School Of Horsemanship:

School of Horsemanship François Robichon de La Guérinière, 1994 First published in 1733 as *Ecole de Cavalerie* this book is considered as the beginning of modern equitation Here for the first time is the complete work *Souvenir Beery School of Horsemanship*, 1913 *Ecole de Cavalerie Part Two* François Robichon de La Guérinière, 1992-01-01 *Ecole de Cavalerie* by François Robichon de la Guérinière one of the bibles of classical dressage most famous for its introduction of the shoulder in According to Col Alois Podhajsky this is the most revolutionary book on riding of all times Its principles are still applied unaltered at the Spanish Court Riding School and may be seen there in daily use by François Robichon de la Guérinière William Steinkraus writes The first of the great 18th century masterpieces François Robichon de la Guérinière's *Ecole de Cavalerie* boasts not only a marvelous and ground breaking text a cornerstone of modern dressage but also superb engraved plates by Charles Parrocel La Guérinière's work is still considered the equestrian Bible of the Spanish Riding School of Vienna and though it has only recently been translated word for word into English it stands as an enduring landmark of equestrian literature *Ecole de Cavalerie Part II Expanded Edition* François Robichon De La Guérinière, 2015-06-22 François Robichon de la Guérinière 1688 1751 was born in Essay a small town near Alençon where his father was a lawyer he was also an officer at the court of the Duchess of Orleans La Guérinière was a pupil of Antoine de Vendeuil who was *cuyer ordinaire de la grande écurie* in Versailles between 1680 and 1717 In 1715 de la Guérinière received the title as *cuyer du Roi* which entitled him to give lessons In 1730 Prince Charles of Lorraine Grand *cuyer de France* Master of the Horse named him director of the Royal Stables at the Tuileries which had been founded by Antoine de Pluvinel Louis XIII's teacher De Pluvinel is best known for his work *The Maneige Royal* 1626 Xenophon Press 2010 La Guérinière's book *cole de Cavalerie* was first published in 1731 and again under different titles between 1733 and 1802 It consists of three parts Knowledge of the Horse In and Out of the Stable Training and Treatment of Illness This expanded volume contains all Chapters I XXII of the Second Part of *cole de Cavalerie* entitled *De La Manière de Dresser Les Chevaux Suivant Les Diferens Usages Auxquels On Les Destine* The Method of Training Horses According to the Different Ways in Which They Will Be Used Chapters XIX through XXII are new to this edition and contain valuable information pertinent to today's riders and trainers In discussing subjects as the training of the war horse the hunt horse the coach horse and other matters such as tournaments jousting carousels etc the author reveals important training advice that will be invaluable to riders of many disciplines The illustrations used are reproduced from the 1733 edition Further expanding this edition is an Appendix including a new translation of Chapter VI from Part I On the bridle Part II the training portion of the three volume book heavily references the bridle and the use of the rider's hands As editor I felt it was important to include these detailed descriptions and recommendations of the time as most are completely applicable to today's rides especially with the interest in historic bits bridles and equipment *cole de Cavalerie* is one of the best works on equitation ever to appear in France In fact it would not

be an exaggeration to say that after a long struggle beginning in the renaissance academies of Italy equitation in France suddenly flowed forth from La Gu rini re To quote the late Head of the Spanish Court Riding School in Vienna Colonel Alois Podhajsky It was the great riding master La Gu rini re who produced the most revolutionary book on riding of all time Unlike those by his predecessors his book is clear and easy to understand He based it on simplicity and facts in order to be completely understood by his readers His principles are still applied unaltered at the Spanish Court Riding School and may be seen there in daily use It is for these reasons that La Gu rini re is considered the Father of French Equitation and the Father of Modern Dressage and it is impossible to read a book about dressage without finding his name mentioned credit given to him and an occasional quote from his work Thus the serious horse person who takes the time to read La Gu rini re s work cannot help but enrich his her own knowledge by discovering the depth and quality of information that forms the base of much of our equestrian theory
