Regional Integration In Early Modern Scandinavia:

Regional Integration in Early Modern Scandinavia Finn-Einar Eliassen, Jørgen Mikkelsen, Bjørn Poulsen, 2001 In the Nordic countries regions and regionalism have played a central role in politics administration economic and cultural life for a long time The differences in voting behavior language religious views social structure and attitudes between districts regions and provinces within each country are often striking In addition to these internal regions there are also greater transnational regions cutting across state and national boundaries and incorporating parts of several present day states The editors of this book have brought together a number of the most active and experienced practitioners in this field inviting them to present some of the most interesting results from their own research and readings in regional history in a form accessible also to a non Nordic readership *The Scandinavian Early Modern World* Jonas Monié Nordin, 2020-05-14 The Scandinavian Early Modern World explores the early modern colonialism globalization and modernity in Scandinavia along with its colonies and its role in the shaping of the modern world Scandinavians played an active role in early modern globalization and were present as traders as colonialists and as consumers in competition and collaboration with indigenous agents and other colonial actors in America Africa and India This story is rarely told The joint study of history historical landscape and material culture from a Scandinavian vantage point provides for a comprehensive and original interpretation of the birth of globalization and modernity New perspectives and data are presented deepening and challenging our knowledge of the long seventeenth century In depth analysis of case studies encompassing four continents and their material entanglement makes this book a unique contribution to historical archaeology The Scandinavian Early Modern World aims at students and scholars of anthropology archaeology and history alike taking interest in the global connections of the long seventeenth century and the role of Scandinavia in that process **The Cambridge History of Scandinavia: Volume 2, 1520-1870** E. I. Kouri, Jens E. Olesen, 2016-03-24 Volume 2 of The Cambridge History of Scandinavia provides a comprehensive and authoritative account of the Scandinavian countries from the close of the Middle Ages through to the formation of the nation states in the mid nineteenth century Beginning in 1520 the opening chapters of the volume discuss the reformation of the Nordic states and the enormous impact this had on the social structures cultural identities and traditions of individual countries With contributions from 38 leading historians the book charts the major developments that unfolded within this crucial period of Scandinavian history Chapters address topics such as material growth and the centralisation of power in the sixteenth and seventeenth centuries as well as the evolution of trade foreign policy and client states in the eighteenth century Volume 2 concludes by discussing the new economic and social orders of the nineteenth century in connection with the emergence of the nation states *Performing Nordic Heritage* Lizette Gradén, 2016-05-13 The performance of heritage takes place in prestigious institutions such as museums and archives in officially sanctioned spaces such as jubilees and public monuments but also in more mundane ephemeral and banal cultural practices such as naming of phenomena viewing

exhibitions or walking in the countryside This volume examines the performance of Nordic heritage and the shaping of the very idea of Norden in diverse contexts in North America the Baltic and the Nordic countries and examines the importance of these places as sites for creating and preserving cultural heritage Offering rich perspectives on a part of Europe which has not been the centre of discussion in the Anglophone world this volume will be of value to a wide readership including cultural historians museum practitioners policy makers and scholars of heritage ethnology and folkloristics

The Value of Arts and Culture for Regional Development Lisbeth Lindeborg, Lars Lindkvist, 2013-08-21 In this new volume 28 Scandinavian researchers and others who are active in arts and culture seek to answer the questions What has been the effect of regional and local investment in arts and culture And what positive and negative experiences have there been This book describes and analyzes the extent to which cultural investments at local and regional levels have stimulated development and led to essential processes of change for the community in general Of special interest is how different places manage to turn the tide What do their development processes involve Which ways and means do they use to go forward in order to change their paths and start anew These are just a few of the important questions addressed in this book One of the most important findings is that while you can never transfer the successful renewal of one place to another like a blueprint certain common patterns in the cultural processes are discernible The contributors to this book show the breadth of theoretical tools that can be used to increase awareness of the significance of culture for regional development Throughout the book readers will find a multitude of theoretical concepts from entrepreneurship theory organizational institutionalism and cultural economy to cultural planning and art management This book will appeal to scholars and practitioners of urban and regional studies and cultural and creative economics

Urban Life in Nordic Countries Heiko Droste, 2023-12-18 Based on empirical studies this book investigates the particular urban history of the North from the 17th century until today in a comparative Northern perspective *Urban Life in Nordic Countries* is the result of a conference on Urbanity in the Periphery held in Stockholm on the occasion of the 100th anniversary of the Institute of Urban History at Stockholm University aimed at establishing the field of the urban history of the North and creating a network of urban historians of the North With a broad range of contributions from Sweden Finland Denmark Norway and Estonia the volume seeks to further discourse on the region within national and transnational lenses and to highlight possibilities for new cooperation among researchers Urban history is a transdisciplinary subject engaging not only historians but also ethnologists sociologists urban planners and cultural geographers and this book targets all scholars whose work requires a historical understanding of the Northern town European urban historians outside the region will also find this text valuable as one of the few studies to consider the urban history of the continent from a North centered viewpoint

In the Doorway to Development Ragnhild Hutchison, 2012-03-02 Set within the growing literature on European economy in the late 18th and early 19th century this book furnishes a pre history to Norway s rapid structural transformation and accelerated economic growth after the mid nineteenth century It

argues that Norway in the long 18th century benefitted from an export led growth which exploited its abundant natural resources The income from exports fuelled a substantial increase in consumption among rural households while pluriactivity a household strategy to balance market oriented production and consumption with self sufficiency in the insufficiently developed market succeeded in offering a soft way toward modern market society *Alan S. Milward and a Century of European Change* Fernando Guirao, Frances M. B. Lynch, Sigfrido M. Ramírez Pérez, 2012 The main purpose of the book is to introduce the work of Alan S Milward and to acknowledge the full magnitude of his scientific contribution to contemporary British and European history The book is a collection of essays which provide a better understanding of Alan Milward s extensive intellectual work for future scholars and facilitate the knowledge and transmission of his published work to present and future generations of students scholars in the various disciplines concerned and the general public The series of original contributions which this book contains are related to or reflect critically upon Milward s own contributions to the fields of political diplomatic and socio economic history political science economics international relations and European Studies in general This book honors Alan Milward through a better understanding of his many pioneering contributions in the fields of contemporary European history in general and the history of European integration in particular Although the volume does not aim to be a substitute for Milward s work itself it illuminates and assesses his creative process along fifty years of continued and intense work as well as the impact of his main work and the continuing relevance of his main theses today

European Cities and Towns Peter Clark, 2009-01-29 Examines and explains the waves of urbanization across Europe from the fall of the Roman empire to the dawn of the 21st century covering the whole of Europe north and south east and west and looking at urban trends the urban economy social developments cultural life and governance *Northern Atlantic Islands and the Sea* Andrew Jennings, Silke Reeploeg, Angela Watt, 2017-05-11 Iceland the Faroe Islands Orkney Shetland and to some extent the Hebrides share both a Nordic cultural and linguistic heritage and the experience of being surrounded by the ever present North Atlantic Ocean This has been a constant in the islanders history forging their unique way of life influencing their customs and traditions and has been instrumental in moulding their identities This volume is an exploration of a rich intimate and at times terrifying relationship It is the result of an international conference held in April 2014 when scholars from across the North Atlantic rim congregated in Lerwick Shetland to discuss maritime traditions islands in Old Norse literature insular archaeology folklore and traditional belief The chapters reflect the varied origins of the contributors Icelanders are well represented as are scholars based in Orkney and Shetland indicating the strength of scholarship in these seemingly isolated archipelagos Peripheral they may be to the UK but they lie at the heart of the North Atlantic at the intersection of British and Nordic cultures This book will be of interest to scholars of a wide range of disciplines such as those involved in island studies cultural studies Old Norse literature Icelandic studies maritime heritage oceanography linguistics folklore British studies ethnology and archaeology Similarly it will also appeal to researchers from a wide

geographical area particularly the UK and Scandinavia and indeed anywhere where there is an interest in the study of islands or the North Atlantic

Denmark, 1513-1660 Paul Douglas Lockhart, 2007-08-23 One of the largest states in Europe and the greatest of the Protestant powers Denmark in the sixteenth and seventeenth centuries was at the height of its influence Embracing Norway Iceland portions of southern Sweden and northern Germany the Danish monarchy dominated the vital Baltic trade However its geopolitical importance far exceeded its modest resources Paul Douglas Lockhart examines the short and perhaps unlikely career of Denmark as the major power of northern Europe exploring its rise to the forefront of European affairs and its subsequent decline in fortunes following its disastrous involvement in the Thirty Years War Using the latest research from Danish and other Scandinavian scholars Lockhart focuses on key issues from the dynamic role of the Oldenburg monarchy in bringing about Denmark's European integration to the impact of the Protestant Reformation on Danish culture The multi national character of the Danish monarchy is explored in depth in particular how the Oldenburg kings of Denmark sought to establish their authority over their sizable and oftentimes contentious Norwegian Icelandic and German minorities Denmark's participation in international politics and commerce is also investigated along with the power struggle between Denmark and its rival Sweden over Baltic dominion and the Danes unique approach to internal governance

The Integration of the European Economy, 1850-1913 Lee A. Craig, Douglas Fisher, 2016-07-27 This volume documents the economic integration of the European national economies over the period 1850-1913 The authors concentrate on the macroeconomic aspects of this integration focusing on measures of aggregate output and monetary aggregates as they relate to policy concerns such as those surrounding the implementation of the gold standard as well as the possible interaction of nominal and real factors in both growth and cycles They also date the European cycle and show a close coincidence across nations

The Urban Logistic Network Giovanni Favero, Michael-W. Serruys, Miki Sugiura, 2019-11-20 This edited collection examines the formation of urban networks and role of gateways in Europe from the Middle Ages to the modern world In the past gateway cities were merely perceived as transport points only relevant to maritime shipping Today they are seen as the organic entities coordinating the allocation of resources and supporting the growth efficiency and sustainability of logistics including both the transport and distribution of goods and services Using different historical case studies the authors

consider how logistics shaped urban networks and were shaped by them

Cities and Economy in Europe Katalin Szende, Erika Szívós, Boglárka Weisz, 2024-02-29 Exploring new perspectives concerning regions traditionally considered on the margins of Europe this book fills a gap in current historiography through its analysis of cities space and economy from the High Middle Ages to the present Markets trade and economy in general have formed the backbone of urban life ever since the emergence of cities and towns but classical theorists have largely focused on developments in Western Europe Urban research in the last few decades has advanced in many ways to supersede and correct this still influential image and to include other parts of Europe into the analytical framework Building on these emerging methodologies this volume pays

close attention to the fringes of Europe in the East North West and South The essays discuss the development of various spaces as nodal points for the exchange and production of commodities that took place in cities and towns The scope of this work allows for a point of comparison to frequently studied examples in Europe encouraging readers to identify larger patterns beyond individual examples Cities and Economy in Europe Markets and Trade on the Margins from the Middle Ages to the Present is the perfect resource for students and researchers of economic and urban history

An Economic History of Modern Sweden Lennart Schön,2012 This book gives a comprehensive account of Swedish economic development from 1800 to the early years of the new millennium

A History of States and Economic Policies in Early Modern Europe Silvia A. Conca Messina,2019-04-24 Why was early modern Europe the starting point of the economic expansion which led to the Industrial Revolution What was the state s role in this momentous transformation A History of States and Economic Policies in Early Modern Europe takes a comparative approach to answer these questions demonstrating that wars public finance and state intervention in the economy were the key elements underlying European economic dynamics of the era Structured in two parts the book begins by examining the central issues of the state economy relationship including military revolution the fiscal state and public finance mercantilism the formation of commercial empires and the economic war between Britain and France in the 1700s The second part presents a detailed comparison between the different economic policies of the most important European states looking at their unique demographic economic military and institutional contexts Taken as a whole this work provides a valuable analysis of early modern economic history and a picture of Europe s global position on the eve of the Industrial Revolution This book will be useful to students and researchers of economic history early modern history and European history

The City in the Muslim World Mohammad Gharipour,Nilay Ozlu,2015-03-05 Presenting a critical yet innovative perspective on the cultural interactions between the East and the West this book questions the role of travel in the production of knowledge and in the construction of the idea of the Islamic city This volume brings together authors from various disciplines questioning the role of Western travel writing in the production of knowledge about the East particularly focusing on the cities of the Muslim world Instead of concentrating on a specific era chapters span the Medieval and Modern eras in order to present the transformation of both the idea of the Islamic city and also the act of traveling and travel writing Missions to the East whether initiated by military religious economic scientific diplomatic or touristic purposes resulted in a continuous construction de construction and re construction of the self and the other Including travel accounts which depicted cities extending from Europe to Asia and from Africa to Arabia chapters epitomize the construction of the Orient via textual or visual representations By examining various tools of representation such as drawings paintings cartography and photography in depicting the urban landscape in constant flux the book emphasizes the role of the mobile individual in defining city space and producing urban culture Scrutinising the role of travellers in producing the image of the world we know today this book is recommended for researchers scholars and

students of Middle Eastern Studies Cultural Studies Architecture and Urbanism *Realities of Representation* M. Jansson, 2007-03-05 This book offers an examination of the idea of representation and the institutional realities that shaped it in early modern Europe and European America Contributors demonstrate how a country's history society and national experience dictate how representation is realized in political institutions including parliaments riksdags and reichstags

Military Revolution and the Thirty Years War 1618-1648 Olli Bäckström, 2023-11-08 Military Revolution and the Thirty Years War 1618 1648 investigates change and decline in military institutions during a period of protracted and destructive European warfare Conceptual background is provided by the Military Revolution thesis which argues that changes in military technology and tactics drove revolutionary transformation in the way states organised and waged war in the early modern era This transformation of military institutions became evident during the long and destructive Thirty Years War in 1618 1648 The outcome of the Military Revolution was the centralised fiscal military state that possessed a strong claim to the monopoly of violence within its territorial boundaries The book examines how the Thirty Years War accelerated and even initiated transformation in four military institutions that defined land warfare feudal cavalry services militias regular armies and war commissariats The regional scope of the investigation covers the Holy Roman Empire France Spain Portugal Sweden Denmark and the Dutch Republic The book combines military historical inquiry with ancillary sciences of sociology and economics It argues that the Military Revolution of the Thirty Years War stimulated institutions capable of increased complexification and specialisation while curtailing those that were locked in stasis and immutability The institutional legacy of the Thirty Years War was the emergence of complex military organisations that are characteristic to the modern society and its self renewing social subsystems Previous scholarship on the Military Revolution has concentrated on military technicalities and the wider process of early modern state formation This book proposes an alternative way of viewing early modern military transformations from the perspectives of institutions and systems System analytical survey of change and decline in the military institutions of the Thirty Years War introduces qualifications to the Military Revolution theory and offers a novel way of conceptualising early modern military history **Essays on Industrialisation in France, Norway and Spain** Kristine Bruland, 2005
