**Territorial Policies in the Baltic States** Garri Raagmaa, Dominic Stead, 2017-10-02 Urban and regional development in the Baltic States and other Central and Eastern European countries has experienced rapid changes since their re independence at the beginning of the 1990s Meanwhile urban and regional planning institutions and organizational cultures in the Baltic States have only changed rather incrementally despite various national and European pressures for reform As a consequence the effects of European cohesion and structural policy measures have been quite modest and the ability of the planning systems in the Baltic states to manage contemporary trends in urban and regional development has become increasingly limited This book focuses on these issues and tensions of spatial planning and development in the Baltic States and their distinctiveness compared to other European countries It provides an overview of the historical and cultural context of spatial development a discussion of the processes of Europeanization of spatial planning in the specific context of the Baltic States and an analysis of whether these processes may be leading to policy convergence in the region This book was published as a special issue of European Planning Studies European Regional Planning Strategy Nicolas Momper, Council of

**Regional Development and Spatial Planning in an Enlarged European Union** Neil Adams, 2016-04-01 The expansion of the European Union in 2004 has had significant consequences for both existing and new members of the Union New member states are assimilating into a new institutional and policy framework while the changing geography of Europe provides a different context for policy development in pre 2004 member states One of the more important fields in which these changes are impacting is regional development The admission of the new countries changes patterns of economic and social disparities across the territory of the European Union which in turn demands that existing approaches to regional development are reconsidered An approach which has proved to be one of the most innovative is spatial planning This book brings together a team of academics and policy makers from across the new Europe involved in regional development and spatial planning Providing insights into different approaches it offers a valuable opportunity to compare experiences across European borders

**Sustainable Development for Central and Eastern Europe** Ulrich Graute, 2012-12-06 Central and Eastern European Countries are undergoing a difficult transition process with consequences for spatial development Europe needs a more balanced polycentric system of cities a new urban rural relationship parity of access to infrastructure and knowledge as well as prudent management and development of the natural and cultural heritage Dealing with these complex challenges and the need for sustainable development politicians requires qualified advice from experts To this end the German Ministry for Regional Planning Construction and Urban Development initiated the Network of Spatial Research Institutes in Central and Eastern Europe CEE Net in 1992 Exchange of knowledge and an open dialogue at all levels are pre conditions for the cooperative development of visions and strategies serving spatial development in Europe The annual conferences of the network have been a first steps towards closer cooperation The high interest shown in these conferences by academics and government representatives and the fact that several research

projects have already crystallised out of the debates they engendered indicate that the network is meeting a need for exchange and cooperation. Decisions on spatial development do not stop at national borders and the discussion on spatial development in any European region has therefore to take the European context into consideration. A special advantage of this publication is that as well as focusing on spatial development and research in CEE regions it also discusses Central and Eastern Europe in a European context. Regional Planning John Glasson, Tim Marshall, 2007-11-21 This comprehensive introduction to the concepts and theory of regional planning in the UK Drawing on examples from throughout the UK is the essential up to date text for students interested in all aspects of this increasingly influential subject. Bulgaria and Europe Stefanos Katsikas, 2011-10-01 Bulgaria and Europe Shifting Identities offers a unique analysis of Bulgaria's relationship with the European continent. Katsikas examines how Bulgarian historiography and literature over the centuries have created differing conceptions of Europe and in the process shaped the country's own shifting identity. Through his analysis he provides the broader cultural context and historical perspective required in order to understand the country's EU accession process as well as its aftermath. This work ultimately addresses what has arguably been the key question facing Bulgaria in the post Cold War period: Are we European? **Europeanisation and new patterns of governance in Ireland** Nicholas Rees, Bríd Quinn, Bernadette Connaughton, 2013-07-19 To what extent did Europeanisation contribute to Ireland's transformation from poor relation to peer idol? This book examines how Europeanisation affected Irish policy making and implementation and how Ireland maximised the policy opportunities arising from membership of the EU while preserving embedded patterns of political behaviour. It focuses on the complex interplay of European domestic and global factors as the explanation for the changing character of the Celtic Tiger. The authors demonstrate that although Europeanisation spurred significant institutional and policy change domestic forces filtered those consequences while global factors induced further adaptation. By identifying and assessing the adaptational pressures in a range of policy areas the book establishes that in tandem with the European dimension domestic features and global developments were key determinants of change and harbingers of new patterns of governance. **European Yearbook / Annuaire Européen** Council of Europe Staff, 2013-12-01 The European Yearbook promotes the scientific study of nineteen European supranational organisations and the Organisation for Economic Co-operation and Development (OECD).
