and aspects Human Development and Faith (Second Edition) Felicity B. Kelcourse, 2015-07-28 This book now in its second edition brings together the best available understandings of human development from a multidisciplinary perspective. Uniquely inclusive of the moral and faith dimensions of context and life cycle development, *Human Development and Faith* examines the interplay of mind, body, family, community, and soul at every stage of development. It addresses two central questions: What are the good enough conditions of parenting, family, and community in each phase of life from birth to death which support growth and development? What gives life adequate meaning as development proceeds? If human development describes the normative and hoped-for passages of life, then faith provides the necessary component of meaning. Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live. The *Journal of Pastoral Theology* called the first edition of *Human Development and Faith* an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development. This second edition includes a new chapter on infancy, updates reflecting our growing awareness of cultural diversity, and a new preface.

The Grace of Playing Courtney T. Goto, 2016-02-10 Believers and teachers of faith regularly know the in-breaking of God's Spirit in their midst when revelatory, experiencing unexpectedly shifts habits of thinking, feeling, and doing toward more life-giving ways of being and becoming. When the moment is right, Spirit breathes new life into dry bones. Though religious educators have much practical wisdom about facilitating learning that is creative and transformative, sharper concepts, cases, and theory can help them do it more critically and assist learners to practice openness to wonder, surprise, and authenticity. *The Grace of Playing* explains how we can create the conditions for revelatory experiencing by understanding it in light of playing. The notion of playing as if can be powerfully reclaimed from ecclesial ambivalence, casual speech, and commercial interests that often lead playing to be associated with childishness, frivolity, or entertainment. This book theorizes adults playing for the sake of faith, drawing on D. W. Winnicott's psychoanalytic theory, a revision of Jurgen Moltmann's theology of play, biblical texts, medieval devotional practices, as well as art and aesthetics that help local faith communities engage in theological reflection. Communal forms of playing in God's new creation provide insights into pedagogies in which learners are creating and are created anew.
