Young Children Amy Shillady, 2013 Children's early SCIENCE experiences at school and at home are the foundation for future science learning and comprehension throughout the school years and life. This collection of articles from NAEYC's journal *Young Children* showcases exciting ways to support children's science explorations from infancy through age 8. The authors offer ideas for science-rich environments and hands-on activities that promote young learners' investigations and discovery. The articles describe teaching approaches and child-initiated projects that introduce children to scientific and engineering practices and concepts in the physical life and earth and space sciences and in engineering and technology. The book includes a professional development guide with questions and activities to help readers reflect on current science teaching practices and incorporate new ones. This book is part of NAEYC's best-selling Spotlight series, great resources for the college classroom and for professional development. **Math and Science for Young Children** Rosalind

Charlesworth, Karen Lind, 2010-01-01 MATH AND SCIENCE FOR YOUNG CHILDREN 6th Edition is a unique reference that focuses on the integration of math and science along with the other important areas of child development during the crucial birth through eight age range.
