## **Rejuvenation And The Prolongation Of Human Efficiency:**

*Rejuvenation and the Prolongation of Human Efficiency* Paul Kammerer, 1923      **The Publishers Weekly**, 1923

**Modernism and Eugenics** Donald J. Childs, 2001-09-06 In *Modernism and Eugenics* first published in 2001 Donald Childs shows how Virginia Woolf T S Eliot and W B Yeats believed in eugenics the science of race improvement and adapted this scientific discourse to the language and purposes of the modern imagination Childs traces the impact of the eugenics movement on such modernist works as *Mrs Dalloway* *A Room of One's Own* *The Waste Land* and Yeats's late poetry and early plays The language of eugenics moves he claims between public discourse and personal perspectives It informs Woolf's theorization of woman's imagination in Eliot's poetry it pictures as a nightmare the myriad contemporary eugenical threats to humankind's biological and cultural future And for Yeats it becomes integral to his engagement with the occult and his commitment to Irish Nationalism This is an interesting study of a controversial theme which reveals the centrality of eugenics in the life and work of several major modernist writers      *The Riddle of Gender* Deborah Rudacille, 2009-07-29 When Deborah Rudacille learned that a close friend had decided to transition from female to male she felt compelled to understand why Coming at the controversial subject of transsexualism from several angles historical sociological psychological medical Rudacille discovered that gender variance is anything but new that changing one's gender has been met with both acceptance and hostility through the years and that gender identity like sexual orientation appears to be inborn not learned though in some people the sex of the body does not match the sex of the brain Informed not only by meticulous research but also by the author's interviews with prominent members of the transgender community *The Riddle of Gender* is a sympathetic and wise look at a sexual revolution that calls into question many of our most deeply held assumptions about what it means to be a man a woman and a human being      *Wisconsin Library Bulletin*, 1923      *Brooklyn Public Library News Bulletin* Brooklyn Public Library, 1923      *Quarterly Bulletin* Brooklyn Public Library, 1924      *Index Medicus*, 1924      *Index Medicus. Third Series*, 1924      **Journal of Nervous and Mental Disease**, 1925 July 1918 1943 include reports of various neurological and psychiatric societies      **Books of 1921-1925** Chicago Public Library, 1927

*The Adelphi*, 1924      *Political Biology* M. Meloni, 2016-05-25 This book explores the socio political implications of human heredity from the second half of the nineteenth century to the present postgenomic moment It addresses three main phases in the politicization of heredity the peak of radical eugenics 1900 1945 characterized by an aggressive ethos of supporting the transformation of human society via biological knowledge the repositioning after 1945 of biological thinking into a liberal democratic human rights framework and the present postgenomic crisis in which the genome can no longer be understood as insulated from environmental signals In *Political Biology* Maurizio Meloni argues that thanks to the ascendancy of epigenetics we may be witnessing a return to soft heredity the idea that these signals can cause changes in biology that are themselves transferable to succeeding generations This book will be of great interest to scholars across science and

technology studies the philosophy and history of science and political and social theory Wondrous Transformations Alison Li, 2023-09-14 Harry Benjamin 1885-1986 a German born endocrinologist was a pivotal figure in the development of transgender medicine He was physician to transgender pioneers such as Christine Jorgensen the 1950s Ex GI turned Blonde Beauty media sensation and in turn she and other collaborators helped to shape Benjamin's influential 1966 book *The Transsexual Phenomenon* Alison Li's much needed biography of Benjamin chronicles his passion for hormones and his lifelong interest in sexology Drawing from extensive research in archival documents secondary sources and interviews Li tells the story of Benjamin's early ventures in gerontology and his later work with over a thousand transgender patients Benjamin's contributions to treatment education research and networking helped to create the institutional foundations of transgender medicine Moreover they set the stage for a radical reconsideration of gender identity challenging us to reflect upon what it is to be male or female and to envision moving beyond these long held categories **Long Island Medical Journal** Henry Goodwin Webster, Paul Monroe Pilcher, Frank Overton, Alec Nicol Thomson, 1924 *Nation's Health* John Augustus Lapp, Charles-Edward Amory Winslow, Frank Leslie Rector, 1925 *Catalog of Copyright Entries. Part 1. [C] Group 3. Dramatic Composition and Motion Pictures. New Series* Library of Congress. Copyright Office, 1929 *The Endocrine Survey*, 1925 Crossing Frontiers W. Andrew Achenbaum, 1995-08-25 This is the first book length study of the history of gerontology It shows how old age became a problem worth investigating and how a multidisciplinary orientation took shape

Impotence Angus McLaren, 2008-09-15 As anyone who has watched television in recent years can attest we live in the age of Viagra From Bob Dole to Mike Ditka to late night comedians our culture has been engaged in one long frank and very public talk about impotence and our newfound pharmaceutical solutions But as Angus McLaren shows us in *Impotence* the first cultural history of the subject the failure of men to rise to the occasion has been a recurrent topic since the dawn of human culture Drawing on a dazzling range of sources from across centuries McLaren demonstrates how male sexuality was constructed around the idea of potency from times past when it was essential for the purpose of siring children to today when successful sex is viewed as a component of a healthy emotional life Along the way *Impotence* enlightens and fascinates with tales of sexual failure and its remedies for example had Ditka lived in ancient Mesopotamia he might have recited spells while eating roots and plants rather than pills and explanations which over the years have included witchcraft shell shock masturbation feminism and the Oedipal complex McLaren also explores the surprising political and social effects of impotence from the revolutionary unrest fueled by Louis XVI's failure to consummate his marriage to the boost given the fledgling American republic by George Washington's failure to found a dynasty Each age McLaren shows turns impotence to its own purposes using it to help define what is normal and healthy for men their relationships and society From marriage manuals to metrosexuals from Renaissance Italy to Hollywood movies *Impotence* is a serious but highly entertaining examination of a problem that humanity has simultaneously regarded as life's greatest tragedy and its greatest joke
