GATT, WTO and the Regulation of International Trade in Textiles Claudia Jiménez Cortés, 2018-08-20 Published in 1997 in this book an attempt has been made to analyze the legal structure of GATT and the WTO as well as those agreements which control trade in textiles One of the GATT s major failures was its inability to come into line with the new economic reality and the needs of those states who created this system for controlling international trade Trade in textiles was an excellent example of this Now the WTO aims to overcome this problem thanks to its greater pragmatism and its search for solutions to free trade difficulties The WTO is not however the perfect solution Its highly political character allows room for improvement even though the key to its success still lies with the effective cooperation of member states As for the textile sector this new panorama for trade in goods provides it with a new opportunity to finally return to the general legal framework in the year 2005 **International Trade Regulation** Thomas Cottier, Matthias Oesch, Thomas M. Fischer, 2005 **The Regulation of International Trade, Volume 3** Petros C. Mavroidis, 2020-11-24 A comprehensive analysis of GATS that considers its historical context the national preferences that shaped it and a path to a GATS 2.0 The previous two volumes in The Regulation of International Trade analyzed the General Agreement on Tariffs and Trade GATT the first successful agreement to generate multilateral trade liberalization and the World Trade Organization WTO for which the GATT laid the groundwork In this third volume Petros Mavroidis turns to the General Agreement on Trade in Services GATS a WTO treaty that took effect in 1995 and offers a comprehensive analysis that considers the historical context of the GATS the national preferences that shaped it and a path to a GATS 2.0 Mavroidis examines the GATS through its negotiating record considering whether the GATS as it is can appropriately address the concerns of the world trading community The GATS deals exclusively with non tariff barriers NTBs precisely the instrument that the WTO has not managed to tame and one of some significance in light of the digital revolution which has enlarged the scope of cross border transactions in which neither supplier nor consumer needs to travel for a service to be consumed Mavroidis argues that the GATS has brought about a platform to liberalize

services and has locked in some pre GATS liberalization What is missing he contends is a GATS Think that would generate liberalization from now on

efficient This is a question that is only scarcely if ever analysed in existing literature Boris Rigod aims to provide an answer to this fundamental concern Using the tools of economic analysis and in particular the concept of economic efficiency as a benchmark the author states that domestic regulatory measures should only be subject to scrutiny by WTO bodies when they cause negative international externalities through terms of trade manipulations He then suggests that WTO law applied by the WTO judiciary can prevent WTO members from attaining optimal levels of regulation By applying a law and economics methodology Rigod provides an innovative solution to the problem of how to reconcile members regulatory autonomy and WTO rules as well as offering a novel analytical framework for assessing domestic regulations in the light of WTO law
