Religion and Family in a Changing Society Penny Edgell,2013-12-03 The 1950s religious boom was organized around the male breadwinner lifestyle in the burgeoning postwar suburbs But since the 1950s family life has been fundamentally reconfigured in the United States How do religion and family fit together today This book examines how religious congregations in America have responded to changes in family structure and how families participate in local religious life Based on a study of congregations and community residents in upstate New York sociologist Penny Edgell argues that while some religious groups may be nostalgic for the Ozzie and Harriet days others are changing knowing that fewer and fewer families fit this traditional pattern In order to keep members with nontraditional family arrangements within the congregation these innovators have sought to emphasize individual freedom and personal spirituality and actively to welcome single adults and those from nontraditional families Edgell shows that mothers and fathers seek involvement in congregations for different reasons Men tend to think of congregations as social support structures and to get involved as a means of participating in the lives of their children Women by contrast are more often motivated by the quest for religious experience and can adapt more readily to pluralist ideas about family structure This Edgell concludes may explain the attraction of men to more conservative congregations and women to nontraditional religious groups

Latinos in a Changing Society Edwin Meléndez,Martha Montero-Sieburth,2007-02-28 Given the importance of Latino issues in the current social and economic times the publication of Latinos in a Changing Society is both timely and prescient in its contributions to the current discourse of how Latinos are being influenced by U S norms and culture and how Latinos are also affecting U S society This volume contributes to our need for comprehensive analysis of how Latin communities compare and contrast with other underserved groups It also

examines how changes are taking place within specific Latino groups particularly between first and second generation Cubans returning Puerto Ricans Dominican poverty and emergent Mexican leaders in the New England area The opportunities that Latinos and dominant mainstream interests share are identified in this volume but so are the many areas in need of change In this current atmosphere of anger and suspicion toward immigrants this volume presents an analytical perspective that is too often absent from politically motivated debates about Latinos and their role in a changing society Undocumented immigrants are often portrayed as people who come to this country to take advantage of a generous welfare system contributing little to the economic and social development of the country This volume critically examines issues such as the Latino commitment to labor participation the ways that Latino parents engage in schools and in their communities health access and social programs the policing concerns within the Latino community the academic adjustments made by Latino college students as well as the educational opportunities that exist for Latinos across the country Unlike publications that seek to summarize knowledge about the Latino population in the United States *Latinos in a Changing Society* provides a broader range of insights into the types of policy analysis research and public consciousness needed to advance the educational social cultural and political participation and incorporation of Latinos in the new century This volume critically examines such issues as the disparity in poverty among Latino groups the lack of access to health services the Latino commitment to labor participation the ways that Latino parents engage in schools and in their communities and the educational dropout rates of Latinos across the country and the underlying causes of those rates Unlike publications that seek to summarize knowledge about the Latino population in the United States *Latinos in a Changing Society* provides a broader range of insights into the types of policy analysis research and public consciousness needed to advance the educational social cultural and political participation and incorporation of Latinos in the new century

Women and Heroin Addiction in China's Changing Society Huan Gao, 2013-06-24 This groundbreaking book provides scholars and students in the areas of criminology criminal justice sociology substance abuse and women's studies with in depth analysis of 131 female heroin users drug use careers in China The book has important policy implications for both China and the international society in the context of increasing global concern about women's substance abuse

Ageing in Society John Bond, Sheila M Peace, Freya Dittmann-Kohli, Gerben Westerhof, 2007-02-22 *Ageing in Society* brings forth exciting new questions fresh perspectives and a necessary critical approach to key issues this is indeed an authoritative introduction The authors not only have made significant contributions to gerontology but offer the reader considerations for what could be not just what is the design of old age in society The book will inform students in ways that so many texts in the area satisfied with comfortable bromides do not Jaber Gubrium Editor of *Journal of Aging Studies* University of Missouri Columbia This completely revised Third Edition of *Ageing in Society* presents one of the most comprehensive pictures of ageing today Emphasising the dual processes of ageing societies and the experience of ageing the book offers the reader student or

researcher alike cogent discussions of the most up to date perspectives and evidence available The contributors are all leading experts in their fields comprising a range of important disciplines as they apply to ageing Ageing in Society is a cutting edge text on one of the most important subjects facing the modern world a must for all students of ageing Mike Bury Emeritus Professor of Sociology University of London The Third Edition of the comprehensive textbook Ageing in Society extends its scope to include continental Europe allowing broader as well as deeper insights into recent trends in gerontology Gerontologists and practitioners are urged not to stop reading before they have reached the insightful last chapter Ageing into the future Professor Dorly Deeg Editor in Chief European Journal of Ageing The Third Edition of this popular and widely used text provides a comprehensive introduction to the study of ageing exploring the key theories concepts and methods which the behavioural and social sciences contribute to the subject Thoroughly revised and updated Ageing in Society reflects new trends in gerontology incorporating recent developments in theory and research as well as major international and interdisciplinary perspectives A new chapter on cognitive ageing has been added and key themes such as social protection retirement health and illness and cultural images of old age are also critically examined Ageing in Society was developed by the British Society of Gerontology to fulfil the need for an authoritative introduction to social gerontology As such it is an ideal resource for students and lecturers in the social and behavioural sciences as well as for students and practitioners in health and social care

Narratives and Social Change Emiliana Mangone, 2022-04-01 This book is an important contribution to narrative research and highlights how narratives can produce social change The author demonstrates this through an analysis of concepts like future uncertainty and risk both in terms of individual impact and as collective forms of social life The book reconstructs the relationships between future uncertainty and risk through everyday how narratives exert power over individual and social life by influencing individual or collective decisions and choices Narratives also change future prospects thus producing social change Some of the examples the author draws out for discussion are in specific the narration of the migration flows in the Mediterranean Sea and the narration of the pandemic emergency from COVID 19 The result of different narratives has been the emergence of new ideologies and of a complex series of dynamics in which the local ends up becoming global and vice versa Highly topical and interdisciplinary in its approach this book is of interest to researchers and students of the sociology of culture and communication media and communication studies social and cultural psychology and cultural anthropology
