Fulkerson,Alexander R. Thomas,2016-10-19 Reinventing Rural is a collection of original research papers that examine the ways in which rural people and places are changing in the context of an urbanizing world This includes exploring the role of the environment the economy and related issues such as tourism

While traditionally relying on primary sector work in agriculture mining natural resources and the like rural areas are finding new ways to sustain themselves This involves a new emphasis on environmental protection as one important strategy has been to capitalize on natural amenities to attract residents and tourists Beyond improvements to the economy are general improvements to the quality of life in rural communities Consistent with this the volume focuses on the two cornerstones of education and health considering current challenges and offering ideas for reinventing rural quality of life Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 1 Ganesh Shivakoti,Ujjwal Pradhan,Helmi Helmi,2016-09-01 Redefining Diversity and Dynamics of Natural Resources Management in Asia Volumes 1 4 brings together scientific research and policy issues across various topographical area in Asia to provide a comprehensive overview of the issues facing the region Sustainable Natural Resources Management in Dynamic Southeast Asia Volume 1 pulls together regional experts in the field to look specifically at sustainability issues across the region to see what has been implemented what the impacts have been and what other options are available In the race to be a developed region many Southeast Asian countries have foregone natural resources through haphazard use As a result the people are faced with numerous environmental challenges particularly deforestation and forest degradation biodiversity loss and ecosystem degradation reduction in soil quality and decreases in the quantity of available water Community based forest management is the involvement of local communities in the protection conservation and management of public forests to prevent degradation through sustainable practices while still responding to the basic social and economic needs of local populations When the people who depend on forest resources for their livelihoods are jointly responsible for managing and protecting them they tend to do so in a more sustainable manner by focusing on the long term benefits rather than the immediate short term gains However when tenure rights are weak unclear or insecure or offer limited benefits people are incited in extracting more immediate benefits resulting in suboptimal forest management and the reduction of carbon stocks Features case studies that cover issues such as rising levels of deforestation forest degradation regional food security ecosystem degradation biodiversity loss conflicts over natural resource use water management issues and impacts on local communities Includes contributions from local researchers who are dealing with these issues first hand and on a daily basis Includes a comparative review on REDD implementation in different communities Focuses on sustainability issues across the region Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 2 Ganesh Shivakoti,Mai Van Thanh,Tran Duc Vien,Stephen J Leisz,2016-09-01 Redefining Diversity and Dynamics of Natural Resources Management in Southeast Asia Volumes 1 4 brings together scientific research and policy issues across various topographical areas in Asia to provide a comprehensive overview of the issues facing the region Upland Natural Resources and Social Ecological Systems in Northern Vietnam Volume 2 provides chapters on natural resource management in northern Vietnam tied together by the concept that participatory local involvement is needed in all aspects of natural resource management The volume examines planning for

climate change managing forestland alleviating food shortages living with biodiversity and assessing the development projects and policies being implemented Without the involvement of local communities households and ultimately individual people the needed action will not be effectively taken Upland Natural Resources and Social Ecological Systems in Northern Vietnam Volume 2 goes beyond just Northern Vietnam to address the issue of transboundary natural resource management an issue that Vietnam is dealing with in its relations with northern neighbor China and western neighbor Laos as well as the transboundary water governance between Pakistan and India in south Asia with the hope that some of the lessons learned may one day be useful in the case of Vietnam and its neighbors Provides a multi disciplinary case study into a complex environmental situation involving government institutions planning and practices using northern Vietnam as the focus Covers the issues of natural resource management and biodiversity in depth using international case studies Provides examples of measuring the potential climate change impacts on food security in agricultural regions Examines topics such as planning for climate change managing forestland alleviating food shortages living with biodiversity and assessing development projects and policies
