Regional Integration The Latin American Experience

Miguel S. Wionczek

Regional Integration The Latin American Experience:

Regional Integration Altaf Gauhar, 1985

Regional Integration Altaf Gauhar, 1985

Regional Integration ,

Latin America P. Coffey, 2011-09-01 Latin America's experience with regional economic integration has been only slightly shorter than that of Europe. In fact, the first attempt at integration started as early as 1960 with the creation of LAFTA, the Latin American Free Trade Area, subsequently replaced by LAIA, the Latin American Integration Association. LAFTA, composed of 11 countries, sought unsuccessfully to create a free trade area in 12 years. In 1969, the Andean Pact, which sought also unsuccessfully to create a sub-regional free trade area, was set up. Recently, the Presidents of Argentina, Brazil, Paraguay, and Uruguay signed the Treaty of Asunción, aimed at creating a common market as from 1st January 1995. This common market, MERCOSUR, will be completed by 2006. In comparison with the earlier and unsuccessful attempts at integration and despite challenges and problems both internal and external, MERCOSUR is working and trade between the member States is increasing. Furthermore, as with the case of the European Union, EU serious attempts, notably between Argentina and Brazil, are being made to co-ordinate economic and monetary policies. The most important evidence of these moves is the introduction of hard currencies, the reduction in the size of the public sector, and the privatization of State assets. These are clearly exciting times for Latin American integration. In this book, the first in a new series of books on International Economic Integration, the authors examine the experience of MERCOSUR in the Latin American integration process. After an analysis of the history of the moves towards integration in South America, the case of each Member State and the Associate Country is examined and perspectives for the future are assessed.

Latin American Geopolitics César Álvarez Alonso, José Ignacio Hernández, 2019-05-25 This edited volume analyzes how migration, the conformation of urban areas, and globalization impact Latin American geopolitics. Globalization has decisively influenced Latin American nationhood and it has also helped create a global region with global cities that are the result of the urbanization process. Also, globalization and migration are changing Latin America's own vision as a collective community. This book tackles how migration triggers concerns about security which lead to policies based on the protection of borders as a matter of national security. The contributors argue that economic regionalization, globalization, promotes changes in the social and economic geography which refer to social phenomena, the dynamic of social classes, and their spatial implications, all of which may impact economic growth on the region. The project will appeal to a wider audience including political scientists, scholars, researchers, students, and non-academics interested in Latin American geopolitics.

Free Trade and Economic Integration in Latin America Victor L. Urquidí, 2023-04-28 Free Trade and Economic Integration in Latin America: The Evolution of a Common Market Policy offers a comprehensive analysis of Latin America's progress toward regional economic integration and the creation of a common market. The study is divided into three sections. Part I explores the early economic development of Latin America, highlighting the composition of imports, limited intra-regional trade, and initial steps toward trade liberalization. It discusses the growing

focus on industrial development as a key component of integration Part II examines the various integration proposals put forward over the years detailing their legal foundations and key agreements including the Montevideo Treaty which established a free trade area between seven countries A special focus is given to Central American experiences and proposals for payments compensation and reciprocal credit Part III analyzes the current status of the Latin American free trade area and the challenges it faces This study also reflects the growing importance of Latin America s economic integration on the global stage with increasing attention from countries such as the United States European nations and even the Soviet bloc The post 1960 developments including the entry into force of the Montevideo Treaty in 1961 are updated in the American edition with new chapters on recent progress This work aims to offer readers a deeper understanding of Latin America s integration efforts which are shaping the region s economic future and may influence global trade dynamics in the years to come This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1962 *Economic Integration in Less Developed Countries* Thomas M. Haney, 1964 *Exploring the New South American Regionalism (NSAR)* Ernesto Vivares, 2016-04-15 The events and processes that have taken place in the last decade in South America have given way to one of the most interesting regional phenomena under a global crisis and within a changing world order From the traditional status of Washington s backyard and reign of economic and political stability South America has increasingly turned into a region marked by a heterodox development in the light of other dominant regional tendencies of development the European Union NAFTA and the Asia Pacific The political economic nature of the new South American regionalism NSAR is far from echoing the dominant interpretations about it which reflects the major regional projects today Given the reach and scope of the existing literature on the topic of the NSAR there is an important gap concerning its academic exploration in relation to its nature of development political economic complexity challenges and orientations In this sense this book explores from a wider and pluralist political economic perspective the developmental dimensions of the NSAR within a changing hemispheric and world order in transformation It analyses a set of specific debates regionalism in the Americas then and now social and economic development and regional integration and organized crime intelligence and defence An in depth and critical reflection on the complex and heterogeneous path of regionalization taking place in South America from different perspectives and in key issues of regional development

Latin American and Caribbean Trade Agreements Thomas Andrew O'Keefe, 2009 Latin American and Caribbean Trade Agreements Keys to a Prosperous Community of the Americas is the essential reference guide for companies trading with Latin America and the Caribbean or wishing to use a country in the region as an export platform This work fills the void in academic texts that are used to teach courses on economic integration in the Western Hemisphere It provides a road map

for the Obama Administration to launch an ambitious project designed to encourage economic growth promote energy security and reduce harmful greenhouse gas emissions while at the same time realistically meeting the development needs of Latin America and the Caribbean Latin American and Caribbean Trade Agreements Keys to a Prosperous Community of the Americas posits that the myopic focus of past United States administrations on free markets to spur economic development in the Western Hemisphere is not enough A bolder and more ambitious project that also seeks to redress many of the deep seated problems that have long plagued the region is required The Community of the Americas proposed in this book rests upon the important work that has already been done at the sub regional level in terms of economic and political reform identifying infrastructure and human capital needs and regulating migration It provides a new and cohesive vision for U S policy in Latin America and the Caribbean

East Asian Regionalism from a Legal Perspective Tamio Nakamura, 2009-06-08 Plenty has been written about the political and economical aspects of regionalism but the legal perspective has been neglected East Asian Regionalism From a Legal Perspective is unique in synthesizing legal economic and political analyses In the first part the book investigates the current features of regionalism from a comparative perspective looking at economic and currency cooperation and comparing Asian regionalism with Europe and Latin America In the second part the contributors go on to look at the present legal features of regionalism covering institutional frameworks trade diversity and regional integration The third part of the book is truly unique in proposing an essential groundwork for the institutionalisation of an East Asian Community It conceives a draft East Asian Charter an essential document that distils what East Asian nations have achieved and also includes integral principles and fundamental rules for future cooperation among countries and peoples in the region This book will be of interest to graduates and academics interested in regionalism international relations international law and Asian studies

The Routledge Handbook of Latin American Development Julie Cupples, Marcela Palomino-Schalscha, Manuel Prieto, 2018-12-07 The Routledge Handbook of Latin American Development seeks to engage with comprehensive contemporary and critical theoretical debates on Latin American development The volume draws on contributions from across the humanities and social sciences and unlike earlier volumes of this kind explicitly highlights the disruptions to the field being brought by a range of anti capitalist decolonial feminist and ontological intellectual contributions The chapters consider in depth the harms and suffering caused by various oppressive forces as well as the creative and often revolutionary ways in which ordinary Latin Americans resist fight back and work to construct development defined broadly as the struggle for a better and more dignified life The book covers many key themes including development policy and practice neoliberalism and its aftermath the role played by social movements in cities and rural areas the politics of water oil and other environmental resources indigenous and Afro descendant rights and the struggles for gender equality With contributions from authors working in Latin America the US and Canada Europe and New Zealand at a range of universities and other organizations the handbook is an invaluable resource for students and teachers in

development studies Latin American studies cultural studies human geography anthropology sociology political science and economics as well as for activists and development practitioners

SouthSouth Trade and Finance in the Twenty-First Century Omar Dahi, Firat Demir, 2016-10-10 This book is a contribution to the international trade and economic development literature and is based on a decade of joint research and collaboration on South South economic relations Given the increasing focus on the economic power of some developing countries for example the 2013 Human Development Report s Rise of the South it is particularly appropriate and timely NP The book s findings are based on rigorous empirical examination of South South trade and finance and it provides an even handed assessment from the perspective of long term development goals rather than mainstream welfare approaches or ideological theoretical worldview NP This work directly engages with the new developmentalism literature that has challenged the neoliberal orthodoxy and its policy approach which focuses on liberalization privatization and deregulation It also engages with literature by examining whether the increase in South South trade facilitates or inhibits the possibilities for developmentalist economic policy in developing countries The book shows concrete and positive results from South South trade particularly related to industrial development and also documents how South South trade is dominated by large developing countries and that South South trade liberalization may be counterproductive

The South America Handbook Patrick Heenan, Monique Lamontagne, 2014-01-27 First Published in 2002 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region s economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region s economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index

International Courts in Latin America and the Caribbean Salvatore Caserta, 2020 A distinctive feature of modern international society is the increase in the number of international judicial bodies and dispute settlement and implementation control bodies in their case loads and in the range and importance of the issues they are called upon to address These factors reflect a new stage in the delivery of international justice The International Courts and Tribunals series has been established to encourage the publication of independent and scholarly works which address in critical and analytical fashion the legal and policy aspects of the functioning of international courts and tribunals including their institutional substantive and procedural aspects Book jacket

Trade Issues in the Caribbean Irma Tirado de

Alonso,1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company *The Oxford Handbook of Comparative Regionalism* Tanja A. Börzel,Thomas Risse,2016-02-04 The Oxford Handbook of Comparative Regionalism the first of its kind offers a systematic and wide ranging survey of the scholarship on regionalism regionalization and regional governance Unpacking the major debates leading authors of the field synthesize the state of the art provide a guide to the comparative study of regionalism and identify future avenues of research Twenty seven chapters review the theoretical and empirical scholarship with regard to the emergence of regionalism the institutional design of regional organizations and issue specific governance as well as the effects of regionalism and its relationship with processes of regionalization The authors explore theories of cooperation integration and diffusion explaining the rise and the different forms of regionalism The handbook also discusses the state of the art on the world regions North America Latin America Europe Eurasia Asia North Africa and the Middle East and Sub Saharan Africa Various chapters survey the literature on regional governance in major issue areas such as security and peace trade and finance environment migration social and gender policies as well as democracy and human rights Finally the handbook engages in cross regional comparisons with regard to institutional design dispute settlement identities and communities legitimacy and democracy as well as inter and transregionalism The Eurasian Space Wim Stokhof,Paul van der Velde,Yeo Lay Hwee,2004 The Asia Europe Meeting ASEM officially established in 1996 is an inter regional forum consisting of the 15 member states of the European Union and the European Commission 7 member of the 10 states of ASEAN and China Japan and South Korea In this important volume academics from Asia and Europe examine the level of engagement between both continents and highlight how the ASEM process has been conducive in enhancing the political economic and cultural ties between the various Asian and Routledge Handbook of Latin American Security David R. Mares,Arie M. Kacowicz,2015-07-16 This new Handbook is a comprehensive collection of cutting edge essays on all aspects of Latin American Security by a mix of established and emerging scholars The Routledge Handbook of Latin American Security identifies the key contemporary topics of research and debate taking into account that the study of Latin America s comparative and international politics has undergone dramatic changes since the end of the Cold War the return of democracy and the re legitimization and re armament of the military against the background of low level uses of force short of war Latin America s security issues have become an important topic in international relations and Latin American studies This Handbook sets a rigorous agenda for future research and is organised into five key parts The Evolution of Security in Latin America Theoretical Approaches to Security in Latin America Different Security Challenges Contemporary Regional Security Challenges Latin America and Contemporary International Security Challenges With a focus on contemporary challenges and the failures of regional institutions to eliminate the threat of the use of force among Latin Americans this Handbook will be of great interest to students of Latin American politics security studies war and conflict studies and International Relations in general *Latin American Economic Integration* Miguel S. Wionczek,1966

Historical Dictionary of Inter-American Organizations David W. Dent, Larman C. Wilson, 2013-12-11 The Historical Dictionary of Inter American Organizations covers the changing world of inter American and international organizations that have played an important role in bilateral and multilateral efforts to solve a wide range of problems that have confronted the nations of the Western Hemisphere The Latin American region is clearly more integrated regionally and internationally than in previous decades and is better prepared to confront a broad range of problems trade development illicit drugs terrorism and guerrilla activity health environment democratization trade human rights intervention electoral assistance peacekeeping and conflict resolutions migration border conflicts corruption and energy independence that governments and non governmental organizations face in the 21st century The role of the United States in Latin America has clearly faded since the end of the Cold War and the second edition of this book fills a large void in explaining the complexities of inter American organizations and their activities since the first edition was completed in the late 1990s This updated second edition of Historical Dictionary of Inter American Organizations covers the history of through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Inter American Organizations
