Schools Of To Morrow:

Schools of To-morrow John Dewey, Evelyn Dewey, 1915 There has been no attempt in this book to develop a complete theory of education nor yet review any systems or discuss the views of prominent educators This is not a text book of education nor yet an exposition of a new method of school teaching aimed to show the weary teacher or the discontented parent how education should be carried on We have tried to show what actually happens when schools start out to put into practice each in its own way some of the theories that have been pointed to as the soundest and best ever since Plato to be then laid politely away as precious portions of our intellectual heritage Preface **Schools of To-morrow** John

Dewey, 2016-05-14 This carefully crafted ebook *Schools Of To morrow* and yet what is learned in school makes artificial distinctions in society and marks persons off from one another Consequently we exaggerate school learning compared with what is gained in the ordinary course of living *Schools Of To morrow* *Schools of To-Morrow* John Dewey, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1915 edition Excerpt CHAPTER IV THE REORGANIZATION OF THE CURRICULUM Rousseau while he was writing his *Emile* was allowing his own children to grow up entirely neglected by their parents abandoned in a foundling asylum It is not strange then that his readers and students should center their interest in his theories in his general contribution to education rather than in his account of the

impractical methods he used to create that exemplary prig Emile If Rousseau himself had ever tried to educate any real children he would have found it necessary to crystallize his ideas into some more or less fixed program In his anxiety to reach the ideal described in his theories the emphasis of his interest would have unconsciously shifted to the methods by which he could achieve his ideal in the individual child The child should spend his time on things that are suited to his age The teacher immediately asks what these things are The child should have an opportunity to develop naturally mentally spiritually and physically How is the teacher to offer this opportunity and what does it consist in Only in the very simplest environment where one teacher is working out her own theories is it possible to get along without a rather definite embodiment of the ideal in specific materials and methods Therefore in reviewing some of the modern attempts at educational reform we quite naturally find that emphasis has been put upon the curriculum Pestalozzi and Froebel were the two educators most zealous in reducing inspiration got from Rousseau into the details of schoolroom work They took the vague idea of natural development and translated it into formulae which teachers could use from day to day Both were theorists Froebel by temperament Pestalozzi by *Schools of To-morrow* John Dewey,2002 *Schools of To-morrow* Evelyn Dewey Dewey,2023-08-05 *Schools of to morrow* a classical book has been considered important throughout the human history and so that this work is never forgotten we at Alpha Editions have made efforts in its preservation by republishing this book in a modern format for present and future generations This whole book has been reformatted retyped and designed These books are not made of scanned copies of their original work and hence the text is clear and readable **Schools of To-morrow** Josephine Ransom,1919 **The Schools of To-morrow [address Delivered Before the National Education Association, Philadelphia, July 1, 1926], by Jno.
