disconnects between these borders related factors such as cultures religions and economies and how conflicts over boundaries between neighboring countries are articulated The book is organized geographically and by region of the world the Americas Africa Europe the Middle East South and Southeast Asia East and Southeast Asia and Australia and Oceania It provides comprehensive descriptions of the boundaries of each country in the world the historical evolution of these boundaries and current and potential future boundary disputes and conflicts While the work contains an entry for each country the emphasis is on countries of major importance in the modern global economy

The Minorities of Cyprus Nicholas Coureas, Marina Elia, Andrekos Varnava, 2009-05-27 This book examines the various minorities living in the island of Cyprus from the early modern late Venetian and early Ottoman period down to the present day It charts their history with special emphasis on their relations with the powers ruling Cyprus and with the two dominant Christian Greek and Muslim Turkish communities The theme running through the book is that despite being significant members of Cyprus society the three historical minorities Maronites Armenians and Latins were only included in society to a certain extent by the two major communities This was formalised in the post independence 1960 period when they were compelled to become members of either dominant community and thus they suffered internal exclusion by being regarded as religious sub groups of one of the two dominant communities rather than national minorities in their own right Within this general context the social legal and political roles customs culture and language of the various minorities are examined as they evolved through time and in response to internal and external developments affecting Cyprus in the political economic and global spheres They are discussed not as static entities but as evolving groups that have adapted with greater or lesser degrees of success to the radical and at times painful changes Cyprus has undergone especially over the last 150 years in all walks of life Finally the question of what the future holds for the minorities of the island in the light of Cyprus EU membership and the prospect of reunification are also analysed This book is a product of the conference Minorities of Cyprus Past Present and Future which was held on 24 and 25 November 2007 at the European University Cyprus

Human Geography Erin H. Fouberg, Alexander B. Murphy, Harm J. de Blij, 2009-01-27 Taking us from our hominid ancestors to the megacities of today Human Geography brings a new

emphasis to the political and economic issues of human geography The State, Development and Identity in Multi-Ethnic Societies Nicholas Tarling, Terence Gomez, 2008-03-03 This book examines ethnic communities identity economy society and state and the links between them in a range of countries across Asia challenging the widely held belief that an authoritarian political system is necessary to ensure communal co existence in developing countries where ethnic minorities have a considerable economic presence *Defending French in Flanders, 1873-1974* David J. Hensley, 2023-12-28 This book examines the efforts of the French speaking minority in Flanders Belgium to maintain a legal and social presence of the French language in Flemish public life Chronologically the study is bookended by two developments almost exactly a century apart In 1873 the first laws were passed which required the use of Dutch in some aspects of public administration in Flanders challenging the de facto use of French among the Flemish ruling class One hundred and one years later the last French daily newspaper in Flanders collapsed marking the end of a once vibrant French language public sphere in Flanders The author contends that the methods and arguments by which French speakers defended the role of French in Flemish public life changed along with the social and political situation of this minority As the Flemish movement grew over the course of the twentieth century French speakers appeals to the free choice of language lost traction and they put forward claims that they represented an ethnolinguistic minority who deserved protection for their mother tongue Providing new insights for scholars of European history and in conversation with the literature on liberalism national identity and Francophonie this book demonstrates how the debate over the role of French in Flanders was at the center of Belgium s ethnolinguistic conflict the repercussions of which continue to be felt to this day **The Belgian Army and Society from Independence to the Great War** Mario Draper, 2018-02-13 This book explores Belgian state building through the prism of its army from independence to the First World War It argues that party politics which often ran along geographical linguistic and religious lines prevented both Flemings and Walloons from reconciling their regional identities into a unified concept of Belgian nationalism Equally it obstructed the army from satisfactorily preparing to uphold Belgium s imposed neutrality before 1914 Situated uneasily between the two powerhouses of nineteenth century Europe Belgium offers a unique insight into the concepts of citizenship and militarisation in a divided society in the era of fervent nationalism By examining the composition experience and image of the army s officer corps and rank and file as well as those of the auxiliary forces this book shows that although military and civilian society often stood aloof from one another the army as a national institution offered a fleeting glimpse into the dichotomy that was pre war Belgium *Urban Regimes and Strategies* A. G. Papadopoulos, 1996-11-15 If a city based its planning decisions on the needs of an international bureaucracy rather than on the traditional needs of local residents and businesses how would that city change Alex G Papadopoulos addresses this question with a detailed study of how the nineteenth century quarters of Leopold and Nord Est in Brussels have been transformed materially and functionally since the European Communities decided to locate their administrative headquarters

there in 1957 Drawing on game and rational choice theories spatial analysis and urban morphology studies Papadopoulos analyzes how the landscape of Brussels s center has evolved over the last three decades under the influence of successive coalitions of local and foreign elites He describes how international real estate developers form ephemeral flexible and specialized regimes of cooperation with governmental organizations at all levels and with special interest lobbies to carry out major urban projects while local neighborhood groups conservationists and political factions such as the Green Party oppose them with qualitatively similar regimes of resistance *Developments in Electoral Geography* Ron Johnston,Fred M. Shelley,Peter J. Taylor,2014-10-03 The essays in this collection show how electoral geography has shifted from empiricist activity towards a closer involvement with the wider issues addressed by social scientists They illustrate the potential contributions that electoral geographers can make towards the understanding of global national and local societies

Culture, Identity and Nationalism Timothy Baycroft,2004 This study examines the evolution of national and regional cultural and political identities in that northern region of France which borders Belgium over the two centuries which followed the French Revolution During that time the region was transformed by the development of the industrial economy population shifts war and occupation and numerous changes of political regime Through an analysis of a wide range of issues including language regional and national political movements educational policy attitudes towards immigrants and the border the press trade unions and the church as well as the attitude of the French State the author questions traditional interpretations of the process of national assimilation in France At the same time he illustrates how the Franco Belgian border originally an arbitrary line through a culturally homogeneous region became not only a significant marker for the identity of the French Flemish but a real cultural division TIMOTHY BAYCROFT is lecturer in French history University of Sheffield **The Party Politics of Territorial Reforms in Europe** Emanuele Massetti,Simon Toubeau,2020-07-24 The book analyses how political parties compete and strategise on the issue of territorial reform using case studies that include countries from both Western Belgium Germany Italy and Spain and Central Eastern Europe Poland Slovakia and Romania Each case study considers different drivers of decentralization such as territorial identities and the demands of regionalist parties for territorial autonomy or independence efficiency concerns related to issues of uneven economic development and economic competitiveness the pressure from supra national organizations especially the EU as well as different combinations of these drivers They also consider how the ideology and organisation of state wide parties and the institutional context in which they compete shape their responses to these drivers and their strategy towards the question of territorial reform This collection investigates the logic of the actions that guide political parties strategy to highlight trends that are apparent across the case studies This book was originally published as a special issue of West European Politics A Research Agenda for Territory and Territoriality David Storey,2020-11-27 This innovative Research Agenda draws together discussions on the conceptualization of territory and the ways in which territory and territorial practices are intimately bound with issues of

power and control Expert contributors provide a critical assessment of key areas of scholarship on territory and territoriality across a wide range of spatial scales and with examples drawn from the global landscape
