Science, Scripture, and Homosexuality Alice Ogden Bellis, Terry L. Hufford, 2011-01-01 The collaborative work of a biblical scholar and a biology professor Science Scripture and Homosexuality addresses scripture passages relating to homosexuality and explains the foundation of genetics and the growing evidence suggesting an organic basis for sexual orientation The authors argue that the role of the homosexual as well as the heterosexual within the Church should be based upon common criteria for all Written in a highly accessible manner the book is ideal for congregational discussion

*Science in Modern Poetry* John Holmes, 2012-01-01 Over the last thirty years more and more critics and scholars have come to recognize the significant influence of science on literature This collection of essays focuses specifically on what poets in the twentieth and twenty first centuries have made of modern scientific developments In these twelve essays leading experts on modern poetry literature and science explore how poets have used scientific language in their poems how poetry can offer new perspectives on science and how the two cultures can and have come together in the work of poets from Britain Ireland America and Australia *Science Versus Practice* Robert Bud, Gerrylynn K. Roberts, 1984 *Science,*

*Scripture, and Same-Sex Love* Michael B. Regele, 2014-10-31 Some church leaders assert that same sex practices are incompatible with Christian teaching The issues threaten to divide our churches and our nation Michael B Regele explores current scientific findings in biological brain research psychology and sociology which he compares with scriptural teaching from the Bible to show that a faithful reading of the Scriptures is consistent with Christian teaching that affirms same sex love leading to same sex marriage and full participation of LGBT people in church leadership Regele offers compelling research and well supported answers to common place questions such as Is sexual orientation a choice that individuals make Is same sex attraction sinful in itself Is it true that lesbian gay bi sexual and transgender LGBT people are more promiscuous than heterosexual people Is it true that same sex relationships do not last as long as hetero sex relationships Is abstinence for life the only choice for a Christian LGBT person Or can they enter into intimate and sexual relationships and still be active participants in a Christian community Is same gender marriage acceptable from a Christian standpoint Resistance to

Science in Contemporary American Poetry Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist

theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science

*Science Poetry for Dummies* Aritra Jana, 2021-12-23 I had the good fortune of reading many poems especially physics part of this book The poems are well written where the author expresses many complex physical phenomena in a simple way through his poems I am amazed to see that a thirteen year boy is expressing a wide variety of topics of the life and the world through his poems Dr Kartik Ghosh Distinguished Professor Physics and Materials Science Missouri State University A young prodigy who for the first time brings science and poetry under one roof which seems to us to be perpetually at odds Prof Debasish Roy Hostos College of The City University of New York This book consists of 186 poems that cover the most in depth topics of science they are connected to each other for they are on their same endeavor of simplifying concepts so that common people can comprehend while retaining the sophisticated roots of the concepts They consist of new and old discoveries that still remain relevant today yet are not touched upon Through the connections of the numerous topics they create a bigger picture As the bigger picture is created they finish the organization wherein no lines are blurred As the lines are erased science ends up transforming into a vast ocean which cannot be vanquished The book will bolster the curiosity of many as it places importance on concepts that unite the field of science Through this all of the concepts flawlessly transition from one to another

**The Science/Scripture Connection** R.W. Noble, 2010-05 Dr Noble has practiced medicine for 45 years He has been relentless in searching for expanded answers to health and healing starting over 60 years ago and has continued in this pursuit since retiring 3 years ago He will soon be 84 years of age His focus has been on natural methods without abandoning his basic medical knowledge but has maintained an open mind to more integrative therapies In 1960 he graduated from Southwestern Medical School and practiced medicine till retirement All through those years he researched nutrition acupuncture antiaging medicine allergy chiropractic and now Mind Body Medicine He also studied in France Holland and Vienna It is his current opinion that a new science has uncovered a previously hidden major cause of illness for which Biblical scripture can provide for both healing and prevention and frequently be combined with modern medicine for greatly improved results He realizes that most disciplines of modern medicine are necessary to establish the best preventive approach by embracing those already mentioned but that Mind Body Medicine must always be included Ideal health requires both scientific and scriptural application He noticed a pattern a template a paradigm between science and scripture A parallel between the response of the immune system as it monitors and controls the separate effects whether from positive or negative emotions compared to the positive or negative outcomes

when scriptural directives are either followed or denied This new science is Psychoneuroimmunology Dr Noble would like to provide you with knowledge gained through research and many years of experience so you can enjoy better personal health while building God's Healthy Temple He is a graduate of the University of Texas Southwestern Medical School at Dallas He has been certified in Family Practice A Diplomate in the American Board of Family Practice A Diplomate in the American Board of Antiaging Medicine A Fellow in the American Academy of Family Physicians

**Exact Science versus Archaic Philosophy** Helena Petrovna Blavatsky, 2018-05-28 Sound and Light hearing and sight are always associated But sound is seen before it is heard It is useless to demand or expect from the learned men of our age that which they are absolutely incapable of doing for us until the next cycle changes and transforms entirely their inner nature by improving the texture of their spiritual minds Unless there is an opening however small for the passage of a ray from a man's higher self to chase the darkness of purely material conceptions from the seat of his intellect his task can never be wrought to a successful termination For the sun needs an eye to manifest its light And this we think is the case with the materialist he can judge psychic phenomena only by their external aspect and no modification is or ever can be created in him so as to open his insight to their spiritual aspect

A Worldview Approach to Science and Scripture Carol Hill, 2019-11-19 Geologist Carol Hill examines how numerous apparent conflicts between Scripture and science can be resolved by understanding the ancient worldview of the scriptural authors and how it differs from our modern scientific worldview This framework opens the door to clearing up longstanding

questions such as Are the Genesis patriarchs ages real numbers Are the days of creation actual 24 hour days Where was the Garden of Eden located Was Noah s flood global or local Were Adam and Eve real people Is evolution a belief or a fact With photographs and diagrams throughout Hill explores the meaning of the relevant biblical passages the scientific data and how the worldview approach addresses seeming contradictions Anyone who has wrestled with these questions will find A Worldview Approach to Science and Scripture to be an invaluable resource for understanding the interplay between faith and the world Carol Hill takes both Scripture and science seriously affirming the inspiration of the Bible and the evidence for biological evolution Deborah Haarsma President of BioLogos This is one of the best one volume works on the creation evolution dialogue in print Kenneth Keathley Southeastern Baptist Theological Seminary Carol Hill s worldview approach brings the reader face to face with archeological biblical and scientific data that enable one to gain a new appreciation for what the Bible is trying to teach This approach is a very helpful tool James K Hoffmeier Trinity Evangelical Divinity School

*Science or Science Fiction?* Darl Rosenquest,2022-11-03 Follow the science is a phrase we often hear these days All too often it means listen to anything coming from the scientific community that supports my position but ignore anything which does not During my lifetime I have seen a number of changes in many things that were once known to be true For instance when I was in grade school it was a commonly believed fact that lemmings committed suicide periodically by jumping off a cliff into the ocean Likewise everybody knew that ostriches when confronted with danger stuck their heads in the sand to hide More recently it was believed that the best way to deal with runoff from storms in urban areas was to get the water offsite as quickly as possible collect it in large detention basins and then release it slowly into receiving stream channels The best way to deal with air pollutants it was thought was to send it high into the sky to disperse over a large area Science has since proved that all of these concepts are not true In this book I look at some commonly accepted ideas about the origins of the universe and mankind as well as the account of the great flood of Noah I have attempted to point out where the line between science and science fiction has been blurred both by the scientific community and the Christian community If we can learn to distinguish between fact and fiction perhaps we can come closer to mutual acceptance

**Revelation of Science in Scripture. By Investigator Pseud** Jacob Barker,1875 **Secrets to Success for Science Teachers** Ellen Kottler,Victoria Brookhart Costa,2015-10-27 This easy to read guide provides new and seasoned teachers with practical ideas strategies and insights to help address essential topics in effective science teaching including emphasizing inquiry building literacy implementing technology using a wide variety of science resources and maintaining student safety **Oracles of Science** Karl Giberson,Mariano Artigas,2009-02-27 Oracles of Science examines the popular writings of the six scientists who have been the most influential in shaping our perception of science how it works and how it relates to other fields of human endeavor especially religion Biologists Stephen Jay Gould Richard Dawkins and Edward O Wilson and physicists Carl Sagan Stephen Hawking and Steven Weinberg have become public intellectuals articulating a much larger vision for science

and what role it should play in the modern worldview The scientific prestige and literary eloquence of each of these great thinkers combine to transform them into what can only be called oracles of science Their controversial often personal sometimes idiosyncratic opinions become widely known and perceived by many to be authoritative Curiously the leading oracles of science are predominantly secular in ways that don't reflect the distribution of religious beliefs within the scientific community Many of them are even hostile to religion creating a false impression that science as a whole is incompatible with religion Karl Giberson and Mariano Artigas offer an informed analysis of the views of these six scientists carefully distinguishing science from philosophy and religion in the writings of the oracles This book will be welcomed by many who are disturbed by the tone of the public discourse on the relationship between science and religion and will challenge others to reexamine their own preconceptions about this crucial topic
