Teaching Idea Development Sharon Crawford Hatton,Pam Leneave Ladd,2002 The most marvelously practical and engaging approach to come along in decades It goes beyond the basics to take up very practical techniques that are terribly useful but not covered in most textbooks All of us want our students to think critically and creatively this book shows us how to teach them to do just that A superb text David R Russell Professor of English Iowa State University Ames IA A wealth of practical instruction activities to use in the classroom that can help students at all levels learn to flesh out the bare bones of their ideas The world of effective writing meant for authentic audiences and purposes guides every suggestion made in this book Jan Isenhour Executive Director The Carnegie Center for Literacy and Learning Lexington KY An excellent writing resource for teachers interested in helping students develop critical thinking skills Loaded with specific objectives student models and classroom lessons this book provides a catalog of useful strategies New teachers especially should find this extremely useful Harry Noden Author of Image Grammar Kent State University Kent OH Turn good ideas into great writing with this hands on guide Idea development is a concrete skill that can be taught in a systematic way and this step by step guide provides educators in all content areas with the tools they need to help students think more critically and write with more fully developed ideas Hatton and Ladd instructors with the esteemed Kentucky Writing Program offer the reading writing thinking sequences that successful writers use when developing ideas This teacher resource is chock full of ideas that teachers in intermediate middle or secondary schools can implement immediately Most important the strategies and tactics offered are designed to work in the current highly rigorous standards based school environment providing results that are both successful and measurable Teaching Idea Development explores the theory and practice of implementing idea development in the classroom from identifying and solving common idea development problems to strategies for teaching essential writing skills including Description Comparison and contrast Cause and effect Dialogue Anecdotes Vignettes and much more in a lively enthusiastic and highly usable guide for teaching students how to think critically about their ideas as they express them effectively      Resources in Education ,1999-04      **Curriculum-based Assessment** Carroll J. Jones,2008 Although curriculum based assessment CBA has been on the horizon for a number of years there has been a need for a practical classroom based approach for its implementation This second edition is a major revision and update that offers practical and specific methods for developing and using CBAs in an educational setting It gives educators a highly specific step by step approach to building CBAs in the area of reading word recognition reading comprehension content reading mathematics and written expression Each chapter offers detailed easy to read and easy to follow instructions for the assessment construction process To further clarify the process extensive examples are given in table format A unique feature of the text is the manner in which the author illustrates the principles of CBA by providing a case study on one student which

is referred to in each chapter Its formative assessment approach gives the teacher additional detailed information about students OCO performance which in turn should guide the type of instruction designed and implemented ultimately leading to higher performance on summative outcome measures Additionally detailed information is provided on subject area CBA construction the creation and implementation of a district wide CBA system for response to intervention and how to use IDEA S response to intervention in student evaluation
