Brahier, Klaus Lindpaintner**

Religion And Artificial Reproduction:

Religion and Artificial Reproduction Thomas Anthony Shannon, Lisa Sowle Cahill, 1988 **Reproductive Technologies** Thomas Anthony Shannon, 2004 Over a decade ago the field of bioethics was established in response to the increased control over the design of living organisms afforded by both medical genetics and biotechnology As part of the Readings in Bioethics series this volume collects critical essays by leading scholars on reproductive technologies abortion in vitro fertilization prenatal diagnosis and cloning Visit our website for sample chapters **The Oxford Handbook of Religious Perspectives on Reproductive Ethics** Davis, 2023 As I write this introduction the third season of the Israeli series *Shtisel* has arrived on Netflix eagerly awaited by viewers around the world who would never have imagined how caught up they would get by this family drama of four generations of ultra Orthodox Jews living in Jerusalem One episode focuses on Ruchami and Hanina a young couple who have been married for five years but without children It turns out that pregnancy and childbirth would threaten Ruchami's life She is using an IUD but she keeps threatening to have it removed risking her life to become a mother Finally with great reluctance Hanina visits the rebbe the spiritual authority in their community to discuss the possibility of using a surrogate They are says the rebbe caught between two non ideal situations surrogacy normally forbidden is non ideal but so is Ruchami's unhappiness and the possibility that she might go ahead and take the risk which is also forbidden

Contemporary Issues in Bioethics James J. Walter, Thomas A. Shannon, 2005-12-08 Contemporary Issues in Bioethics A Catholic Perspective applies the best of the Roman Catholic theological and ethical tradition to some of the most controversial and complex bioethical topics that confront contemporary society Walter and Shannon offer a fresh analysis of the Catholic tradition and show how a distinctively Catholic perspective can inform public discussion of these issues In an age where religion is often excluded from ethical discussions on bioethical issues this book shows that the Catholic tradition has something very important to offer Book Jacket *Assisted Reproduction in Israel* Avishalom Westreich, 2018-03-20 The main argument in this BRP is that assisted reproduction in Israel gives expression to and develops the right to procreate It is a complex right and therefore at times no consensus has been reached on the form of its actual application as in the case of surrogacy and egg donation and from a different direction in that of posthumous sperm retrieval This right however despite the debates on its boundaries is widely accepted practiced and even encouraged in the Israeli context with a constructive collaboration of three main elements the Israeli civil legal system religious law which in the context of the Israeli majority is Jewish law and Israeli society and culture Kinship, law and religion Shirin Naef, 2017-05-15 This monograph examines the Iranian and Shia legal debates on technologies of assisted reproduction including embryo donation and surrogacy and looks at the regulations and implementation of these technologies in Iran In particular it addresses 1 an analysis of the moral reasoning embedded in the Shia theological legal discourse on reproductive technology and how this tradition interprets assisted reproduction with a particular focus on underlying concepts structure and principles of kinship 2 the emergence and

development of the relevant legislation regulations and administrative policies and how this might shape the relationship between civil and religious law in Iran and 3 the ways in which reproductive technology is used and understood with particular focus on underlying values local narratives and the resulting societal dynamics The methodological approach for this research is a combination of extensive ethnography and textual analysis of important academic and religious seminary publications in Iran from Shia jurisprudence fiqh and Persian histories to the analysis of laws and verdicts

Religious Science Fiction in Battlestar Galactica and Caprica Jutta Wimmmler,2015-09-02 Why did it seem strange when Battlestar Galactica ended its narrative on a religious note instead of providing a scientific explanation And what does this have to do with gender This book explores the connection between the triumph of religion and the dominance of femininity in Battlestar Galactica and its prequel series Caprica Both series breached science fiction's convention of representing the irrationality of femininity and religion Analyzing the connections and disconnections between women and men and theology and technology the author argues that the Battlestarverse depicts women as zones of contact between the seemingly contradictory spheres of science and religion by simultaneously employing and breaking gender stereotypes

The SAGE Encyclopedia of Children and Childhood Studies Daniel Thomas Cook,2020-04-20 The SAGE Encyclopedia of Children and Childhood Studies navigates our understanding of the historical political social and cultural dimensions of childhood Transdisciplinary and transnational in content and scope the Encyclopedia both reflects and enables the wide range of approaches fields and understandings that have been brought to bear on the ever transforming problem of the child over the last four decades This four volume encyclopedia covers a wide range of themes and topics including Social Constructions of Childhood Children's Rights Politics Representations Geographies Child specific Research Methods Histories of Childhood Transnational Childhoods Sociology Anthropology of Childhood Theories and Theorists Key Concepts This interdisciplinary encyclopedia will be of interest to students and researchers in Childhood Studies Sociology Anthropology Psychology Education Social Welfare Cultural Studies Gender Studies Disability Studies

Reconsidering Religion, Law, and Democracy Anna-Sara Lind,Mia Lövheim,Ulf Zackariasson,2016-01-05 How are Western mostly secular societies handling religion in its increasingly pluralistic and complex forms What different forms of interactions between and negotiations of religion and religious beliefs can we see in contemporary society What are the primary contenders in these interactions and negotiations The authors of Religion Law and Democracy give ample examples of a variety of interaction processes between different expressions of religion and different spheres of society such as the media the judicial systems and state administration and policy The authors primarily approach these questions from a North European but also to some extent a global perspective A common denominator is a dynamic perspective on the relation between religious organizations society and the individual actors in other words how all of these levels are interconnected and transformed in these processes

IVF and Assisted Reproduction Sarah Ferber,Nicola J. Marks,Vera Mackie,2020-12-17 This is the first transnational history of IVF and assisted reproduction

It is a key text for scholars and students in social science history science and technology studies STS cultural studies and gender and sexuality studies and a resource for journalists policymakers and anyone interested in assisted reproduction IVF was seen as revolutionary in 1978 when the first two IVF babies were born in the UK and India Assisted reproduction has now contributed to the birth of around ten million people The book traces the work of IVF teams as they developed new techniques and laid the foundations of a multi billion dollar industry It analyses the changing definitions and experience of infertility the markets for eggs and children through surrogacy cross border reproductive treatment and the impact of regulation Using interviews with leading IVF figures archives media reports and the latest science it is a vital addition to the field of reproduction studies This pathbreaking account of the global forces behind the rapid rise of the fertility industry is the first to offer such a truly comprehensive overview of this hugely important topic Sarah Franklin Chair of Sociology University of Cambridge In this compelling overview of one of the most significant technological and social interventions ever developed the cultural and scientific imaginaries of assisted reproduction meet the obdurate histories of laboratory experiments biological materials and personal quests It is an indispensable read for anyone interested in IVF and assisted reproduction Andrea Whittaker Professor of Anthropology Monash University

Theory of the Religious and Art Education in Contemporary Research Tomáš Jablonský, Dušan Kováč-Petrovský, 2014-03-26 L'uomo creato da Dio come unit tra materia e spirito per questo conoscenza e arte non possono prescindere da una dimensione di trascendenza Tuttavia in una società dai contorni sempre più tecnologici l'educazione abbandona pian piano i connotati di conoscenza e apprendimento di valori etici e estetici svilendo le capacità di analisi critica dei giovani Questo lavoro vuole presentare una serie di contributi sull'arte e la religione che possano colmare in parte tale lacuna dell'apprendimento al fine di orientare il lettore verso una nuova conoscenza

Assisted Reproduction Alexandra E. Sigillo, Monica K. Miller, 2019-11-08 Assisted reproductive technology ART allows people who are infertile the opportunity to conceive children and form much desired families Over the past few decades the number of ART procedures conducted in the United States has steadily increased in part affected by the growing number of women trying to conceive later in their reproductive lives This demographic shift in baby making has widened to include a variety of other people who experience social infertility from single persons to same sex couples Media exposure and political attention to the use of ART have aroused public concern and controversy In Assisted Reproduction Alexandra E. Sigillo and Monica K. Miller explore how media personal differences societal influences and psychological processes shape community sentiment toward ART and ART related laws and policies This book is recommended for students and scholars of psychology sociology gender and women's studies communication studies public health and legal studies

Religious Perspectives on Bioethics Mark Cherry, 2013-12-02 First published in 2004 Religious Perspectives in Bioethics surveys recent bioethics discussion in thirteen religious traditions Christian contributions include chapters on Roman Catholicism Orthodox Christianity the Episcopal German Protestant and Baptist traditions Reformed

Christianity and the Latter Day Saints The volume also includes chapters on Judaism Islam Hinduism Buddhism Sikhism and Daoism **Religion and Biopolitics** Mirjam Weiberg-Salzmann,Ulrich Willems,2019-05-31 Given the profound moral ethical controversies regarding the use of new biotechnologies in medical research and treatment such as embryonic research and cloning this book sheds new light on the role of religious organizations and actors in influencing the bio political debates and decision making processes Further it analyzes the ways in which religious traditions and actors formulate their bio ethical positions and which rationales they use to validate their positions The book offers a range of case studies on fourteen Western democracies highlighting the bio ethical and political debates over human stem cell research therapeutic and reproductive cloning and pre implantation genetic diagnosis The contributing authors illustrate the ways in which national political landscapes and actors from diverse and often fragmented moral communities with widely varying moral stances premises and commitments formulate their bio ethical positions and seek to influence political decisions

Ethics In Clinical Practice Judith Ahronheim,Jonathan Moreno,Connie Zuckerman,2005 Ethics in Clinical Practice Second Edition continues to focus on multidisciplinary medicine and how ethical dilemmas affect not only doctors and patients but also nurses social workers members of ethics committees hospital attorneys administrators and others Greater attention is given to care in a variety of settings and across settings Cases reflect the managed care phenomenon and cost containment demographic changes the electronic revolution and the ethical dilemmas resulting from this new climate The revised edition discusses advances in palliative medicine and its availability and includes new data regarding attitudes and prevalence of physician assisted suicide Attention is given to how issues of cost containment might directly or indirectly influence patients end of life treatment options Cases are updated to include pertinent information about medical advances and legal developments and how ethical analysis reflects these new developments Religious Crisis and Civic

Transformation Kimba Allie Tichenor,2016-05-26 A rich analysis of how issues related to gender and sexuality transformed the West German Catholic Church *Philosophical Ethics in Reproductive Medicine* David R. Bromham,Maureen E.

Dalton,Jennifer C. Jackson,1990 *Islam and Assisted Reproductive Technologies* Marcia C. Inhorn,Soraya

Tremayne,2012-07-20 How and to what extent have Islamic legal scholars and Middle Eastern lawmakers as well as Middle Eastern Muslim physicians and patients grappled with the complex bioethical legal and social issues that are raised in the process of attempting to conceive life in the face of infertility This path breaking volume explores the influence of Islamic attitudes on Assisted Reproductive Technologies ARTs and reveals the variations in both the Islamic jurisprudence and the cultural responses to ARTs *Assisted Reproductive Technology* Charles P. Kindregan,Maureen McBrien,2006 As more people turn to assisted reproduction the legal issues surrounding it have become increasingly complex Beyond representing patients or clinics numerous legal problems are arising from the technology s application Disputes in divorce are the most common but this technology impacts the law in other areas including personal injury insurance criminal law and estate

planning Drawing from multiple legal sources this book presents complex information in a direct balanced and fair manner It includes glossary sample forms and checklists and bibliography OCR Religious Ethics for AS and A2 Jill Oliphant,2014-06-27 Structured directly around the specification of the OCR this is the definitive textbook for students of Advanced Subsidiary or Advanced Level courses The updated third edition covers all the necessary topics for Religious Ethics in an enjoyable student friendly fashion Each chapter includes a list of key issues OCR specification checklist explanations of key terminology overviews of key scholars and theories self test review questions exam practice questions To maximise students chances of success the book contains a section dedicated to answering examination questions It comes complete with diagrams and tables lively illustrations a comprehensive glossary and full bibliography Additional resources are available via the companion website

Yeah, reviewing a ebook **Religion And Artificial Reproduction** could grow your close connections listings. This is just one of the solutions for you to be successful. As understood, carrying out does not suggest that you have extraordinary points.

Comprehending as well as concurrence even more than supplementary will find the money for each success. next-door to, the revelation as with ease as perception of this Religion And Artificial Reproduction can be taken as with ease as picked to act.
