political actors and policy makers have begun to struggle with questions on the role of the dominant religion and how religion influences constitutional commitments and development By focusing on Indonesia Malaysia and Sri Lanka Constitutions Religion and Politics in Asia demonstrates how constitution making and the operation of constitutional arrangements involving religion cannot be separated from the broader political dynamics of society Although constitutions establish legal and political structures of government institutions and provide tools for rights protection they do not operate in a vacuum divorced from the games of power and the political realities surrounding them Here Shah sets out how constitutions operate and evolve and demonstrates how constitutional provisions can produce unintended consequences over time A vital new source of scholarship for students and scholars of law and religion and comparative constitutional law and those interested in issues of constitutionalism and legal and political history in Asia

Tolerance, Secularization and Democratic Politics in South Asia Humeira Iqtidar, Tanika Sarkar, 2018-07-19 What is the relationship between secularization and tolerance Critically analyzing the empirical and theoretical foundations of a putatively linear relationship between the two this volume argues for moving past both romanticised readings of pre modern tolerance and the unthinking belief that secularization will inevitably lead to tolerance The essays collected in this volume include contributions from across South Asia that suggest that democratic politics have added a layer of complexity to questions of peaceful co existence Modern transformations in religious thought and practice have had contradictory implications for tolerance which offer rich insights into contemporary debates in the region This multi disciplinary volume which spans history sociology anthropology and political theory questions the uncritical acceptance of tolerance as the best framework for engaging with difference and probes the complications created by and through democratic politics

*Varieties of Secularism in Asia* Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have
