Religion And Politics In Turkey:

Religion and Politics in Turkey Barry Rubin, Ali Carkoglu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country One such confrontation is between the secularist and pro Islamist forces which has always been one of the centrepieces of modern Turkish politics The rise of pro Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep rooted schism has come to the forefront of Turkish politics The frontline of this secularist vs pro Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries This volume was previously published as a special issue of the journal Turkish Studies

Religion and Politics in Turkey Ali Çarkoğlu, 2006 This book analyses the impact of religion in Turkish politics from historical and contemporary perspectives

Religious Politics in Turkey Ceren Lord, 2018-11-08 Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation

The Rise of Political Islam in Turkey Angel Rabasa, F. Stephen Larabee, 2008 As a Muslim majority country that is also a secular democratic state a member of NATO a candidate for membership in the European Union a long standing U S ally and the host of Incirlik Air Base a key hub for logistical support missions in Afghanistan and Iraq Turkey is pivotal to U S and Western security interests in a critical area of the world It also provides an example of the coexistence of Islam with secular democracy globalization and modernity However having a ruling party with Islamic roots the Justice and Development Party AKP within a framework of strict secularism has generated controversy over the boundaries between secularity and religion in the public sphere leading to parliamentary elections along with a new mandate for the party in July 2007 This monograph describes the politico religious landscape in Turkey and the relationship between the state and religion and it evaluates how the balance between secular and religious forces and between the Kemalist elites and new emerging social groups has changed over the past decade The study also

assesses the new challenges and opportunities for U S policy in the changed Turkish political environment and identifies specific actions the United States may take to advance the U S interest in a stable democratic and friendly Turkey and more broadly in the worldwide dissemination of liberal and pluralistic interpretations of Islam **Modernisation, Religion and Politics in Turkey** Emin Yaşar Demirci, 2008 History of the Naqshbandi community of skenderpa sa Camii mosque in the Fatih district in Istanbul *Religion, Politics, and Turkey's EU Accession* D. Jung, 2008-09-29 This book brings together historians political scientists social anthropologists and legal scholars from Turkey and the EU The authors address questions such as the role of religion in EU membership debates religious parties in Turkey and Europe religion and European security freedom of religion and minority rights in Turkey and the EU **Religious Politics in Turkey** Ceren Lord, 2018-11-08 Presents an account of the rise of Erdogan s AKP showing how the politicisation of religion has roots in the period of early nation building in Turkey **Politics and Gender Identity in Turkey** Umut Korkut, Hande Eslen-Ziya, 2017-10-17 The creation of Turkish nationhood citizenship economic transformation the forceful removal of minorities and national homogenisation gender rights the position of armed forces in politics and the political and economic integration of Kurdish minority in Turkish polity have all received major interest in academic and policy debates The relationship between politics and religion in Turkey originating from the early years of the Republicanism has been central to many if not all of these issues This book looks at how centralized religion has turned into a means of controlling and organizing the Turkish polity under the AKP Justice and Development Party governments by presenting the results from a study on Turkish hutbes mosque sermons analysing how their content relates to gender roles and identities The book argues that the political domination of a secular state as an agency over religion has not suppressed but transformed religion into a political tool for the same agency to organise the polity and the society along its own ideological tenets It looks at how this domination organises gender roles and identities to engender human capital to serve for a neoliberal economic developmentalism The book then discusses the limits of this domination reflecting on how its subjects position themselves between the politico religious authority and their secular lives Written in an accessible format this book provides a fresh perspective on the relationship between religion and politics in the Middle East More broadly it also sheds light on global moral politics and illiberalism and why it relates to gender religion and economics *Islam in Modern Turkey* Richard Tapper, 1994 A systematic account of the life works and accomplishments of al Kirmani an important Ismaili Muslim scholar and writer in the fields of philosophy and science who lived during the first half of the 11th century AD **Secular and Islamic Politics in Turkey** Ümit Cizre, 2008-03-25 Concerned with the development of Islamic politics inside Turkey in particular the rise of the Justice and Development Party that now rules the country this book examines the changes that have taken place within the party itself the role of the secular state and wider international issues including accession to the EU **Rethinking Modernity and National Identity in Turkey** Sibel Bozdoğan, Reşat Kasaba, 1997 In the first two decades after World War II social scientists heralded Turkey as an

exemplar of a modernizing nation in the Western mold The essays in this book are the first attempt to examine the Turkish experiment with modernity from a broad interdisciplinary perspective encompassing the fields of history the social sciences the humanities architecture and urban planning Beyond Sacred and Secular Sultan Tepe,2008-07-25 The global rise of political religion is one of the defining and most puzzling characteristics of current world politics Since the early 1990s religious parties have achieved stunning electoral victories around the world Beyond Sacred and Secular investigates religious politics and its implications for contemporary democracy through a comparison of political parties in Israel and Turkey While the politics of Judaism and Islam are typically seen as outgrowths of oppositionally different beliefs Sultan Tepe's comparative inquiry shows how limiting this understanding of religious politics can be Her cross country and cross religion analysis develops a unique approach to identify religious parties idiosyncratic and shared characteristics without reducing them to simple categories of religious secular Judeo Christian Islamic or democratic antidemocratic Tepe shows that religious parties in both Israel and Turkey attract broad coalitions of supporters and skillfully inhabit religious and secular worlds simultaneously They imbue existing traditional ideas with new political messages blur conventional political lines and allegiances offer strategic political choices and exhibit remarkably similar political views This book's findings will be especially relevant to those who want to pass beyond rudimentary typologies to better assess religious parties' capacities to undermine and contribute to liberal democracy The Israeli and Turkish cases open a window to better understand the complexities of religious parties Ultimately this book demonstrates that the characteristics of religious political parties whether Jewish Muslim or yet another religion can be as striking in their similarities as in their differences *Democracy, Islam, & Secularism in Turkey* Ahmet Kuru, Alfred Stepan,2012-02-14 While Turkey has grown as a world power promoting the image of a progressive and stable nation several policy choices have strained its relationship with the East and the West Providing social historical and religious context for Turkey's singular behavior the essays in *Democracy Islam and Secularism in Turkey* examine issues relevant to Turkish debates and global concerns from the state's position on religion and diversity to its involvement in the European Union Written by experts in a range of disciplines the chapters explore the Ottoman toleration of diversity during its classical period the erosion of ethno religious diversity in modern pre democratic times Kemalism and its role in modernization and nation building the changing political strategies of the military and the effect of possible EU membership on domestic reforms They also conduct a cross Continental comparison of multiple secularisms as well as political parties considering the Justice and Development Party in Turkey in relation to Christian Democratic parties in Europe The contributors tackle central research questions such as what is the legacy of the Ottoman Empire's ethno religious plurality and how can Turkey's assertive secularism be softened to allow greater space for religious actors They address the military's guardian role in Turkey's secularism the implications of recent constitutional amendments for democratization and the consequences and benefits of Islamic activism's presence within a democratic system No other

collection confronts Turkey's contemporary evolution so vividly and thoroughly or offers such expert analysis of its crucial social and political systems *Rethinking Islam and Liberal Democracy* Yeşim Arat, 2012-02-01 In Turkey no secular party has approximated the high levels of membership and intense activism of women within the Islamist Refah Welfare Party. *Rethinking Islam and Liberal Democracy* examines the experiences of these women who represented an unprecedented phenomenon within Turkish politics. Using in-depth interviews Yeşim Arat reveals how the women of the party broadened the parameters of democratic participation and challenged preconceived notions of what Islam can entail in a secular democratic polity. The women of the party successfully mobilized large groups of allegedly apolitical women by crossing the boundaries between the social and the political, reaching them through personal networks cultivated in private spaces. The experiences of these women show the contentious relationship between liberal democracy and Islam, where liberalism that prioritizes the individual can transform, coexist or remain in tension with Islam that prioritizes a communal identity legitimized by a sacred God **Islam and Political Development in Turkey** Toprak, 2022-04-19 **Alien Citizens** Ramazan Kılınç, 2019-10-10 How does international context influence state policies toward religious minorities? Using parliamentary proceedings, court decisions, newspaper archives and interviews, this book is the first systematic study that employs international context in the study of state policies toward religion and that compares Turkey and France with regard to religious minorities. Comparing Christians in Turkey and Muslims in France, this book argues that policy change toward minorities becomes possible when strong domestic actors find a suitable international context that can help them execute their policy agendas. The Turkish Islamists used the European Union to transform the Turkish politics that brought a reformist moment for Christians in the 2000s. The Far Right in France utilized the rise of Islamophobia in Europe to adopt restrictive policies toward Muslims. Ramazan Kılınç argues that the presence of an international context that can favor particular groups over others shifts the domestic balance of power and makes some policies more likely to be implemented than others *Muslim Civil Society and the Politics of Religious Freedom in Turkey* Jeremy F. Walton, 2017 In contemporary Turkey a plethora of Muslim NGOs spanning the sectarian divide between Sunni and Alevi Muslims has called into question statist sovereignty over Islam. *Muslim Civil Society and the Politics of Religious Freedom in Turkey* is an ethnographic study of these institutions and their distinctive nongovernmental politics of religious freedom **Religion, Identity and Politics** Haldun Gülalp, Günter Seufert, 2013-06-26 German-Turkish relations, which have a long history and generally unrecognized depth, have rarely been examined as mutually formative processes. Isolated instances of influence have been examined in detail, but the historical and still ongoing processes of mutual interaction have rarely been seriously considered. The ruling assumption has been that Germany may have an impact on Turkey but not the other way around. *Religion, Identity and Politics* examines this mutual interaction specifically with regard to religious identities and institutions. It opposes the commonly held assumption that Europe is the abode of secularism and enlightenment while the lands of Islam are the realm of backwardness and

fundamentalism Both historically and contemporarily Germany has treated religion as a core aspect of communal and civilizational identity and framed its institutions accordingly the book explores how there has been and continues to be a mutual exchange in this regard between Germany and both the Ottoman Empire and modern Turkey The authors show that the definition of identity and regulation of communities have been explicitly based on religion until the early and since the late twentieth century the period in between the age of secular nationalism which has always been treated as the norm now appears more clearly as an exception This book will be of interest to students and scholars of sociology politics history and religion *Secularism and Muslim Democracy in Turkey* M. Hakan Yavuz,2009-02-19 In 2002 the Islamist Justice and Development Party AKP swept to power in Turkey Since then it has shied away from a hard line ideological stance in favour of a more conservative and democratic approach In this book M Hakan Yavuz negotiates this ambivalence asking whether it is possible for a political party with a deeply religious ideology to liberalise and entertain democracy or whether as he contends radical religious groups moderate their practices and ideologies when forced to negotiate a competitive and rule based political system The author explores the thesis through an analysis of the rise and evolution of the AKP and its more recent 2007 election victory The book which tackles a number of important issues including political participation economics and internal security provides a masterful survey of modern Turkish and Islamic politics which will be of interest to a broad range of readers from students to professionals and policymakers **Religion, Politics and International Relations** Jeff Haynes,2011-04-07 Bringing together in one collection his most influential essays spanning two decades of research Jeffrey Haynes seeks to explore the complex relationship between religion politics and international relations
