Geology and Tectonics of Northwestern South America Fabio Cediél, Robert Peter Shaw, 2018-08-10 This book provides a comprehensive overview of the geological evolution of the Northern Andes and contiguous shield areas with a focus upon Colombia Updated geological interpretations are supported by modern lithogeochemical seismic gravity and magnetic data and radiogenic isotope and radiometric age determinations The composite data permits a detailed interpretation of the tectono magmatic history of the Northern Andean Block including the Andes of Colombia northern Ecuador western Venezuela and eastern Panam Tectonic reconstructions based upon characterization of more than thirty litho tectonic and morpho structural units terrane assemblages and tectonic realms and their bounding suture and fault systems highlight the intimate and complementary Mesozoic Cenozoic history of the Northern Andean Block and the Pacific and Caribbean Plates The complex nature of Northern Andean assembly contrasts with classical Central Andean Cordilleran type orogenic models Differences render the application of typical Cordilleran type models inappropriate for the Colombian Andes The importance of underlying Proterozoic through mid Mesozoic elements in the development of Meso Cenozoic Northern Andean orogeny phase tectonic configurations is analyzed in the light of spatial temporal studies and reconstructions related to basin formation sedimentation deformation uplift mechanisms structural

style and magmatic evolution The pre Andean architecture of north western South America has played a pre determinative role in the development of the Northern Andean orogenic system 16 contributions analyze key stratigraphic structural metamorphic magmatic and tectonic questions and provide solutions as far as the most recent published field based studies permit The volume provides geological interpretations and tectonic models which contrast with repetitive theoretical proposals frequently found in the available literature Tectonics and Seismic Structure of Alaska and Northwestern Canada Natalia A. Ruppert, Margarete A. Jadamec, Jeffrey T.
