Regulatory Finance Howard E.

Thompson, 2012-12-06 This monograph is concerned with the determination of the allowed rate of return in rate cases which

in part determines the rates of charge to customers of public utilities Rate of return determination has been a central topic in

utility regulation for a century Recent changes in the traditionally regulated markets electricity gas and telephone have

shoved discussion of rate of return determination into the background replacing it by technology changes competition

downsizing deregulation and regulatory incentive systems These new issues have made the regulatory sector which had the

reputation of being stodgy and uninteresting an exciting field of study But rate of return is not dead It will play a key role in whatever the new structure of the regulated sector Separating generation from transmission and distribution will not eliminate the need for rate of return analysis in the electric utility industry Rather it may well increase the number of companies for which the rate of return needs to be determined It will play a fundamental role in the new regulatory environment Incentive systems in the regulated sector may be the wave of the future but they will use the required rate of return as a benchmark Rate case will persist Most rate cases include opposing testimony as to the fair rate of return or even the cost of capital for a public utility whose rates are at issue

International Finance: Theory and Policy in Africa Daniel

Gbetnkom, 2012-01-26 It is now well known that there are close links between financial sector development and economic growth and in turn between economic growth and poverty reduction A well functioning financial sector that allocates finance to the best opportunities can contribute to a more diverse economy and a more equal society rewarding entrepreneurial newcomers and challenging an entrenched and sometimes corrupt economic and political status quo However at first glance the international finance theory and policies would seem to have little relevance for Africa as there were built up in response to developments that took place far from Africa and whose direct impact on Africa was limited Nonetheless key components of the international finance functioning are very relevant for Africa The ongoing global financial and economic crises that are shaking the world have come as a stark reminder that African countries have a direct interest in global financial stability even though they may not be the main actors In this line economic fundamentals sound national macroeconomic and structural policies and a sound and properly regulated financial system are as critical as ever in Africa This volume explores the application of the basic theory and the policies of international financial transactions in Africa It contains six chapters on

conceptual and policy oriented issues Analyses raise important questions and offers favorable counter arguments to the application of international finance theory after bringing to focus the relevance of certain themes in Africas inter state and intrastate policies The Virtual Utility Shimon Awerbuch,Alistair Preston,2012-12-06 In the winter of 1996 after 4 years of planning and research the Symposium on the Virtual Utility was held in Saratoga Springs New York It was sponsored by Niagara Mohawk Power Corporation Co sponsored by CSC Index and the New York State Energy Research and Development Authority and hosted by Rensselaer Poly technic Institute Troy NY The symposium sought to identify new areas of inquiry by presenting cutting edge academic and practitioner research intended to further our understanding of the strategic technologically driven issues confronting the electricity production and distribution process The program sought to offer new insights into rapid changes in the utility industry in part by examining analogues from manufacturing and telecommunications In addition to identifying new research areas the symposium yielded a number of important findings and conclusions This volume contains the presented papers of the meeting the discussant reports and two special papers prepared by the meeting rapporteurs who performed superbly in analyzing synthesizing explaining and generally bringing a cohesive perspective to the interesting yet complex set of ideas presented at this unique meeting We would like to acknowledge the people and organizations that contributed to this effort We thank Niagara Mohawk Power Corporation and Albert Budney its President Chief Operating Officer for sponsoring this project and Andrew Vesey Vice President I whose vision support and championing made this project possible Audit and Accounting Guide Depository and Lending Institutions AICPA,2017-09-19 The 2017 edition of this industry standard resource offers clear and practical guidance of audit and accounting issues such as transfers and servicing troubled debt restructurings financing receivables and the allowance for loan losses and fair value accounting It also provides direction for institutions assessing their operations and internal controls for regulatory considerations as well as discussions on existing regulatory reporting matters Updates include SAS No 132 The Auditor s Consideration of an Entity s Ability to Continue as a Going Concern SSAE No 18 Attestation Standards Clarification and Recodification Note FASB ASU No 2016 13 will have a significant impact on the guide however incorporation of guidance will not occur until the 2018 or 2019 edition of the guide **Code of Federal Regulations** ,2003 The Code of Federal Regulations of the United States of America ,2003 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government Global Financial Deregulation Itzhak Swary,Barry Topf,1992 Financial institutions in developed countries have undergone a profound structural change in recent years As a result banking has become internationalized and competition has intensified within vast and complex markets for a range of financial services This book reviews these changes **FCC Record** United States. Federal Communications Commission,2013 **Federal Register** ,1996-08-16 **Financial Stability Policy in the Euro Zone** Gundbert

Scherf,2013-06-17 Due to the lack of political salience that financial stability policy enjoys in tranquil economic times this policy field lends itself particularly well to capture the more so the more important the role of banks is in the financial system Gundbert Scherf s research focuses on this nexus between integrated banking supranational monetary policy and national banking regulation He finds that national level differences in financial systems and related institutions explain and drive variation in regulatory financial stability policy across countries

The Routledge Handbook of Global Public Policy and Administration Thomas R. Klassen,Denita Cepiku,T. J. Lah,2016-11-10 The Routledge Handbook of Global Public Policy and Administration is a comprehensive leading edge guide for students scholars and practitioners of public policy and administration Public policy and administration are key aspects of modern societies that affect the daily lives of all citizens This handbook examines current trends and reforms in public policy and administration such as financial regulation risk management public health e government and many others at the local national and international levels The two themes of the book are that public policy and administration have acquired an important global aspect and that a critical role for government is the regulation of capital The handbook is organized into three thematic sections Contemporary Challenges Policy and Administration Responses and Forging a Resilient Public Administration to allow readers to quickly access knowledge and improve their understanding of topics The opening chapter introductions to sections and extensive glossary aid readers to most effectively learn from the book Each chapter provides a balanced overview of current knowledge identifying issues and discussing relevant debates The book is written by authors from Europe Asia North and South America Africa and Australia

Regulation of Network Utilities Claude Henry,Michel Matheu,Alain Jeunemaître,2001 Propelled by deep technical economic and cultural changes network utilities have in the last twenty years entered a new era Since competition has been widely introduced and promoted we have experienced a radical change in the structure of the industries and the role of the state authorities Their role in managing monopolies has evolved into regulating new forms of markets which has resulted in the creation of independent regulatory authorities These new public bodies work with governments to try and reconcile the needs of competition and public service missions This suggests the use of recent developments in economic theory to handle complex problems This volume offers an exploration by scholars and regulators of the new regulatory regimes across Europe The first part presents the pioneering experiences of the United Kingdom and Sweden The United Kingdom has quickly chosen to establish powerful and independent individual regulators Reforms in Sweden have been more gradual and regulators have in the first instance acted mainly as mediators Part two is devoted to second wave developments that took place in various European countries i e France Germany Italy and Spain countries where the legal tradition is less conducive to the concept of independent regulators There the regulators are often

but not always less powerful and meet more obstacles in their efforts to prevent either the formation of oligopolies or the resistance of incumbent monopolies In Germany another problem has emerged as the federal tradition prevents the creation of independent regulators in certain key sectors The contributions in the third part of the volume throw some light on the problems of coordinating national regulations One can observe the continuous emergence of modes of cooperation between national regulators as well as European authorities Faced with certain categories of problem the European authorities are themselves led to act as common regulators The countries of central and eastern Europe which are progressively converging towards the general economic model of the West are more and more concerned with the accompanying regulation problems Last but not least the Internet raises worldwide problems of regulation that are beginning to be seriously considered
