Symptoms of Interference, Conditions of Possibility, 1994 *Symptoms of Interference*, 1994 A Reinhardt, J Kosuth, F Gonzales-Torres - Symptoms of Interference - Art & Design Profile 34(Paper Only) Ad Reinhardt, 1994-02-22 **Ad Reinhardt** Michael Corris, 2008-03-15 Michael Corris examines Ad Reinhardt's life and work charting the development of his entire oeuvre from abstract paintings to graphic artwork to illustrations and cartoons *Felix Gonzalez-Torres* Felix Gonzalez-Torres, David Breslin, 2018-06-26 One of the most significant artists to emerge in the late 1980s and early 1990s Felix Gonzalez Torres's reduced formal vocabulary conceptual rigor and evocative use of everyday materials resonates with meaning that is at once specific and mutable rigorous and generous poetic and political Featuring several key bodies of work from throughout the artist's career this publication showcases a series of distinct installations at David Zwirner in New York in 2017 The interplay with the specific architecture of the gallery and the way works are installed is highlighted throughout the catalogue with images that explore the poetics of how space and work influence each other Together in their radical openness to interventions of site audience and context the works on view challenge perceived notions of what constitutes an exhibition space a public an artwork itself Despite the resolute abstraction of much of his work Gonzalez Torres worked with familiar materials from his iconic candy spill works and his evocative light string pieces but also including mirrors clocks and curtains His work activates the architecture of the various spaces the physicality of the viewer the past and present continuously maintaining its relevance Opening with details of the exhibition and images of visitors in the spaces the publication walks the reader through each piece New text by David Breslin explores the variety of works included here while contextualizing Gonzalez Torres's contribution to art history Ethical Materialities in Art and Moving Images Silke Panse, 2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics The explorations of the ethical here are not prescriptive but creative Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of aesthetics They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and material relations of art and images in biodiverse environments They suggest that to bring out the ethical

dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images The Routledge Companion to Art and Activism in the Twenty-First Century Lesley Shipley, Mey-Yen Moriuchi, 2022-12-30 The Routledge Companion to Art and Activism in the Twenty First Century brings together a wide range of geographical cultural historical and conceptual perspectives in a single volume of new essays that facilitate a deeper understanding of the field of art activism as it stands today and as it looks towards the future The book is a resource for multiple fields including art activism socially engaged art and contemporary art that represent the depth and breadth of contemporary activist art worldwide Contributors highlight predominant lines of inquiry uncover challenges faced by scholars and practitioners of activist art and facilitate dialogue that might lead to new directions for research and practice The editors hope that the volume will incite further conversation and collaboration among the various participants practitioners and researchers concerned with the relationship between art and activism The audience includes scholars and professors of modern and contemporary art students in both graduate and upper level undergraduate programs as well as artists curators and museum professionals Each chapter can stand on its own making the companion a flexible resource for students and educators working in art history museum studies community practice socially engaged art political science sociology and ethnic and cultural studies Chapter 17 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

Curious Lessons in the Museum Claire Robins, 2016-05-13 Amongst recent contemporary art and museological publications there have been relatively few which direct attention to the distinct contributions that twentieth and twenty first century artists have made to gallery and museum interpretation practices There are fewer still that recognise the pedagogic potential of interventionist artworks in galleries and museums This book fills that gap and demonstrates how artists have been making curious but none the less useful contributions to museum education and curation for some time Claire Robins investigates in depth the phenomenon of artists interventions in museums and examines their pedagogic implications She also brings to light and seeks to resolve many of the contradictions surrounding artists interventions where on the one hand contemporary artists have been accused of alienating audiences and on the other appear to have played a significant role in orchestrating positive developments to the way that learning is defined and configured in museums She examines the disruptive and parodic strategies that artists have employed and argues for that they can be understood as part of a move to re establish the museum as a discursive forum This valuable book will be essential reading for students and scholars of museum studies as well as art and cultural studies **Modern Sculpture** Douglas Dreishpoon, 2022-10-25 Artists of any ilk can be extremely opinionated when it comes to what they do how they do it and what it might mean Sculptors are no exception Modern Sculpture Artists in Their Own Words presents a selection of manifestos documents statements articles and interviews from more than ninety subjects including an ample selection of contemporary sculptors With this book editor

Douglas Dreishpoon defers to sculptors whose varied points of view illuminate the medium's perpetual transformation from object to action concept to phenomenon over the course of two centuries Each chapter progresses in chronological sequence to highlight the dominant stylistic philosophical and thematic threads that unite each kindred group The result is a distinctive artist centric history and survey of sculpture that showcases the expansive dimensions and malleability of the medium
