studies from Taiwan Hong Kong and the People s Republic of China Consuming China affords a greater understanding of the practice of Chinese consumption and will appeal to China scholars and anthropologists and to those with an interest in cultural and gender studies      *Intergenerational Justice* Lukas H. Meyer,2017-05-15 The essays selected for this volume show how relations between past current and future generations have become a major subject of philosophical research since the 1970s The relations between people alive today with people who may exist in the future and people now deceased differ from relations between contemporaries and in ways that raise new conceptual logical and substantive questions Among the questions addressed in this volume are what is the status of people now deceased and people who may exist in the future Can the latter be harmed by the actions of people alive today What duties of justice do we have towards people with whom we can neither interact nor co operate and can people who are indirect victims of past injustices legitimately claim compensation Answers to these questions are relevant in a number of policy areas most notably in issues regarding reparations for historical injustice and responding to climate change and its consequences      **Modernizing Aristotle's Ethics** Roger Bissell,Vinay Kolhatkar,2023-11-25 Over 2 300 years ago the Ancient Greeks gave us philosophy the love of wisdom From Socrates and Epicurus to Plato and Aristotle they grappled with the big questions who are we Why are we here What is a good life How should we lead our life Later the natural sciences split away from philosophy and then the humanities did as well and fragmented into separate disciplines all of which tell us something about human nature the universal the culture specific and the individuated This ongoing process was also forwarded by supporters of Aristotle s worldview most notably Thomas Aquinas and Ayn Rand and we see much value in their neo Aristotelian philosophies too In the light of all that that the new sciences and more recent philosophers tell us about human nature and ethics is there a case for modernizing Aristotle and thinkers like Aquinas and Rand as well as against starting afresh We think so The theme of this book is to arrive at a highly practical neo Aristotelian framework to facilitate creating a meaningful life and self actualization and thereby flourishing and happiness by linking ethics as an ought with the empirical sciences that provide the is A modernized ethic can be created using current scientific knowledge and is also made easier in application by specifying the psychological nature of the human the internal or the ontology of the modern human and delineating that which is universal from that which can be individualized      **Public Finance and Public Policy** Arye L.
