The Bivocal Nation Nutsa Batiashvili,2017-09-20 This book is about a divided nation and polarized nationhood Its principal purpose is to examine division and polarization as forms of imagining that are configured within culture and framed by history This is what bivocality signifies two distinct discursive voices through which nationhood is articulated voices that are nonetheless grounded in a culturally common symbolic field The volume offers an ethnographically centered analysis of the ways in which Georgians make use of these voices in critical discourses of nationhood By illuminating the cultural semantics behind these discourses Nutsa Batiashvili offers a new constellation of conceptual terms for understanding modern forms of nationalism and nation building in the marginal or liminal landscapes between the Orient and the Occident

Chinese Perceptions of the Jews' and Judaism Zhou Xun,Xun Zhou,2013-12-16 While prejudice against Jews is a real and ongoing category in Western culture little attention has been paid to the myths of the Jews and their impact in countries outside the West This work draws on a wide variety of source materials from the past two centuries to examine the images of the Jews as constructed in China However the interest here does not lie in the determination of the boundary between the real and fictional aspects of these images Rather it lies in the implications associated with the Jew as an other which remains a distant mirror in the construction of the self amongst various social groups in modern China Although it has been noted by a few scholars that the use of the Jews as a category was important to many thinkers of modern China in the construction of their nationalistic and socio political ideologies this is the first systematic study in the field to be published This book is also more than a historical book on China in that it opens a new arena for modern Jewish studies from a unique angle
