Regions Of The Great Heresy:

Regions of the Great Heresy Jerzy Ficowski, 2003 A prolonged labor of love and a model of a kind of penetrating adoration Richard Bernstein New York Times **Regions of the Great Heresy** Jerzy Ficowski, 2000 *Regions of the Great Heresy* Jerzy Ficowski, 2000 **Bound to Please** Michael Dirda, 2005 A showcase of one hundred of the world's most significant books offers the author's introductory essays on such writers as James Boswell Colette and Joseph Roth and includes explorations of a range of genres and specific works **The Idea of Galicia** Larry Wolff, 2012-01-09 Galicia was created at the first partition of Poland in 1772 and disappeared in 1918 Yet in slightly over a century the idea of Galicia came to have meaning for both the peoples who lived there and the Habsburg government that ruled it Indeed its memory continues to exercise a powerful fascination for those who live in its former territories and for the descendants of those who emigrated out of Galicia The idea of Galicia was largely produced by the cultures of two cities Lviv and Cracow Making use of travelers accounts newspaper reports and literary works Wolff engages such figures as Emperor Joseph II Metternich Leopold von Sacher Masoch Ivan Franko Stanisław Wyspiański Tadeusz Boye-Żeleński Isaac Babel Martin Buber and Bruno Schulz He shows the exceptional importance of provincial space as a site for the evolution of cultural meanings and identities and analyzes the province as the framework for non-national and multi-national understandings of empire in European history *The Cambridge Companion to Laurence Sterne* Thomas Keymer, 2009-08-20 This Companion provides essays on the author of *Tristram Shandy* his eighteenth century context his oeuvre and its reception Pervasive Animation Suzanne Buchan, 2013-08-22 This new addition to the AFI Film Readers series brings together original scholarship on animation in contemporary moving image culture from classic experimental and independent shorts to digital animation and installation The collection that is also a philosophy of animation foregrounds new critical perspectives on animation connects them to historical and contemporary philosophical and theoretical contexts and production practice and expands the existing canon Throughout contributors offer an interdisciplinary roadmap of new directions in film and animation studies discussing animation in relationship to aesthetics ideology philosophy historiography visualization genealogies spectatorship representation technologies and material culture **Notions of Otherness** Mark Axelrod-Sokolov, 2019-04-30 One can approach the notion of otherness or alterity in various ways politically aesthetically ethically culturally religiously and sexually Writing in Saylor.org Lilia Melani defined the other as an individual who is perceived by the group as not belonging as being different in some fundamental way Any stranger becomes the Other The Other in a society may have few or no legal rights may be characterized as less intelligent or as immoral and may even be regarded as sub-human The collection of essays *Notions of Otherness* addresses many of these approaches as ways of interrogating how varied yet how similar they are in relation to the individual literary texts **Holocaust Literature: Agosin to Lentin** S. Lillian Kremer, 2003 Review This encyclopedia offers an authoritative and comprehensive survey of the important writers and works that form the

literature about the Holocaust and its consequences The collection is alphabetically arranged and consists of high quality biocritical essays on 309 writers who are first second and third generation survivors or important thinkers and spokespersons on the Holocaust An essential literary reference work this publication is an important addition to the genre and a solid value for public and academic libraries The Top 20 Reference Titles of the Year American Libraries May 2004

The Holocaust Object in Polish and Polish-Jewish Culture Bozena Shallcross,2011-02-21 In stark contrast to the widespread preoccupation with the wartime looting of priceless works of art Bo 1 4ena Shallcross focuses on the meaning of ordinary objects pots eyeglasses shoes clothing kitchen utensils tangible vestiges of a once lived reality which she reads here as cultural texts Shallcross delineates the ways in which Holocaust objects are represented in Polish and Polish Jewish texts written during or shortly after World War II These representational strategies are distilled from the writings of Zuzanna Ginczanka W adys aw Szlengel Zofia Na kowska Czes aw Mi osz Jerzy Andrzejewski and Tadeusz Borowski Combining close readings of selected texts with critical interrogations of a wide range of philosophical and theoretical approaches to the nature of matter Shallcross s study broadens the current discourse on the Holocaust by embracing humble and overlooked material objects as they were perceived by writers of that time

The Post-traumatic Theatre of Grotowski and Kantor

Magda Romanska,2014-10-01 Despite its international influence Polish theatre remains a mystery to many Westerners This volume attempts to fill in current gaps in English language scholarship by offering a historical and critical analysis of two of the most influential works of Polish theatre Jerzy Grotowski s Akropolis and Tadeusz Kantor s Dead Class By examining each director s representation of Auschwitz this study provides a new understanding of how translating national trauma through the prism of performance can alter and deflect the meaning and reception of theatrical works both inside and outside of their cultural and historical contexts

The Shoah in Ukraine Ray Brandon,Wendy Lower,2008-05-28 On the eve of the Nazi invasion of the USSR in 1941 Ukraine was home to the largest Jewish community in Europe Between 1941 and 1944 some 1 4 million Jews were killed there and one of the most important centers of Jewish life was destroyed Yet little is known about this chapter of Holocaust history Drawing on archival sources from the former Soviet Union and bringing together researchers from Ukraine Germany Great Britain the Netherlands and the United States The Shoah in Ukraine sheds light on the critical themes of perpetration collaboration Jewish Ukrainian relations testimony rescue and Holocaust remembrance in Ukraine Contributors are Andrej Angrick Omer Bartov Karel C Berkhoff Ray Brandon Martin Dean Dennis Deletant Frank Golczewski Alexander Kruglov Wendy Lower Dieter Pohl and Timothy Snyder

Kabbalah and Literature Kitty Millet,2024-01-11 Focuses on a range of Jewish and non Jewish writers to examine the intersection of Kabbalah the Jewish mystical tradition and secular Jewish literatures Kabbalah and Literature shows how the Jewish mystical tradition contributes to the renewal of literature in a modern global and increasingly disconnected age Kitty Millet explores Kabbalah s conceptual underpinnings aesthetic principles tenets and signifiers to demonstrate how literature s absorption of kabbalistic material

has altered its ontology function and the tasks it sets for itself Reading writers from Europe and the Americas Kitty Millet maps how the kabbalist s desire to recover Eden transforms into a latent messianic drive only intuitable through text Thus it charts a journey of sorts a migration of Jewish mystical material embedded surreptitiously within text in order to shift ever so slightly at times the range of the literary to encompass an aesthetic vision not easily reducible to the literal the known the allegorical or even the philosophical In this way Kabbalah and Literature proposes a novel intuitive approach shifting focus away from the Jewish text s epistemological elements to embrace its secrets (Un)masking Bruno Schulz Dieter De Bruyn, Kris van Heuckelom, 2009 Whatever critical scalpel one selects for dissecting the literary works of Bruno Schulz 1892 1942 there will always be a certain degree of textual resistance which cannot be broken Or in other words taking off one of Schulz s many masks one will probably never avoid the impression that a new mask has emerged This book contributes to the three most typical critical strategies of reading Schulz s works combinations fragmentations reintegrations being fully aware of course of the relativity of each particular approach In addition the book sets out to explore all of Schulz s creative output i e his stories as well as his graphic epistolary and even literary critical works as one of Schulz s main goals was exactly to cross artificially set up boundaries between among other things different artistic media of expression The book for the first time brings together leading Schulzologists Jarzbski Robertson Sproede and their prospective successors Augsburgers Gorin Kato Suchaska Dray ska Underhill Wojda established Polish academics D browski Markowski Skwara Weretiuk and their foreign counterparts De Bruyn Gall Meyer Fraatz Schulte Zielski scholars primarily working on other authors Anessiliwa urek and those focusing on other art forms S nchez Pardo Watt The editors introduction offers an overview of seven decades of Schulzology The book is of interest for both readers with a general interest in world literature and or a particular interest in Polish and Jewish studies Michigan Quarterly Review , 2004 **The Elsewhere** Adam Zachary Newton, 2005-08-03 The Elsewhere Or midbar biblical Hebrew for both wilderness and speech A place of possession and dispossession loss and nostalgia But also a place that speaks Ingeniously using a Talmudic interpretive formula about the disposition of boundaries Newton explores narratives of place flight border and beyond The writers of The Elsewhere are a disparate company of twentieth century memoirists and fabulists from the Levant Palestine Israel Egypt and East Central Europe Together their texts cunningly paired so as to speak to one another in mutually revelatory ways narrate the paradox of the near distance

Gombrowicz, Polish Modernism, and the Subversion of Form Michael Goddard, 2010 Gombrowicz Polish Modernism and the Subversion of Form provides a new and comprehensive account of the writing and thought of the Polish writer Witold Gombrowicz While Gombrowicz is probably the key Polish modernist writer with a stature in his native Poland equivalent to that of Joyce or Beckett in the English language he remains little known in English As well as providing a commentary on his novels plays and short stories this book sets Gombrowicz s writing in the context of contemporary cultural theory The author performs a detailed examination of Gombrowicz s major literary and theatrical work showing how his conception of form is

highly resonant with contemporary postmodern theories of identity This book is the essential companion to one of Eastern Europe's most important literary figures whose work banned by the Nazis and suppressed by Poland's Communist government has only recently become well known in the West **Gombrowicz's Grimaces** Ewa Plonowska

Ziarek,1998-01-29 Examines Gombrowicz's modernist aesthetics in the context of his critique of nationalism his exploration of queer eroticism and his interest in hybrid and subaltern identities Jewish Memory And the Cosmopolitan Order Natan Sznajder,2013-04-17 Natan Sznajder offers a highly original account of Jewish memory and politics before and after the Holocaust It seeks to recover an aspect of Jewish identity that has been almost completely lost today namely that throughout much of their history Jews were both a nation and cosmopolitan they lived in a constant tension between particularism and universalism And it is precisely this tension which Sznajder seeks to capture in his innovative conception of rooted cosmopolitanism that is increasingly the destiny of all peoples today The book pays special attention to Jewish intellectuals who played an important role in advancing universal ideas out of their particular identities The central figure in this respect is Hannah Arendt and her concern to build a better world out of the ashes of the Jewish catastrophe The book demonstrates how particular Jewish affairs are connected to current concerns about cosmopolitan politics like human rights genocide international law and politics Jewish identity and universalist human rights were born together developed together and are still fundamentally connected This book will appeal both to readers interested in Jewish history and memory and to anyone concerned with current debates about citizenship and cosmopolitanism in the modern world **Eastern Europe**

Unmapped Irene Kacandes,Yuliya Komska,2017-10-01 Arguably more than any other region the area known as Eastern Europe has been defined by its location on the map Yet its inhabitants from statesmen to literati and from cultural economic elites to the poorest emigrants have consistently forged or fathomed links to distant lands populations and intellectual traditions Through a series of inventive cultural and historical explorations Eastern Europe Unmapped dispenses with scholars long time preoccupation with national and regional borders instead raising provocative questions about the area's non contiguous and frequently global or extraterritorial entanglements
