especially among vinyl enthusiasts for their exquisite production The precision was necessary in part because Steely Dan played with form more than most bands mixing elements of other genres especially jazz with pop and rock And the lyrics are also distinctive As the authors put it in their proposal Steely Dan's songs are exercises in fictional world building Each song features its own cast of rogues and heroes and creeps and schmucks lovers and dreamers and cold blooded operators all tempest tossed by the ill winds of the 70s This book consists of sixty some essays each devoted to one character and each essay is accompanied by a painting of the particular character that serves as a jumping off point for the piece with additional spot illustrations scattered throughout
