Music Trades ,1919 **Catalog of Copyright Entries** Library of Congress. Copyright Office,1968 *From Classicism to Modernism* Brian K. Etter,2019-07-30 This title was first published in 2001 The last century has witnessed the ascendancy of the avant garde in music From Schoenberg to Boulez to Stockhausen the avant garde has defined the modern conception of musical creativity Contemporary serious music demands the new in terms of style form and ways of listening and hearing Implicit in this approach is the rejection of the old from the baroque to the music of the later 19th century symphonists Paradoxically however it is this old repertoire which continues to dominate concert programmes An exploration of this dichotomy lies at the heart of this book Drawing on a wealth of European philosophical and musical texts the author examines the origins of the avant garde and its relation to modernity in tandem

with the history of the tonal tradition
