Scripture Versus Science Robert D. Harter, PhD, 2015-06-21 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and thoroughly understands the position of those who believe the Earth and everything in it was created a few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist's analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In *Scripture Versus Science* he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog

The Original Story John Barton, Julia Bowden, 2005-07-28 The Original Story is a comprehensive and lively guide to the Old Testament offering an essential introduction for readers of all faiths and none It provides a complete course covering history archaeology geography and textual interpretation *His Story* Jeffrey L. Walling, 2017-11-14 There is an ongoing battle in regard to the authenticity of Gods Word raging in our homes and communities not between science and the Bible but rather between humanistic atheistic theology and Christianity This publication seeks to cover the gambit of historical and scientific evidence from A to Z that could be used as a textbook for Christian educators Our churches are not teaching this in their Sunday schools Christian schools and homeschoolers are not getting this on chalkboards Parents dont have the resources or tools to prepare and protect their teenagers heading into secular high schools and colleges from the onslaught of anti Christ teachings The scripture says in Hosea 4 6 My people are destroyed for lack of knowledge because thou hast rejected knowledge I will also reject thee that thou shalt be no priest to me seeing thou hast forgotten the law of thy God I will also forget thy children As an added benefit students going into high school reading this book who have not decided what field of study they are interested in will get an opportunity to be exposed to several areas of interest Fields of study that include geology literary analysis genomics anthropology archaeology paleontology zoology meteorology genealogy astronomy earth sciences evolution and biblical studies are all interrogated to a significant depth **Lords of the Scrolls: Literary**

Traditions in the Bible and Gospels Donald K. Sharpes, 2005 *Lords of the Scrolls* analyzes ancient literary sources to show how biblical and gospel scribes borrowed and imitated themes from earlier literature to create heroic legends around Hebrew figures and Jesus. Comparisons between the Epic of Gilgamesh, Enuma Elish, Canaanite, Egyptian, and Greek legends, Homeric epics, the histories of Herodotus, and selected biblical and gospel passages reveal thematic and literary similarities. Tracing literary classics from the birth of writing to the first millennium of the modern era, this book demonstrates that Hebrew scribes used previous literature to establish a national identity and that gospel scribes borrowed heavily from Homer to create epic legends around the person of Jesus. *How We Believe, 2nd Edition* Michael Shermer, 2003-10 Recent polls show that 96% of Americans believe in God. Why are people turning to religion in greater numbers than ever before? In *How We Believe*, Michael Shermer presents the results of an exhaustive empirical study in which he asked 10,000 Americans how and why they believe and about details of their faith. The result offers fresh and startling insights into age-old questions.

Telling Bible Stories Bob Hartman, 2021-04-23 Bob Hartman's bumper collection of Bible stories is drawn from both the Old and New Testaments. There are stories for individual and group performances, stories for the major Christian festivals, stories for a variety of age groups. Each story is followed by discussion questions to encourage the audience to delve deeper into each tale. Discover why Bob is in such demand in this entertaining and insightful collection. **Biblical Judgments** Daphne Barak-Erez, 2024-01-09 *Biblical Judgments* invites readers to consider today's timeless dilemmas of law and government, social justice and human rights through the perspective of a text that has helped shape western society: the Hebrew Bible. By focusing on biblical narratives and literature rather than on traditional interpretations of biblical law, Daphne Barak-Erez is able to look beyond historic norms to concentrate on what Old Testament stories can reveal about the big issues. She discusses questions such as: What can modern day governmental regulation learn from the exercise of food rationing in Egypt as a response to Pharaoh's dream of a future famine? How does social distancing in the time of Covid-19 compare with people sent outside the camp as a precautionary measure against bible-era plagues? What can promoters of social justice glean from the demands made to Moses that daughters should also inherit from their father when biblical law did not recognize inheritance rights of women? Rather than offering a historical study, Barak-Erez draws upon famous court decisions from around the world to root her analysis in modern law. Organized by subject matter, *Biblical Judgments* analyzes how the themes of law and government, judging and judges, human rights and social justice, criminal law, private law, and family and inheritance law are presented through a number of different stories. In recounting the compelling narratives of the Hebrew Bible, *Biblical Judgments* exposes their inherent legal tensions and what we can learn about legal dilemmas today. *A Worldview Approach to Science and Scripture* Carol Hill, 2019-11-19 Geologist Carol Hill examines how numerous apparent conflicts between Scripture and

science can be resolved by understanding the ancient worldview of the scriptural authors and how it differs from our modern scientific worldview This framework opens the door to clearing up longstanding questions such as Are the Genesis patriarchs ages real numbers Are the days of creation actual 24 hour days Where was the Garden of Eden located Was Noah s flood global or local Were Adam and Eve real people Is evolution a belief or a fact With photographs and diagrams throughout Hill explores the meaning of the relevant biblical passages the scientific data and how the worldview approach addresses seeming contradictions Anyone who has wrestled with these questions will find A Worldview Approach to Science and Scripture to be an invaluable resource for understanding the interplay between faith and the world Carol Hill takes both Scripture and science seriously affirming the inspiration of the Bible and the evidence for biological evolution Deborah Haarsma President of BioLogos This is one of the best one volume works on the creation evolution dialogue in print Kenneth Keathley Southeastern Baptist Theological Seminary Carol Hill s worldview approach brings the reader face to face with archeological biblical and scientific data that enable one to gain a new appreciation for what the Bible is trying to teach This approach is a very helpful tool James K Hoffmeier Trinity Evangelical Divinity School

Science and Religion Claudia May, Channon Visscher, 2023-10-24 Science and Religion Perspectives Across Disciplines interweaves science technology engineering and math STEM fields with the arts humanities theology and psychology to cultivate discussion on science and religion alongside biblical interpretation This anthology is paradoxically ecumenical for it embraces unifying and disparate positions without being prescriptive or exclusive It is both synergistic and disruptive Building on this premise the Advent and Easter stories are examined through praxes from STEM theology and psychology Taken together this anthology allows for connection between disciplines by creating community in the midst of differing approaches to the study of science and religion

discovered an overwhelming amount of supporting evidence but it came with a catch it all pointed in one decisive direction
