Regions Beyond John Gooding, 2016-12-15 This is a story of transformation It is a story of evangelism discipleship and church planting It is a story of reaching the nations of the world with the gospel It is an exciting story In 1970 the Prescott Foursquare Church in Arizona was struggling It had been morally violated and broken It was a small abused congregation At that time Prescott was a rural town of about 17 000 persons in northwestern Arizona Wayman Mitchell took the pastorate of the Prescott Foursquare Church in January The addition of his family increased the size of the congregation to about two dozen persons From this small congregation in a small rural community God has raised a movement that has impacted the world The Christian Fellowship Ministries CFM as it is now called has birthed over twenty two hundred churches located in one hundred and sixteen nations of the world This story is meaningful to layman and minister alike It is meaningful for the broader Christian community This story tells how God can use common men and women and the common things of humanity to minister in the regions beyond America in the 1970s was experiencing the Jesus People Movement JPM That movement changed America and impacted much of the western world Principles from that movement became part of the CFM The language of transformation was common to the Jesus people When witnessing they commonly cited Romans 12 1 2 The Prescott ministry picked up the importance of transformation for individuals and the church The Great Commission also stirred Jesus people There was urgency about wining the world to Jesus The biblical and theological foundation for evangelism discipleship and church planting of the Christian Fellowship Ministry starts with this commission found in Matthew 28 16 20 The ministry of the CFM was not the plan of a man or group of people It was by trial and error a decision here and a decision there and out of some things that seemed to work that the ministry of the CFM evolved It was not the discovery of a new doctrine or the rediscovery of an old one It was not the implementation of a program that transformed the CFM It was the discovery of what God was doing and implementing that in the Prescott church The deeper discovery was

that God was restoring the dignity of the local church The indigenous church principle and the making of disciples propelled the mission forward This book is intended to provide an example of what God can do with people who simply try and follow God Based on biblical and Christian principles it is intended to inspire persons to the work of God And it is intended to inspire ministers to the possibilities of God when faced with the impossibilities of the world This story uncovers the core elements that led a broken church out of brokenness to spiritual health and world impact This is not a history formula for revival or step by step guide for church growth It is an example of what God can do with a common people who seek to faithfully obey God

Beyond Sets Nicholas Rescher, Patrick Grim, 2013-05-02 This book is the product of a collaboration stretching the years 2007-10 whose initial fruit was a paper on Plenum Theory published in *Nous* The work grew out of the author's conviction that standard set theory which had evolved to meet the needs of mathematics was not fully adequate to the less abstractly geared and rigidly determined needs of less finalized ranges of inquiry and deliberation

The Regions beyond, the journal of the East London institute for home and foreign missions [afterw.] organ of the Regions beyond missionary union. Ed. by Mrs. H.G. Guinness Regions beyond missionary union, *Beyond the Medieval Village* Stephen Rippon, 2008-11-27 The varied character of Britain's countryside provides communities with a strong sense of local identity One of the most significant features of the landscape in Southern Britain is the way that its character differs from region to region with compact villages in the Midlands contrasting with the sprawling hamlets of East Anglia and isolated farmsteads of Devon Even more remarkable is the very English feel of the landscape in southern Pembrokeshire in the far south west of Wales Hoskins described the English landscape as the richest historical record we possess and in this volume Stephen Rippon explores the origins of regional variations in landscape character arguing that while some landscapes date back to the centuries either side of the Norman Conquest other areas across southern Britain underwent a profound change around the 8th century AD

Things new and old, 1859 A. B. Simpson and the

Pentecostal Movement Charles Nienkirchen, 2010-05-01 Based on impressive research the author has offered the spiritual heirs of A B Simpson as well as the larger church world an accurate interpretation of Simpson's spiritual pilgrimage. The information about Simpson's belief in speaking in tongues and the ministries of those who remained or left the Alliance over the issue provides valuable insights into the close relationship between the organization and emerging Pentecostal movement.

Gary B McGee Professor of Church History Assemblies of God Theological Seminary It is good news indeed that Charles Nienkirchen's *A B Simpson and the Pentecostal Movement* is being republished. This is a very important and well written work which sheds light not only on A B Simpson's quest for the tongues attested baptism in the Holy Spirit but on the milieu surrounding the early spread of Pentecostalism in America and especially in the Christian and Missionary Alliance. This is a historical treasure.

Vinson Synan Dean Emeritus Regent University School of Divinity Simpson has long deserved an in depth study. A pivotal turn of the century figure who never found full acceptance in any wing of American evangelicalism this prolific Canadian nonetheless profoundly influenced popular evangelicalism and Anglo American Pentecostalism. Nienkirchen makes careful use of long unused primary sources to illuminate Simpson's relationship to early Pentecostalism. The result is a suggestive work that offers perceptive insights into early Pentecostalism and the context from which it emerged.

Edith L Blumhofer Project Director Institute for the Study of American Evangelicalism Wheaton Nienkirchen provides a splendid study of the relationship of A B Simpson to Pentecostalism. This book demonstrates wide knowledge of primary materials and great care in documentation with about one third of the text devoted to footnote material. Nienkirchen clearly delineates the major elements in Simpson's religious thought and gives attention to the most significant ways in which his thought changed. His major interest in this book focuses on the ways in which Simpson influenced the formation of early Pentecostalism.

Pentecostals accept some elements of Simpson's teaching and rejected or modified others but Nienkirchen argues persuasively the case for Simpson's importance in understanding Pentecostalism. Moreover he clearly illustrates specific ways both direct and indirect in which that influence was felt in the complex story of early holiness pentecostal relationships.

William Pitts Professor of Church History Baylor University Charles Nienkirchen has supplied those interested in the history and theology of American Evangelicalism the Christian and Missionary Alliance or the Pentecostal movement with an invaluable reference tool and an interpretive lens through which to understand them. This must read has shown its worth by remaining as relevant informative and provocative as when it first went to press.

Bernie A Van De Walle Associate Professor of Historical and Systematic Theology Ambrose University College and Seminary Calgary AB In *A B Simpson and the Pentecostal Movement* Charles Nienkirchen has combined prodigious research with mastery of historical and theological sources to produce a superb study of Simpson's relationship with early pentecostalism. This is a most important and useful work.
