Religion Aging And Health A Global Perspective:

Religion, Aging, and Health ,1989 **Religion, Aging, and Health** William M. Clements,1989 This highly thought provoking book breaks new ground in understanding the complex relationships within major religions of the world in regard to faith well being and longevity Despite the fact that each major world religion has significant impact on aging and health this subject has never before been addressed from a global perspective Written by recognized international authorities and sponsored by the World Health Organization Religion Aging and Health reflects the organization s ideals of promoting and protecting the physical mental social and spiritual health of elderly persons throughout the world This volume will be of interest to all those concerned with the relationship of world religions human aging and health Experts in the fields of gerontology health and religion examine attitudes toward aging and describe how each religion Catholicism Islam Buddhism Judaism Confucianism Taoism and Protestantism interacts with aging longevity behavior and lifestyle For each of the religious traditions that is highlighted the authors use stories and parables sacred writings personal experience and reflection or various other methodologies to identify elements of tradition that function to protect the physical mental and social health of older persons and encourage the development of culturally relevant health policies for the aging population

Religion, Aging and Health William M. Clements,2020-09-24 This book first published in 1989 attempts to identify from within religious cultures those elements of tradition behaviour and lifestyle that are health protective in that by adhering to them physical mental and social wellbeing will be maintained as people grow old It examines how different faith traditions view aging and its impact on health **Religion, Aging and Health** William M. Clements,2019 *Religion, Aging and Health* William M. Clements,2019-03-19 This book first published in 1989 attempts to identify from within religious cultures those elements of tradition behaviour and lifestyle that are health protective in that by adhering to them physical mental and social wellbeing will be maintained as people grow old It examines how different faith traditions view aging and its impact on health

Religion in Aging and Health Jeffrey S. Levin,1993-10-20 How does religion influence one s aging and health Religion in Aging and Health brings together key scholars and scientists from several fields to advance epidemiologic and gerontological research into the role of religion in physical and mental health psychological well being and other psychosocial and health outcomes The first part of the volume contains four chapters that provide a theoretical context for this field and addresses such issues as hope forgiveness the psychodynamics of faith and belief and coping The second part seeks to advance the methodological sophistication of research in this area and emphasizes measurement and design issues and the study of religion aging and health among African Americans With contributions from such distinguished people as Harold G Koenig David B Larson Robert Joseph Taylor and Dan G Blazer Religion in Aging and Health is essential reading for all those interested in gerontology psychology sociology nursing and health and social work There is an extensive literature documenting the salutary effect of religion on human health and well being Yet this literature

is largely ignored in mainstream medicine and social science The essays in this book take stock of the empirical studies reflect on the reasons why they have had such little impact and provide direction for future reflection and research Journal of Nervous and Mental Disease Levin s book lives up to its subtitle It is a solid castigation of researchers who have long ignored the role of religion in late life mental health Anyone doing quantitative research on religion or health or aging can benefit from this book s suggestions Author and subject indexes finish off this well edited book Clinical Gerontologist This volume is supported by thorough sets of references and by perceptive suggestions for further study and research The time is right for a creative partnership between practical theology and social gerontology to further this debate Church of England Newspaper The book s stated purpose is to provide theoretical and methodological resources to support a growing body of research on the interactions among religion aging and health Overall the book makes a substantial contribution toward its goal In addition it makes a significant contribution by reviewing substantive knowledge in a number of areas related to the central topics The material is readable and jargon is kept to a minimum Robert C Atchley Director Scripps Gerontology Center Oxford Ohio These essays show that when it is conceptualized more carefully and measured with greater precision religiosity may be a surprisingly powerful predictor of health status and general life satisfaction especially among the aging George W Patterson in Religious Studies Review *Methods in Religion, Spirituality & Aging* James W. Ellor, 2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation Viktor Frankl's Contribution to Spirituality and Aging Melvin A. Kimble, 2014-02-04 Use Frankl s insights and techniques to improve life for your aging clients or parishioners Viktor Frankl a holocaust survivor who experienced firsthand the horrors of Auschwitz saw man as a being who continuously decides what he is a being who equally harbors the potential to descend to the level of an animal or to ascend to the life of a saint Man is that being who after all invented the gas chambers but at the same time he is that being who entered into those same gas chambers with his head held high and with the Our Father or the Jewish prayer of the dying on his lips Dr Frankl s insights led him to found the therapeutic system of logotherapy which views man as a spiritual being rather than simply as a biological construct Logotherapy has come to be called the Third Viennese School of Psychotherapy after Freud s

psychoanalysis and Adler's individual psychology. He left a rich legacy of theory and insights especially relevant to the search for meaning in later life. The tenets of logotherapy provide many clues and approaches to what an ever increasing body of evidence suggests regarding the crisis of aging as a crisis of meaning. Frankl's insightful work increased man's understanding of the spiritual dimension of humanity and the dignity and worth of every person in the face of what he called the tragic trial of human existence: pain, guilt, and death. Viktor Frankl's *Contribution to Spirituality and Aging* presents an essential overview of logotherapy and explores the search for and the will to meaning in later life, the connection between logotherapy and pastoral counseling, bringing psychology and theology together to effectively counsel the aging, the role of logotherapy in the treatment of adult major depression, aspects of meaning and personhood in dementia, the search for meaning in long term care settings. Viktor Frankl's *Contribution to Spirituality and Aging* represents varying professional perspectives on the application of Frankl's logotherapy for ministry with older adults. The chapter authors represent diverse professional backgrounds in medicine, pastoral theology, the behavioral sciences, and pastoral ministry. They address issues such as death and dying, dementia and depression, and the spiritual meaning of aging, as well as Frankl's conception of the nature of humanity. Everyone interested in the connection between theology and psychology in the context of the aging will want to own this book.

New Directions in the Study of Late Life Religiousness and Spirituality Susan H. McFadden, Mark Brennan, 2014-05-01. Examine the questions of how, what, and why associated with religiousness and spirituality in the lives of older adults. *New Directions in the Study of Late Life Religiousness and Spirituality* explores new ways of thinking about a topic that was once taboo but that has now attracted considerable attention from the gerontological community. It examines various approaches to methodology and definition that are used in the study of religion, spirituality, and aging. In addition, it explores the ways that gerontological research can highlight the role of religion and spirituality in the lives of older adults. The first section will introduce you to new ways of thinking about research methodology and data.

analysis that can be applied to studying the complexity of older adults religious spiritual practice and beliefs You ll learn several approaches to the study of phenomena that are both personal and also deeply embedded in community The second section addresses issues of definition exploring important questions that call for critical reflection such as What are we studying What social and psychological influences shape our thinking about definition and Do the definitions used by gerontologists match those held by older people The final section moves the study of religion spirituality and aging beyond a focus on health and mortality to examine well being more broadly in the context of the life experiences of older adults Here is a small sample of what you ll learn about in New Directions in the Study of Late Life Religiousness and Spirituality structural equation modeling a statistical method designed to capture the dynamics inherent in the passage of time feminist qualitative methods for studying spiritual resiliency in older women spirituality as a public health issue the differences between groups of older people in the way they define religion and spirituality the psychosocial implications of two types of religious orientation dwelling and seeking older women s responses to the experience of widowhood and to the question of whether their religious beliefs were affected by the experience how social context influences our decisions and our interpretations of people s religious beliefs behaviors and experiences the ways that people caring for a spouse with dementia rely on religious coping a model that delineates three different ways people relate to God in coping and a study that asks whether these types of coping produce different outcomes for caregivers how people adjust to bereavement as a function of their beliefs about an afterlife

Transforming Chaplaincy Steve Nolan, Annelieke Damen, 2021-10-28 Evidence based medicine has transformed contemporary medical practice For over twenty five years George Fitchett has been a pioneering advocate of the view that evidence based spiritual care can and should equally transform chaplaincy This book collects a key selection from his ground breaking research As models of good research practice these papers demonstrate the real world value of research and introduce their readers to issues that have continuing importance to spiritual care and professional chaplaincy As such this collection offers an ideal introduction to spiritual care research The collection is complemented by three essays specially commissioned from observers well positioned to comment on future directions for both professional chaplaincy and spiritual care research
