Abandoned & Vanished Canals of Ireland, Scotland and Wales Andy Wood,2015-07-15 Andy Wood explores the history of the lost canals of Ireland Scotland and Wales The Future of HM Coastguard in Scotland Great Britain:

Parliament: House of Commons: Scottish Affairs Committee,2012-11-15 This report expresses concern about the decision to close two of Scotland s Maritime Rescue Co ordination Centres and says Government must do more to explain the rationale for the decision and how it will ensure that the same high standard of service is maintained with fewer resources Despite an extensive Government consultation those on the front line felt they had been excluded from the process There has been no satisfactory explanation for the decision to close Clyde and Forth MRCCs which will leave the central belt of Scotland where the population is most densely concentrated without a Coastguard station The Committee is particularly concerned at the loss of local knowledge resulting from the closures Both the Minister and the Chief Executive of the Maritime and Coastguard Agency have assured the Committee that robust and extensive testing was being done before the closure of Clyde Maritime Rescue Co ordination Centre to ensure that the stations taking over its area of responsibility would do so seamlessly and continue to provide the level of search and rescue cover which the public has a right to expect The Committee understands the Government s argument that the changes are intended to allow HM Coastguard to do more better with less and says it hopes that this is indeed the case The Government must keep the Committee updated on the impact of the proposed changes and provide reassurance after 31 December 2012 that the Scottish coastline is still being served to the same high standard as before *Scotland's Classic Wild Trout Waters* Lesley Crawford,2001-05 Indispensable guide to the best fishing for wild browns and sea trout in the rivers lochs and island waters of Scotland Includes how to information on tactics flies and gear

Birds in Scotland Valerie M. Thom, 2010-11-30 The most important work on the birds of Scotland ever published British Birds This comprehensive study and review of the birds in Scotland follows on from where the celebrated two volumes of *The Birds of Scotland* 1953 by Dr Baxter and Miss Rintoul left off It does more than that however since not only has there been a profound increase in ornithological coverage and data as reflected in the species accounts there have also been great changes in habitat and environment since the days of Baxter there are also brief summaries of earlier data based on the researches of Baxter Rintoul In all 497 species are dealt with The texts of major species accounts are complemented by 173

distribution maps and many tables of relevant data and there are 129 species drawings by a team of artists under the editorship of Donald Watson who also contributes chapter head pieces and other drawings A section of photographs illustrates the varied habitats typical of Scotland today There are further appendices and an extensive bibliography The book will be of great interest to all birdwatchers in Scotland but of special value too to the many thousands of birdwatching visitors from elsewhere in these islands and from countries abroad The Scottish Ornithologists Club for whom the book is published and all whose records and researches made the author's work possible have reason to be proud of Valerie Thom's achievement
