Regionalism And Globalism In Southeast Asia:

Regionalism and Globalism in Southeast Asia E. Palmujoki, 2001-10-25 Eero Palmujoki examines the regionalist debate in Southeast Asia from the end of the Cold War up to the beginning of the new millennium. He focuses on the organization of the ASEAN Association of Southeast Asian Nations and covers the political, economic and security issues characterizing its development. The book compares the theoretical debate with political developments in the region from the beginning of the post Cold War period with its rapid economic growth through the Asian economic crisis of 1997 and the resulting restructuring of Southeast Asian regional systems.

East Asia Gennady Chufrin, 2006 Analyses modern tendencies in the development of regional economic cooperation in East Asia which is considered by regional countries as their response to growing challenges of globalization.

Regionalism, Globalisation and International Order Jens-Uwe Wunderlich, 2016-03-23 New regionalism and globalization have been prominent themes in academic and political debates since the beginning of the 1990s. Despite the considerable amount of scholarly attention that the new regionalism has received in recent years, its full empirical and theoretical potential has yet to be fully investigated. This illuminating study provides an overview of new avenues in theorizing regionalism and proposes a consolidated framework for analysis and comparison. Offering a comparative historical perspective of European and Southeast Asian regionalism, it presents new and imaginative insights into the theory and practice of regionalism and the links between regional developments, globalization and international order.

Regionalism and Globalization in East Asia Mark Beeson, 2017-08-24 This book examines the distinctive evolution of the political and economic relationships of East Asia. It does this by placing East Asian development in the unique historical circumstances that have underpinned its rise to power over the last few decades. This detailed analysis provides the basis for an assessment of a unified East Asian region.

Globalization and Its Counter-forces in Southeast Asia Terence Chong, 2008 Presents a multidimensional perspective of globalisation in Southeast Asia. Looks at political, economic, security, social and cultural dimensions of globalisation and local responses, showing evidence of complex interfacing between the global and the local, championing the need for a multidisciplinary approach to globalisation studies.

The Dimensions of Regional Trade Integration in Southeast Asia Zakir Hafez, 2021-10-01 This is the first comprehensive work on the free trade area of the Association of Southeast Asian Nations (ASEAN Free Trade Area (AFTA)). The author argues that in practice the free trade area of ASEAN is a failure and that unless AFTA leaders take serious measures to improve it, it will change from being not that useful into being completely useless. Published under the Transnational Publishers imprint.

Globalism and the New Regionalism Osvaldo Sunkel, András Inotai, 2016-07-27 This is the first of five volumes reporting on the UNU WIDER study on New Regionalism. It deals with the conceptions and meanings of two processes which probably will have a crucial influence on the shape of the new world order: globalization and regionalization. These studies relate to each other as challenge to response, globalization being the challenge of economic and cultural homogenization of the world.

and regionalization being a social and political reaction The leading writers in the field contribute thought provoking and fascinating articles to this volume International Relations in Southeast Asia Donald E. Weatherbee, Ralf Emmers, 2005 This balanced comprehensive guide to Southeast Asian politics offers a sensible but nondogmatic realist approach to the region's international relations Donald E Weatherbee lucidly explains the dynamics of the Southeast Asian subsystem as a struggle for autonomy in pursuit of national interests He explores three important questions the answers to which will shape the future Southeast Asia Will democratic regimes transform international relations in Southeast Asia Will national leaders succeed in reinventing ASEAN as a more effective collaborative mechanism Finally how will the evolving Chinese position balancing and perhaps displacing the United States as Asia's great power affect Southeast Asia's struggle for autonomy

Dictionary of the Modern Politics of Southeast Asia Joseph Chinyong Liow, 2014-11-20 The past two decades since the end of the Cold War have been years of remarkable change and transformation for Southeast Asia Long seen as an arena for superpower rivalry Southeast Asia is increasingly coming into its own by locating itself at the forefront of regional integration initiatives that involve not only the Association of Southeast Asian Nations but major external powers such as the United States China India Japan and Australia as well At the same time the past two decades has seen the revival of old animosities as well as the emergence of new security challenges confronting the region Old animosities include unresolved territorial disputes while new challenges range from regional and global financial crises terrorism and pandemics Significant changes within the ten Southeast Asian countries covered in this book have also transpired that have affected not only the complexion of domestic politics but have also impacted regional diplomacy as well such as the creation of potentially the eleventh Southeast Asian country Timor Leste Extensively updated and revised in light of these changes and developments this fourth edition of Dictionary of the Modern Politics of Southeast Asia contains profiles of each Southeast Asian country Following this it provides more than 450 alphabetically arranged individual entries providing detailed accounts and analyses on major episodes and treaties political parties and institutions civil society movements and regional and international organizations Biographies of significant political leaders and personalities both past and present are also provided Entries are comprehensively cross referenced and an index by country directs readers to all entries concerning a particular country The Dictionary also includes an extensive bibliography that serves as a guide to further reading It is an essential reference tool for all scholars and students of Asian politics and international affairs and a vital resource for journalists diplomats policy makers and others with an interest in the region **Southeast Asians and the Asia-Europe Meeting (ASEM)** Evi Fitriani, 2014-10-20 The inauguration of the Asia Europe Meeting ASEM in Bangkok in 1996 was celebrated with enthusiasm and hopes in the two regions because this forum represented a breakthrough in Asia Europe relations The region to region pattern of the relations becomes the study framework that enables the explorations of central themes which include the Asian regional identity ASEAN collective diplomatic prominence and the informality of the ASEM institution In exploring

those central themes this book applies constructivist realist and neo liberal institutional theories consecutively The difference between Asian and European cooperative culture as well as the longevity of an international institution adds to the picture This book contributes not only to the study of Asia Europe relations but also to the understanding of regionalism in Asia

Southeast Asia and the European Union Naila Maier-Knapp, 2014-09-19 Amidst the Eurozone crisis the European Union EU is stepping up its dialogue and engagement with and within Southeast Asia The EU s contemporary approach towards Asia emphasises the importance of open economies and common challenges of the 21st Century So called non traditional security issues have been portrayed increasingly as an avenue to share experiences and enhance cooperation between the EU and Southeast Asia This contemporary conceptual re orientation demands a closer look at the EU as an actor in Southeast Asia This book is the first contemporary monograph length discussion of the EU as a politico security actor in in the region post Cold War Drawing upon the historical and institutional context and a broad range of empirical case studies it considers the non traditional security crises of the late 1990s and early 2000s in Southeast Asia as triggers for enhanced regional and inter regional cooperation In doing so the book construes new insights into our understanding of the EU as a global actor and its normative influence in regions far away from Europe Providing a crisis centric and sector specific analysis which is much needed the book will be of interest to scholars of Southeast Asian Politics and European Politics as well as policy makers

A Selective Approach to Establishing a Human Rights Mechanism in Southeast Asia Hao Duy Phan, 2012-02-03 This book proposes a selective approach for states with more advanced human rights protection to establish a human rights court for Southeast Asia It argues the inclusive approach currently employed by ASEAN to set up a human rights body covering all member states cannot produce a strong regional human rights mechanism The mosaic of Southeast Asia reveals great diversity and high complexity in political regimes human rights practice and participation by regional states in the global legal human rights framework Cooperation among ASEAN members to protect and promote human rights remains limited The time honored principle of non interference and the ASEAN Way still predominate in relations within ASEAN These factors combine to explain why the ASEAN Intergovernmental Commission on Human Rights is unlikely to be strong and effective in changing and promoting regional human rights protection *Asia's New*

Regionalism Ellen L. Frost, 2008 **Regional Economic Integration and Dispute Settlement in East Asia** Anna G. Tevini, 2018-06-28 The accession of the People s Republic of China to the World Trade Organization WTO in 2001 significantly transformed the global economy both de facto and de jure At the regional level China s WTO accession served as an important catalyst for the establishment of Regional Trade Agreements RTAs in East Asia This was a novel development for the region since East Asian States had previously followed a largely informal market driven approach to regional economic integration By contrast rules based economic integration involving East Asian States was traditionally limited to multilateral integration under the GATT WTO framework This book systematically analyses and explains the development

nature and challenges of rules based regional economic integration in East Asia with particular attention to the region's first four RTAs. While also addressing the socio-economic, historical and political factors influencing the development of RTAs in East Asia, the book focuses on the legal institutions governing economic integration in the Association of Southeast Asian Nations (ASEAN) as well as under the ASEAN-China Comprehensive Economic Co-Operation Agreement (ACFTA), the Japan-Singapore New Age Economic Partnership Agreement (JSEPA) and the Mainland China-Hong Kong Closer Economic Partnership Arrangement (CEPA). The book provides a systematic comparative account of the scope, depth and hard law versus soft law quality of rules based economic integration achieved under these four RTAs in the areas of trade in goods and services, investment liberalisation and protection, labour mobility and dispute settlement. **ASEAN Regionalism**

Christopher B. Roberts, 2012-03-15. This book examines the key motivations for and challenges to greater regional integration in Southeast Asia. It demonstrates how security and economic concerns, domestic, regional and international, have either contributed to or detracted from an increased level of unity and cooperation in ASEAN. It also explores how the patterns of interaction and socialization generated by these issues together with the nature of domestic political systems have affected the emergence of common values, norms and interests. It covers the full range of issues confronting ASEAN at present and the full range of ASEAN countries and discusses both developments in ASEAN to date and also likely future developments.

Regional Integration in Southeast Asia Hyung Jong Kim, 2008. *From Globalism to Regionalism* Patrick M. Cronin, 1993. These papers are a seminal source of discussion for what is simply the most profound shift of U.S. strategy in half a century. The 13 essays and keynotes by Colin Powell address potential flash points of conflict likely to affect long range U.S. planning as well as salient political, economic and military developments likely to dominate particular regions of the world from the Middle East and East Asia to Africa and Latin America. This is in effect a workbook for understanding national security in the 20th century's final decade. 6 maps. **The Development of the Rule of Law in ASEAN** Imelda Deinla, 2017-06-29. An interdisciplinary work that comparatively studies rule of law practices and the relationship between the rule of law and regional integration, a topic largely explored in European integration. By looking at the function of the rule of law in ASEAN rather than what it means, measured on normative conception, the book situates the rule of law in broader institutional and political processes in the member states and in regional relations to show the motivations of member states in adopting a peculiar type of regional architecture. It asks whether forging the rule of law in the region can help build it internally for member states. The book revisits discourses on the spill over of economic integration, the impact of globalization in reshaping the state and generating new tools of the rule of law. It makes a comprehensive comparison the European Union, Africa Union and MERCOSUR showing the uneven pathways to rule of law in various contexts. **The Asia-Pacific, Regionalism and the Global System** Christopher M.
