access is dealt with in some detail with reference to all ECHR cases Next follows a series of chapters dealing with rights of access under other legislative regimes covering information held by EU bodies requests under the Data Protection Act and the Environmental Information Regulations public records as well as type specific rights of access These introduce the practitioner to useful rights of access that might otherwise be overlooked They are arranged thematically to ensure ready identification of potentially relevant ones The book then considers practical aspects of information requests the persons who may make them the bodies to whom they may be made the time allowed for responding the modes of response fees and vexatious requests the duty to advise and assist the codes of practice government guidance and its status transferring of requests third party consultation The next 13 chapters comprising over half the book are devoted to exemptions These start with two important chapters dealing with general exemption principles including the notions of prejudice and the public interest The arrangement of these chapters reflects the arrangement of the FOI Act but the text is careful to include analogous references to the Environmental Information Regulations and the Data Protection Act 1998 With each chapter the exemption is carefully analysed starting with its Parliamentary history giving full references to Hansard and other Parliamentary material and the treatment given in the comparative jurisdictions The analysis then turns to consider all court judgments and tribunal decisions dealing with the exemption The principles are stated in the text with footnotes giving all available references Whether to prepare a case or to prepare a response to a request these chapters allow the practitioner to get on top of the exemption rapidly and authoritatively The book concludes with three chapters setting out the role of the Information Commissioner and the Tribunal appeals and enforcement The chapter on appeals allows the practitioner to be familiar with the processes followed in the tribunal picking up on the jurisprudence as it has emerged in the last eight or so years Appendices include precedent requests for information a step by step guide to responding to a request comparative tables and a table of the FOI Act s Parliamentary history Finally the book includes an annotated copy of the FOIA Act the Data Protection Act 1998 the Environmental Information Regulations 2004 all subordinate legislation made under them EU legislation Tribunal rules and practice directions and the Codes of Practice Contributors Prof John Angel former President of the Information Tribunal Richard Clayton QC 4 5 Gray s Inn Square Joanne Clement 11 KBW Gerry Facena Monkton Chambers Eleanor Gray QC     Scottish Social Democracy Michael Keating, 2007 Scotland is a country of strong progressive traditions and could be a model for a renewed social democracy Devolution has given it a chance to show what a small self governing nation within a wider British and European Union can do Yet the authors of this volume are disappointed by the lack of policy innovation since 1999 In an effort to relaunch the debate they offer a range of ideas for new thinking and new policies for Scotland of the twenty first century Whether independent or devolved Scotland faces the same challenge how to harness the energies of the nation and to combine economic competitiveness with social cohesion     *Public Law* John Stanton, Craig Prescott, 2022 With its fresh modern approach and unique combination of practical application and

theoretically critical discussion Public Law guides students to a clear understanding of not only the fundamental principles of the subject but how they are relevant in everyday life *The Parliamentary Debates (Hansard)*. Great Britain. Parliament.
