Regionalism Change In The Econom:

New Asian Regionalism in International Economic Law Pasha L. Hsieh, 2021-12-16 Provides the first systematic analysis of new Asian regionalism as a paradigm shift in international economic law

Mega-regionalism and Great Power Geo-economic Competition Xianbai Ji, 2021-09-22 The regional trade governance architecture is in flux The latest wave of regionalism in the form of mega regional trade partnerships between countries with major shares of the world economy occurred in the aftermath of the Global Financial Crisis of 2008 09 The most systematically important mega FTAs included the Trans Pacific Partnership led by the United States US the China backed Regional Comprehensive Economic Partnership and the Transatlantic Trade and Investment Partnership between the European Union EU and the US Drawing on policy diffusion and competitive regionalism literatures Xianbai Ji develops an innovative model of competitive spill over to uncover the historical and contemporary sources of mega regionalism resulting from a temporal clustering of mega FTA initiatives from great powers In the book mega FTA is conceptualised as an instrument of geo economic competition between the US China and the EU Each aspired to leverage its mega FTA to gain an edge over its rivals in economic geopolitical and legal terms Through a mix method research strategy involving computable general equilibrium modelling game theory desk research and perception survey Ji generates an impressive chorus of quantitative qualitative and perceptual data demonstrating that the rise of mega regionalism was driven by the multidimensional competition between the US China and the EU over international economic benefits geopolitical influence and the authority to write rules governing emerging trade issues This book will attract academics think tankers practitioners and postgraduate students interested in regionalism international trade international political economy applied trade policy analysis great power competition geo economics and international relations

The Political Economy of Regional Cooperation in the Middle East Ali Carkoglu, Mine Eder, Kemal Kirisci, 2005-07-08 This book shows that co operation between the more open regimes in the Middle East such as Israel Jordan Egypt Palestine and Turkey could pave the way to increased stability in the region

The Political Economy of New Regionalisms in the Pacific Rim José Briceño-Ruiz, Philippe De Lombaerde, 2019-08-28 Combining an analysis of regionalism from a systemic view with a domestic political economy analysis this book sheds light on the new dynamics and emerging configurations of regionalisms and interregionalisms in the post Trans Pacific Partnership TPP Donald Trump s presidency has transformed trans Pacific economic and political relations contrasting sharply with President Obama s pivot to Asia strategy Unilateralism and bilateralism have returned to the center stage at the cost of regionalism interregionalism and multilateralism Understanding these new dynamics requires closer examination of the underlying domestic political economies Examining ten country case studies of multi actor agency at the national level expert contributors argue that trans Pacific relations should not only be explained in terms of the behavior of the major powers but that medium powers and even small countries can exert influence and occupy strategic nodes and contribute to shaping a new international relations

network Their findings will be of interest to scholars of international relations international political economy regionalism and international economics *Growth, Distribution and Political Change* Malcolm Falkus, Kwan S. Kim, Ryoshin Minami, 1999-09-17 Continuing the inequality and development debate originally ushered in by Kuznets this book extends to the possible sociopolitical disruptions of growing inequality and its ramifications for growth and development Comparing a range of countries in Asia and beyond the book examines the relationships between growth distribution and politics Theoretical and empirical studies are backed up by discussion of historical developments in this interdisciplinary study which will interest political scientists sociologists historians and economists **The Changing Economic Geography of Globalization** Giovanna Vertova, 2006-04-20 The process of globalization has had profound often destabilizing effects on space at all levels i.e. local regional national international This revealing book analyzes both theoretically and empirically the effects of globalization over space It considers through a dialogue among different paradigms the ways in which space has become more important in the global economy Globalization has been advocated as a way of shrinking time and space which will lead to a homogenized global market a suggestion challenged in differing ways and with a variety of approaches by all the contributors to this volume Leading authorities from a range of disciplines are represented amongst this impressive list of contributors including Eric Sheppard Bjørn Asheim Richard Walker and Peter Swann The chapters demonstrate persuasively the continuing and even increasing role of space in the global economy and throughout the book covers viewpoints from the fields of international political economy economic geography regional and local economics This impressive volume which contains a selection of the best in contemporary scholarship will be of interest to the international arena of academicians policy makers and professionals in these or related fields **Regional Economic Integration and the Global Financial System** Sorhun, Engin, Hac{o?}lu, Ümit, Dinçer, Hasan, 2014-11-30 In theory regionalism and globalization are intended to be viewed as two separate concepts However as long as the approaches complement each other considering these paradigms in tandem can have significantly positive effects on the overall status of the world economy Regional Economy Integration and the Global Financial System addresses recent trends in regional integration projects and the strides that such projects are making on the road toward globalization Focusing on a range of economic projects emerging supranational units and possible implications for future trends this book is an essential reference source for professionals scholars and institutions interested in the dynamic effects of regionalism and globalization *The Institutional Transformation of the Economic Community of West African States* Kofi Oteng Kufuor, 2006 A unique analysis of regional economic integration in West Africa this book is an exploration of the institutional evolution of the Economic Community of West African States ECOWAS It uses the tools of the New Institutional Economics School NIE to explore the most recent ECOWAS Treaty *Globalising the Regional, Regionalising the Global: Volume 35, Review of International Studies* Rick Fawn, 2009-04-30 A collection of leading international scholars examine the concept of regions from a range of perspectives and assess leading contemporary

examples Foreign Direct Investment in a Changing Global Political Economy Steve Chan, 2016-07-27 This book examines foreign direct investment in a changing world economy. It offers case studies of this investment in different national and industrial contexts. Firms and countries have encountered mixed results in using this investment to further their foreign leverage. Conversely, potential host countries have faced different opportunities and constraints in attracting or utilizing foreign capital for their development. Although some countries have been relatively successful, most do not appear to be well positioned to take advantage of the ongoing processes of globalization of national economies.

AFTA in the Changing International Economy Joseph L.H. Tan, 1996 This timely volume reviews the rapidly changing international economic environment and raises a range of issues and concerns pertaining to recent developments and the future of AFTA. ASEAN Free Trade Area. Part one is devoted to thematic analyses and perspectives dealing with trade enlarging the ASEAN regional grouping and relations with the World Trade Organization (WTO). Part two analyses AFTA in a wider comparative perspective, examining relationships with the major trading partners of ASEAN, namely the United States and more broadly NAFTA, Japan and the European Union.

The Union and the World: The Political Economy of a Common European Foreign Policy Alan Cafruny, Patrick Peters, 2023-08-21 During the last decade, Europe has been transformed both politically and commercially. The establishment of a genuinely single marketplace in the context of an expanding membership has enabled the European Union greatly to enhance its role on the world stage. In the areas of trade and commercial policy, the Union increasingly speaks with one voice. As a result of the Maastricht Treaty on Economic and Political Union of 1993, a process has been set in motion whereby the embryonic mechanisms of a common foreign policy (European Political Cooperation or EPC) are gradually evolving into a more comprehensive Common Foreign and Security Policy (CFSP). The contributors to this volume describe and evaluate the nature and extent to which the European Union plays an independent role in international affairs. This pioneering work makes an important contribution to the literature on the European Union, since the chapters present a comprehensive picture of the Union's foreign economic policies and actions, its foreign security policy, and the supranational nature of much Union decision making. The book is significant not only because of its dual focus on economics as well as politics, but also because it comprehensively covers the broad range of Union policies in both the economic and political spheres. The intended level of readership is undergraduate courses on the EU and on European politics, upper level undergraduate courses in International Relations, and graduate survey courses on the EU. The book is sufficiently comprehensive and instructive to achieve a wide readership, especially in North America and the UK.

The Rise Of The New Economic Powers And The Changing Global Landscape Haico Ebberts, 2022-12-19 This book explores the catching up process of a group of large emerging markets, the New Economic Powers. This process is extremely robust and should be considered as the defining trend of our age, resulting in a pivotal change in world economics and politics. The outcome is that the West cannot dominate the world as it did in the previous 200 years. Today's world is pluralistic, and the larger emerging

markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers

Changing Political Economy of Vietnam Martin Gainsborough, 2003-08-27 This book explores the way in which the state has become commercialised under reform as party and government officials have gone into business and considers the impact that this has had on politics within Ho Chi Minh City and Hanoi The book charts the way in which power has been decentralised to the lower levels of the party state but argues that the central state retains significant power These issues are explored through a variety of case studies including the implementation of different reform policies struggles over political and business activity and the prosecution of two major corruption cases Particular emphasis is placed on piecing together the myriad of informal practices which dominate business and political life in Vietnam

How China's Silk Road Initiative is Changing the Global Economic Landscape Yuan Li, Markus Taube, 2019-08-28 China's New Silk Road initiative constitutes one of the most ambitious projects in recent decades designed to change the pattern of the global economic division of labour as well as the geostrategic balance of power It has the potential to create a new fabric of industrial value creation that links China and East Asia via Central and South Asia with Europe and to forge new regional and multilateral institutions that complement or compete with existing regional and global governance systems First proposed in 2013 the new initiative is only now starting to be rolled out with trade relations gradually intensifying and the first investment projects and infrastructure clusters becoming manifest However the full impact of the evolving new regional value chains on global goods flows investment activity supra national institution building as well as their wider international implications remains undetermined This book brings together leading scholars from economics political science and area studies who present the latest cutting edge knowledge and the latest state of the art economic and political analysis on how the new initiative is developing and likely to develop

Post-Hegemonic Regionalism in the Americas Jose Briceno-Ruiz, Isidro Morales, 2017-01-20 Regionalism in Latin America and the Caribbean has experienced transformations over the last few years After more than a decade of a hegemonic model based solely on free market principles the regional and global transformation that occurred in the first decade of the new millennium modified the way of understanding economic development and the insertion of regional blocs in global affairs Old

initiatives have been reconsidered new schemes have emerged and new principles going beyond trade issues have modified the norms and processes of regional economic integration This book reviews these recent transformations to depict and explain the new trends shaping regional blocs and cooperation in the Americas The Korean Economy Charles Harvie, Hyun-Hoon Lee, Junggun Oh, 2004-01-01 Korea has played and will increasingly play an important role in the future development of the South East Asian region including the expansion of regional economic cooperation and interregional trade Indeed Korea has been a leading proponent of the idea of ASEAN 3 Clearer understanding of this economy its major contemporary policy and reform issues and its future are of particular interest from both regional and global perspectives

Comparative Politics Daniele Caramani, 2014 This exciting and authoritative introduction to comparative politics provides a range of perspectives methods and theories at the heart of political systems around the world Alongside explanations of the most important themes students are presented with a wealth of empirical data to demonstrate similarities and differences in practice and to encourage research This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation

The Changing Global Order Madeleine O. Hosli, Joren Selleslaghs, 2019-11-22 This volume offers a comprehensive evaluation of the concept of global order with a particular emphasis on the role of regional organisations within global governance institutions such as the United Nations Building from a solid theoretical base it draws upon the expertise of numerous leading international scholars offering a broad array of timely and relevant case studies These all take into consideration the historical setting before analysing the contemporary situation and offering suggestions for potential realignments and readjustments that may be witnessed in the future The volume adopts an interdisciplinary approach when addressing some of the most pressing issues of global governance which our global community must tackle This presents the readers an opportunity to understand related topics such as political economy international law institutions of global governance in conjunction with the academic field of International Relations IR It further helps students and interested readers understand the theoretical and practical foundations to the changing nature of global affairs **International**
