## **Regional Conflict Management:**

Regional Conflict Management Paul Francis Diehl, Joseph Lepgold, 2003 This collection of original essays is one of the first to examine the implications and efficacy of regional conflict management in the new world order      **Handbook of Regional Conflict Resolution Initiatives in the Global South** Jeronimo Delgado-Caicedo, 2022-07-28 During the first half of the twentieth century the international system was largely dominated by the USA and the colonial powers of western Europe After the two world wars the political and economic dominance of these states guaranteed them and their allies an almost complete control of world politics However as it is the norm in the international system power structures are not immutable After the end of the Cold War rapid changes to the existing international hierarchies took place as new countries from the so called developing world began to emerge as crucial actors capable of questioning and altering the power dynamics of the world It is therefore unthinkable to ignore emerging countries such as Russia the People's Republic of China India Brazil or South Africa in the decision making process in today's world order In addition there is a group of smaller yet increasingly important countries that while acknowledging their inability radically to change the rules of the international system are still eager to shift power relations and enhance their influence in the world Argentina Colombia Egypt Indonesia Iran South Korea Mexico Nigeria Pakistan Saudi Arabia Turkey and Vietnam are generally recognised as part of this grouping of emerging powers from the Global South While there is a consensus amongst academics that emerging powers from the Global South must have a stabilising role within their own regions previous analyses have focused primarily on the impact that emerging powers have had in their own regions conflict resolution initiatives This volume instead aims to go beyond these analyses and provide new insights regarding the effect that this stabilising role has on the continental and global positioning of emerging powers In other words this book explores the relation between a country's involvement in conflict resolution initiatives and its positioning in the international system The volume will contribute to this approach using the perspective of academics and practitioners from countries of the Global South particularly from states that have strengthened or sometimes weakened their position in the international hierarchy of power through a leading role in regional conflict resolution initiatives      **From Confrontation to Cooperation** Jay Rothman, 1992-07-28 This book explores the roots of transformations in world politics and suggests how the art and science of conflict resolution may be used to guide these changes in constructive and peaceful ways The author proposes that a new emphasis or more precisely a corrective to the power politics approach should prevail in the study and practice of international relations and diplomacy Using the example of the Israeli Palestinian conflict the author presents a methodology for intergroup and international conflict management analysis training policy making and intervention Comparative cases are also included to help readers build upon the approaches suggested for their own educational and peacemaking activities      Conflict Management, Security and Intervention in East Asia Jacob Bercovitch, Kwei-Bo Huang, Chung-Chian Teng, 2008-05-07 This edited volume examines the

sources manifestations and management of conflict in East Asia which contains many of the worlds conflict flashpoints such as the Korean Peninsula and the China Taiwan Strait In particular the book will elaborate on the following themes general and NGO approaches to third party mediation in conflict situations r

### **Regional Cooperation and Conflict**

**Management** Niklas Swanström,2002 Regional cooperation is increasingly important as a means to create peaceful relations and improve economic development The problem today is not to initiate cooperation but rather how to handle disputes and maintain good relations This is done through conflict management mechanisms CMMs in most regional cooperation structures However the interaction between such structures and regional conflict management mechanisms is not sufficiently examined and as a result no coherent theoretical model that could explain this interaction has been constructed This has meant that in many cases the interaction is incorrectly assumed with negative social and economic outcomes *Regional Peacemaking and Conflict Management* Carmela Lutmar,Benjamin Miller,2015-11-06 This volume examines mechanisms for regional peacemaking and conflict management in Europe and the Middle East To date little research has been devoted to uncovering the conditions for peace and the factors that contribute to stabilizing the state of peace This volume assesses the factors that contribute to regional pacification the incentives that motivate states in establishing peaceful relations and most importantly how regions become peaceful It discusses the conditions under which various types of peace might emerge on a regional level and the factors most likely to determine the outcome The book takes an innovative approach through a systematic comparison of two regions that are particularly prominent and important for the subject of regional pacification Europe and the Middle East While many believe that the European case is the indispensable model for peacemaking others believe that these two regions are too different for Europe to be a useful framework for the Middle East This volume occupies a middle ground between these two extreme positions It argues that while a mindless copying of European models will not lead to peace in the Middle East important insights can be gained from the most successful case of regional peacemaking to date This work will be of much interest to students of regional security peacemaking conflict management Middle East politics European security and IR in general **Cold War as Cooperation**

Roger E. Kanet,Edward A. Kolodziej,1991-06-18 A study of superpower co operation since World War II this book examines the regulation of USA USSR rivalry and outlines the power of regional states to constrain and manipulate them for their own interests *Regional Organizations and Peacemaking* Peter Wallensteen,Anders Bjurner,2014-08-21 This book analyses the new and difficult roles of regional organizations in peacemaking after the end of the Cold War and how they relate to the United Nations UN Regional organizations have taken an increasingly prominent role in international efforts to deal with international security The book highlights the complex interaction between the regional and sub regional organizations on the one hand and their relations with the United Nations on the other Thus the general issues of UN and its authority are scrutinized from legal practical and geopolitical perspectives Taking on a broad geographical focus on Africa the Arab world

and Europe the book also provides an extensive range of case studies with detailed analysis of particular situations organizations and armed conflicts The authors scrutinise the heterogeneous relationship between the different organizations as well as the challenges to them political resources legal standing financial assets capabilities and organizational set up Moreover they investigate whether regional organizations as compared to the UN are better suited to deal with today's intra state conflicts The book also aims to dissect the evolution of these institutions historically in relation to Chapter VIII of the UN Charter which mentions the resort to regional arrangements for conflict management as well as more generally in relation to the principles of international law and UN principles of peacemaking This book written by a mixture of established scholars diplomats and high level policymakers will be of great interest to students as well as practitioners in the field of peace and conflict studies regional security international organisations conflict management and IR in general

**Managing Regional Conflict** Robert Miller, 1987      *Sovereignty as Responsibility* Francis M. Deng, Sadikiel Kimaro, Terrence Lyons, 2010-12-01 The authors assert that sovereignty can no longer be seen as a protection against interference but as a charge of responsibility where the state is accountable to both domestic and external constituencies In internal conflicts in Africa sovereign states have often failed to take responsibility for their own citizens welfare and for the humanitarian consequences of conflict leaving the victims with no assistance This book shows how that responsibility can be exercised by states over their own population and by other states in assistance to their fellow sovereigns Sovereignty as Responsibility presents a framework that should guide both national governments and the international community in discharging their respective responsibilities Broad principles are developed by examining identity as a potential source of conflict governance as a matter of managing conflict and economics as a policy field for deterring conflict Considering conflict management political stability economic development and social welfare as functions of governance the authors develop strategies guidelines and roles for its responsible exercise Some African governments such as South Africa in the 1990s and Ghana since 1980 have demonstrated impressive gains against these standards while others such as Rwanda Somalia Liberia Nigeria and Sudan have failed Opportunities for making sovereignty more responsible and improving the management of conflicts are examined at the regional and international levels The lessons from the mixed successes of regional conflict management actions such as the West African intervention in Liberia the East African mediation in Sudan and international efforts to urge talks to end the conflict in Angola indicate friends and neighbors outside the state in conflict have important roles to play in increasing sovereign responsibility Approaching conflict management from the perspective of the responsibilities of sovereigns      Regional Cooperation and Conflict Management Niklas Swanström, 2002 Regional cooperation is increasingly important as a means to create peaceful relations and improve economic development The problem today is not to initiate cooperation but rather how to handle disputes and maintain good relations This is done through conflict management mechanisms CMMs in most regional cooperation structures However the interaction between

such structures and regional conflict management mechanisms is not sufficiently examined and as a result no coherent theoretical model that could explain this interaction has been constructed This has meant that in many cases the interaction is incorrectly assumed with negative social and economic outcomes Resolving Regional Conflicts Roger E. Kanet,1998

The end of the cold war has not meant an end to conflict around the world Disagreements still exist and discord continues to erupt into battles In Resolving Regional Conflicts twelve scholars present a broad introduction to the issue of discord within and between nations exploring models by which emerging security problems can be analyzed and looking at specific conflicts and the ways they are being handled **Networked Regionalism as Conflict Management** Anna Ohanyan,2015-04-15

Most regions of the world are plagued by conflicts that are made insoluble by a confluence of complex threads from history geography politics and culture These frozen conflicts defy conflict management interventions by both internal and external agents and institutions Worse they constantly threaten to extend beyond their local geographies as in the terrorist bombings in Boston by ethnic Chechens or to escalate from skirmishes to full scale war as in Nagorno Karabakh Consequently such conflicts cry out for alternative approaches to the classic state focused and sovereignty based conflict management models that are practiced in traditional diplomacy which most often produce rather short term ad hoc fragmented interventions and outcomes Drawing upon the cases of the South Caucasus the Western Balkans Central America South East Asia and Northern Ireland **Networked Regionalism as Conflict Management** offers a theoretical and practical solution to this impasse by arguing for regional collective interventions that involve a long term reengineering of existing conflict management infrastructure on the ground Such approaches have been attracting the attention of scholars and practitioners alike yet thus far these concepts have rarely involved more than simple prescriptions for regional cooperation between grassroots actors and traditional diplomacy Specifically says Anna Ohanyan only the cultivation and establishment of regional peace systems can provide an effective path toward conflict management in these standoffs in such intractably divided regions **Regional Guide to International Conflict and Management from 1945 to 2003** Jacob Bercovitch,Judith Fretter,2004-11-23

**Regional Guide to International Conflict and Management from 1945 to 2003** provides global regional and specific information on the over 350 international conflicts that have occurred since World War II At the heart of the book are comprehensive regional sections each of which includes An essay providing regional context and highlighting the interrelation of countries and conflict in that area Summaries of each conflict in the region arranged chronologically and covering history circumstances players management and outcome References for further research Introductory chapters examine global patterns and trends in international conflict and how conflict is managed including ethnic conflict and the expanded role of the United Nations Tables figures maps and a comprehensive index round out this valuable resource **Regional Guide to International Conflict and Management from 1945 to 2003** gives readers the tools and content necessary for understanding and analyzing international conflict in today s world Perfect for political science comparative government politics international relations and world

history programs      **Rewiring Regional Security in a Fragmented World** Chester A. Crocker, Fen Osler Hampson, Pamela R. Aall, United States Institute of Peace, 2011 Rewiring Regional Security in a Fragmented World examines conflict management capacities and gaps regionally and globally and assesses whether regions through their regional organizations or through loose coalitions of states regional bodies and non official actors are able to address an array of new and emerging security threats      **African Reckoning** Francis M. Deng, Terrence Lyons, 2001-06-07 This book investigates how changing norms of sovereignty may promote better governance in Africa It begins by tracing the evolution of the concept of sovereignty and how in the post Cold War era sovereignty has been redefined to emphasize the responsibility of the state to manage conflict and protect human rights African Reckoning includes assessments of how state actors in Africa measure up to the norms inherent in the notion of sovereignty as responsibility The book also examines the question of accountability at the regional and international levels The authors conclude that since the power of oppressed people to hold their governments accountable is very limited the international community has a responsibility to provide victims of internal conflict and gross violations of human rights with essential protection and assistance Accordingly the book expounds on the normative principles of responsible sovereignty international mechanisms and strategies for their enforcement and empirical evidence about the performance of governments as measured by the requirements of responsible sovereignty Contributors include Richard Falk Abdullahi Ahmed An Na'im James Rosenau Goran Hyden Michael Chege and John D Steinbruner

**Regional Organizations and Peacemaking** Peter Wallensteen, Anders Björner, 2014-08-21 This book analyses the new and difficult roles of regional organizations in peacemaking after the end of the Cold War and how they relate to the United Nations UN Regional organizations have taken an increasingly prominent role in international efforts to deal with international security The book highlights the complex interaction between the regional and sub regional organizations on the one hand and their relations with the United Nations on the other Thus the general issues of UN and its authority are scrutinized from legal practical and geopolitical perspectives Taking on a broad geographical focus on Africa the Arab world and Europe the book also provides an extensive range of case studies with detailed analysis of particular situations organizations and armed conflicts The authors scrutinise the heterogeneous relationship between the different organizations as well as the challenges to them political resources legal standing financial assets capabilities and organizational set up Moreover they investigate whether regional organizations as compared to the UN are better suited to deal with today's intra state conflicts The book also aims to dissect the evolution of these institutions historically in relation to Chapter VIII of the UN Charter which mentions the resort to regional arrangements for conflict management as well as more generally in relation to the principles of international law and UN principles of peacemaking This book written by a mixture of established scholars diplomats and high level policymakers will be of great interest to students as well as practitioners in the field of peace and conflict studies regional security international organisations conflict management and IR in general      Regions

and Development Sheila Page, 2020-12-15 At the 1996 EADI Conference the papers presented in the World Trade and Trade Policy workshop looked at the new trends in regionalism from a variety of points of view for different institutions They considered the effects of regions their implications for policy and performance in the developing countries and for international economic institutions and tried to interpret them in terms of economic and political theory *Understanding Conflict Resolution* Peter Wallensteen, 2015-03-31 This book provides you with the perfect introduction to your studies in peace and conflict resolution and equips you with the tools you need to analyse real world cases Drawing on recent research and examples from around the world the new edition Explores the ongoing situation in Syria and the events and repercussions of the Arab Spring Examines the issue of internet security and the relationship between social media and peace Draws on the cases of Libya and Syria to discuss the principle of Responsibility to Protect R2P Outlines the functions of key regional and Non Governmental organisations Includes a companion website with annotated further reading lists and links to free SAGE journal articles reports and data sets This is an essential text for all students lecturers and researchers of peace and conflict resolution in international relations global politics and political science **European 'Security' Governance** George Christou, Stuart Croft, 2014-06-11 This book argues that we can understand and explain the EU as a security and peace actor through a framework of an updated and deepened concept of security governance It elaborates and develops on the current literature on security governance in order to provide a more theoretically driven analysis of the EU in security Whilst the current literature on security governance in Europe is conceptually rich there still remains a gap between those that do security governance and those that focus on security per se A theoretical framework is constructed with the objective of creating a conversation between these two literatures and the utility of such a framework is demonstrated through its application to the geospatial dimensions of EU security as well as specific cases studies in varied fields of EU security This book was originally published as a special issue of European Security
