The Swedenborg Concordance John Faulkner Potts, 1898 *Vergil's Empire* Eve Adler, 2004-09-01 In Vergil's Empire

Eve Adler offers an exciting new interpretation of the political thought of Vergil's Aeneid. Adler argues that in this epic poem Vergil presents the theoretical foundations of a new political order, one that resolves the conflict between scientific enlightenment and ancestral religion that permeated the ancient world. The work concentrates on Vergil's response to the physics, psychology, and political implications of Lucretius' Epicurean doctrine expressed in *De Rerum Natura*. Proceeding by a close analysis of the Aeneid, Adler examines Vergil's critique of Carthage as a model of universal enlightenment, his positive doctrine of Rome as a model of universal religion, and his criticism of the heroism of Achilles, Odysseus, and Epicurus in favor of the heroism of Aeneas. Beautifully written and clearly argued, Vergil's Empire will be of great value to all interested in the classical world.

Object Relations Theories and Psychopathology Frank Summers, 2014-03-18. In *Object Relations Theories and Psychopathology: A Comprehensive Text*, Frank Summers provides thorough, lucid, and critically informed accounts of the work of major object relations theorists: Fairbairn, Guntrip, Klein, Winnicott, Kernberg, and Kohut. His expositions achieve distinction on two counts. First, the work of each object relations theorist is presented as a comprehensive whole, with separate sections expounding the theorist's ideas and assumptions about metapsychology, development, psychopathology, and treatment, with a critical evaluation of the strengths and limitations of the theory in question. Second, the emphasis in each chapter is on issues of clinical understanding and technique. Making extensive use of case material provided by each of the theorists, he shows how each object relations theory yields specific clinical approaches to a variety of syndromes and how these approaches entail specific modifications in clinical technique. Beyond his detailed attention to the theoretical and technical differences among object relations theories, Summers' penultimate chapter discusses the similarities and differences of object relations and interpersonal theories. And his concluding chapter outlines a pragmatic object relations approach to development, psychopathology, and technique that combines elements of all object relations theories without opting for any single theory. *Object Relations Theories and Psychopathology* is that rare event in psychoanalytic publishing: a substantial, readable text that surveys a broad expanse of theoretical and clinical landscape with erudition, sympathy, and critical perspective. It will be essential reading for all analysts, psychologists, psychiatrists, and social workers who wish to familiarize themselves with object relations theories in general, sharpen their understanding of the work of specific object relations theorists, or enhance their ability to employ these theories in their clinical work.

The Black Poets Dudley Randall, 1985-04-01. The claim of *The Black Poets* to being an anthology is that it presents the full range of Black American poetry from the slave songs to the present day. It is important that folk poetry be included because it is the root and inspiration of later literary poetry. Not only does this book present the full range of Black poetry, but it presents most poets in depths, and in some cases presents aspects of a poet neglected or overlooked before. Gwendolyn Brooks is represented not only by poems on racial and domestic themes but is revealed as a writer of superb love lyrics. Turning away from White models and returning to their roots has freed Black poets to create a new poetry. This book records their progress from the

Researchers, practitioners and students in the fields of industrial and organisational psychology, positive psychology, organisational studies, future studies, health and occupational science and therapy, emotion sciences, management, leadership and human resources will find the contributions highly topical, insightful and applicable to practice. Fresh, timely thought provoking with each turn of the page, this impressive volume explores shame in today's world. Moving beyond the simple guilt is good, shame is bad perspective, authors from diverse disciplines examine adaptive and maladaptive aspects of shame in the context of contemporary issues, e.g. social media use, COVID-19, via multiple cultural and social lenses. Aptly named *Shame 4.0* is a treasure trove of rich ideas ripe for empirical study, a blueprint for the next generation of research on this complex and ubiquitous emotion. Bravo June Tangney PhD, University Professor and Professor of Psychology, George Mason University, USA. Uncovering Shame: To a much greater extent than other emotions like anger, grief and fear, until recently, most shame in modern societies has been hidden from sight. The text you see in this book is one of the steps that is being taken to make it more visible and therefore controllable. Thomas Scheff, Prof Emeritus, Department of Sociology, UCSB, Santa Barbara, Ca. *Honor Your Father and Mother* Pamela S. Ellis, 2008-10 **Learn to Breathe** Jim Mindling, 2013-11.
