Science, Yoga and Theosophy, 1977 Sankhya-Yoga & Karma-Yoga, Or The Philosophy & Science of Religion Swami Ātmānanda, 1909 *The Kansas City Public Library Quarterly* Kansas City Public Library (Kansas City, Mo.), 1901 *The Public Library Quarterly*, 1902 **Life** Eunice Layton, 1988-10-25 Formerly published as *Theosophy Key to Understanding* this book is based on the many lectures presented by this husband and wife team addressing such questions as Is there some meaning to existence Is there life after death Will we live again How can we find inner peace The Laytons bring a common sense approach to the metaphysical concepts of Theosophy and relate them to the problems of people in their everyday lives

The Theosophist, 1899 *On the Edge of the Future* Jeffrey John Kripal, Glenn W. Shuck, 2005 An inside look at the history and influence of New Age s spiritual home **Finding God through Yoga** David J. Neumann, 2019-02-07 Paramahansa Yogananda 1893 1952 a Hindu missionary to the United States wrote one of the world s most highly acclaimed spiritual classics *Autobiography of a Yogi* which was first published in 1946 and continues to be one of the best selling spiritual philosophy titles of all time In this critical biography David Neumann tells the story of Yogananda s fascinating life while interpreting his position in religious history transnational modernity and American culture Beginning with Yogananda s spiritual investigations in his native India Neumann tells how this early global guru emigrated to the United States in 1920 and established his headquarters the Self Realization Fellowship in Los Angeles where it continues today Preaching his message of Hindu yogic philosophy in a land that routinely sent its own evangelists to India Yogananda was fueled by a religious nationalism that led him to conclude that Hinduism could uniquely fill a spiritual void in America and Europe At the same time he embraced a growing belief that Hinduism s success outside South Asia hinged on a sincere understanding of Christian belief and practice By universalizing Hinduism Neumann argues Yogananda helped create the novel vocation of Hindu yogi evangelist generating fresh connections between religion and commercial culture in a deepening American religious pluralism Contemporary Yoga and Sacred Texts Susanne Scholz, Caroline Vander Stichele, 2024-09-10 This book explores the textual traditions that authorize the history legitimacy and authenticity of today s physical posture practice The volume focuses on why and how yoga communities have adopted various texts that they consider sacred or spiritually meaningful Among the texts discussed are Yogananda s *Autobiography* Sri Aurobindo s *Savitri* Patanjali s *Yoga Sutra* the *Bhagavad Gita* the *Hatha Yoga Pradipika* the *Upanishads* the *Vedas* and the *Yogin Tantra* Famous thinkers included are Aurobindo Yogananda Osho Rajneesh Sogyal Rimpoche Charles Johnston and Howard Thurman Offering a starting point the ten chapters address the nature selection and function of various ancient and contemporary texts read in contemporary yoga settings The attention centers on how and why texts are read and for whom they are read As yoga is practiced in ashrams yoga studios gyms meeting rooms and even private living rooms scholarly approaches to investigate the connections between yoga and texts are necessarily diverse This volume aims to inspire further scholarship on the reading of texts in past and

present yoga communities The collection demonstrates that textual traditions deserve to be an important part of contemporary yoga scholarship The volume will therefore be of great interest to scholars of religious studies yoga studies and Asian studies as well as those studying sacred texts

Pop Culture Yoga Kristen C. Blinne,2020-01-23 Pop Culture Yoga A Communication Remix was born out of a series of questions about the paradoxical nature of yoga How do individuals and groups define yoga What does it mean to practice yoga and what does this practice involve What are some of the most important principles guidelines or philosophical tenets of yoga that shape people s definitions and practices Who has the power and authority to define yoga What are the limits if any of shared definitions of yoga Kristen C Blinne explores the myriad ways yoga is communicatively constructed and defined in and through popular culture in the United States In doing so Blinne offers insight into the many identity work processes in play in the construction of yoga categories illuminating how individuals and groups words and actions represent practices of claiming part of a complex communicative process centered around membership categorization based on a range of authenticity discourses Employing popular culture writing styles Blinne ultimately contends that the majority of yoga styles practiced in the United States are remixes that can be classified as pop culture yoga a distinct way of understanding this complex phenomenon

The Theosophical Path Katherine Augusta Westcott Tingley,1920 *The Path* ,1889 **The Theosophical Forum** ,1898 **Light Invisible** M. V. Lodyzhenskii,2011-10-01 Arguing that human beings yearn to be rooted in something greater than themselves and to know enduring joy and peace whatever the circumstances this classic early 20th century text examines higher consciousness and the divine mysticism of Eastern Christianity Written by a Russian philosopher and theologian this book explores the differences between Christian philosophy and other systems and discusses the beliefs of sainted men and women such as Francis of Assisi Seraphim of Sarov and Simeon the New Theologian Musing upon martyrdom in the epoch of the first two Ecumenical Councils this book also contains ruminations on the writings of Leo Tolstoy as well as a conversation between him and the author

Quanta in Distress Sadri Hassani,2024-10-01 This book deconstructs and debunks the lucrative and widespread marriage of quantum physics with pop spirituality while tracing this pernicious strain of pseudoscience to its source the founders of quantum mechanics themselves The association of mystical ideas with modern physics in the self improvement industry is not new The spookiness of quantum properties like uncertainty and entanglement has proven fertile

ground for new age mystics and alternative medicine advocates who saw a way to put a scientific veneer on their claims In the early days the founders of quantum physics accused it of implying an observer created reality Later Taoists and Wu Li dancers were quantized Then ancient Indian medicine Ayurveda morphed into quantum healing Little wonder The Oprah Winfrey Show told its viewers think about losing weight making more money and falling in love and you ll become thin wealthy and happily married all based on quantum physics Criticism of the pseudoscientific misappropriation of quantum physics has been widespread but inadequate thus far the scientific community has failed to account for its own role in the fusion of pop spirituality and quantum physics As well as thoroughly exploring and debunking quantum mysticism this book traces the development of quantum mysticism and pulls no punches in exposing the unwitting role of quantum theory s founders in propagating quantum mysticism

Imagining the East Erik Reenberg Sand, Tim Rudbøg, 2020 The essays in Imagining the East explore how Theosophists during the formative period imagined the religions and cultures of the East The authors examine the relationship of such representations to orientalism the history of ideas politics and culture at large and discuss how these esoteric or theosophical representations mirrored conditions and values current in nineteenth century mainstream intellectual culture The essays also look at how the early Theosophical Society s representations of the East differed from mainstream orientalism and how the Theosophical Society s mission in India was distinct from that of British colonialism and Christian missionaries

Indian Horizons, 1980 A Republic of Mind and Spirit Catherine L. Albanese, 2007-01-01 In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labour struggles social conflict and revolution Fugitive Landscapes explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age
