Reimagining The Human Theological Anthropology In Response To Systemic Evils:

Reimagining the Human Eleazar Fernandez, 2004-01-01 This book explores theological anthropology the doctrine of what it means to be human and to be created in God's image Fernandez argues that our life in the image of God is damaged and frustrated by the systemic evil of society particularly the four radical evils of classism racism sexism and naturism destructive practices against the ecosystem At the heart of these four evils are matters of faith and idolatry worshipping human constructs and living under the lie of false securities Idols demand the sacrifice of our souls bodies time and anything that we cherish most

Wills,2009-05-14 Scholars universally acknowledge the role that Christian belief played in the social movement engendered by Martin Luther King Jr Yet few have actually delved into the complexity of King s theology itself The centrality of one aspect of his theology in particular imago Dei the belief that human beings are made in God s image has been surprisingly overlooked In this book Richard W Wills Sr offers a comprehensive analysis of King s appeal for civil rights by investigating his understanding of imago Dei Wills begins by tracing the evolution of this idea through the history of Christian thought showing the intellectual sources King drew on in constructing his own beliefs Wills then demonstrates how King employed this idea in his civil rights work The belief that we are all made in God s image was crucial Wills shows to King s understanding of human nature and equality While King shared with many of his black church forebears the view that humanity s creation by God was a powerful argument for the equality of all people he also took the concept much further For King being made in God s image meant that human beings have not only the right but also the power to reshape society and to build a beloved community on earth Though explicitly grounded in Christian faith the doctrine of imago Dei provided King with a theological rationale that was capable of addressing the needs of the community well beyond the walls of churches Wills s thorough reconsideration King s thought makes the case for his importance as a theologian It convincingly demonstrates that the concept of imago Dei formed the heart of his theology and in turn that his theology was central to the unfolding of the civil rights movement *Neuroplasticity, Performativity, and Clergy Wellness* William D.

Puen, 2024-11-05 Disruption is a buzzword for many economists and businesses but how do we ethically disrupt the way we do business and economics in order to lift people up This book offers resources from a conversation between Catholic social thought and design thinking in response to the question Drawing from the understanding of structures of sin and structures of grace in Catholic social thought and the concepts of design thinking this book offers principles to consider in trying to disrupt our business and economic systems toward becoming more like structures of grace **Teaching for a Multifaith World** Eleazar S. Fernandez, 2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we

are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that is who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let us take the bold steps of radical openness with this book on our side

Black Theology—Essays on Global Perspectives Dwight N. Hopkins, 2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today's international challenges The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures

Queer Christianities Kathleen T. Talvacchia, 2015 Queerness and Christianity often depicted as mutually exclusive both challenge received notions of the good and the natural Nowhere is this challenge more visible than in the identities faiths and communities that queer Christians have long been creating As Christians they have staked a claim for a Christianity that is true to their self understandings How do queer identified persons understand their religious lives And in what ways do the lived experiences of queer Christians respond to traditions and reshape them in contemporary practice Queer Christianities integrates the perspectives of queer theory religious studies and Christian theology into a lively conversation both transgressive and traditional about the fundamental questions surrounding the lives of queer Christians The volume contributes to the emerging scholarly discussion on queer religious experiences as lived both within communities of Christian confession as well as outside of these established communities Organized around traditional Christian states of life celibacy matrimony and what is here provocatively conceptualized as promiscuity this work reflects the ways in which queer Christians continually reconstruct and multiply the forms these states of life take Queer Christianities challenges received ideas about sexuality and religion yet remains true to Christian self understandings that are open to further enquiry and to further queerness

Justice in a Global Economy Pamela Brubaker, Rebecca Todd Peters, Laura A. Stivers, 2006-01-01 Today's complex social and economic problems leave many people in the affluent world feeling either overwhelmed or

ambivalent Even the small percentage of us who have examined the ethics behind our financial decisions and overcome the often deterring factors of self interest rarely know what to do to make any difference By providing tools for examination and concrete actions for individuals communities and society at large Justice in a Global Economy guides its readers through many of today s complex societal issues including land use immigration corporate accountability and environmental and economic justice Beginning with a basic introduction to the impact of economic globalization the book provides both critical assessments of the current political economic structures and examples of people and communities who are actively working to transform society Each chapter concludes with questions for discussion and reflection

Theology and the Experience of Disability Andrew Picard, Myk Habets, 2016-04-28 The Christian gospel compels humanity to embrace deeper ways of being human together that will overcome false divisions and exclusions in search of flourishing and graced communities Presenting both short narratives emerging out of theological reflection on experience and analytical essays arising from engagement in scholarly conversations Theology and the Experience of Disability is a conscious attempt to develop theology by and with people with disabilities instead of theology about people with disabilities A mixture of academic professional practical and or lived experience is brought to the topic in search of constructive multi disciplinary proposals for church and society The result is an interdisciplinary engagement with the constructive possibilities that emerge from a distinctly Christian understanding of disability as lived experience
