## **History of the Native Woodlands of Scotland 1500-1920**

T. C. Smout, 2007-09-15 The first modern history of Scottish woodlands this highly illustrated volume explores the changing relationship between trees and people from the time of Scotland's first settlement focusing on the period 1500 to 1920

Drawing on work in natural science geography and history as well as on the authors own research it presents an accessible and readable account that balances social economic and environmental factors Two opening chapters describe the early history of the woodlands The book is then divided into chapters that consider traditional uses and management the impact of outsiders on the pine woods and the oakwoods in the first phase of exploitation and the effect of industrialization Separate chapters are devoted to case studies of management at Strathcarron Glenorchy Rothiemurchus and on Skye

## **Scottish Woodland History** T. Christopher Smout, 1997

*Scottish Woodland History* relates the complex history of the Scottish native woodlands both the old Caledonian pine forests and the deciduous woods and how people have used and misused them over the centuries The book illustrates the extraordinary variety and vibrancy of woodland research carried on in Scotland today by all manner of people ranging from practicing ecologists foresters and conservations to academic archaeologists palynologists and historians *Scottish Woodland History* reflects all of their concerns but is unified by the contributors love for the ancient woods of Scotland

*Native Woodlands of Scotland* Scott Wilson, 2015-04-26 This book presents up to date information about Scotland's native woodlands It draws upon professional experience of scientific research survey and management where the author has studied many important native woodlands in Scotland and beyond

*Exploring Environmental History* T. C Smout, 2011-08-16 This volume brings together the best of T C Smout's recent articles and contributions to books and journals on the topic of environmental history

## **Restoration and History** Marcus Hall, 2010-02-01

Once a forest has been destroyed should one plant a new forest to emulate the old or else plant designer forests to satisfy our immediate needs Should we aim to re create forests or simply create them How does the past shed light on our environmental efforts and how does the present influence our environmental goals Can we predict the future of restoration This book explores how a consideration of time and history can improve the practice of restoration There is a past of restoration as well as past assumptions about restoration and such assumptions have political and social implications Governments around the world are willing to spend billions on restoration projects in the Everglades along the Rhine River in the South China Sea without acknowledging that former generations have already wrestled with repairing damaged ecosystems that there have been many kinds of former ecosystems and that there are many former ways of understanding such systems This book aims to put the dimension of time back into our understanding of environmental efforts Historic ecosystems can serve as models for our restorative efforts if we can just describe such ecosystems What conditions should be brought back and do such conditions represent new natures or better pasts A collective answer is given in these pages and it

is not a unified answer      History of Everyday Life in Scotland, 1800 to 1900 Graeme Morton,2010-08-31 This volume explores the experience of everyday life in Scotland over two centuries characterised by political religious and intellectual change and ferment It shows how the extraordinary impinged on the ordinary and reveals people s anxieties joys comforts passions hopes and fears It also aims to provide a measure of how the impact of change varied from place to place The authors draw on a wide range of primary and secondary sources including the material survivals of daily life in town and country and on the history of government religion ideas painting literature and architecture As B S Gregory has put it everyday history is an endeavour that seeks to identify and integrate everything all relevant material social political and cultural data that permits the fullest possible reconstruction of ordinary life experiences in all their varied complexity as they are formed and transformed      *History of Everyday Life in Medieval Scotland* Edward J Cowan,2011-06-06 This book examines the ordinary routine daily behaviour experiences and beliefs of people in Scotland from the earliest times to 1600

*People and Woods in Scotland* T. C. Smout,2019-08-07 No detailed description available for People and Woods in Scotland      **Agriculture, Economy and Society in Early Modern Scotland** Robert Allan Houston,2024 Showcases the latest research on Scotland s rural economy and society Early modern Scotland was predominantly rural Agriculture was the main occupation of most people at the time so what happened in the countryside was crucial economically socially and culturally The essays collected here focus on the years between around 1500 and 1750 This period although before the main era of agricultural improvement in the late eighteenth and early nineteenth centuries was nevertheless far from static in terms of agrarian development Specific topics addressed include everyday farming practices investment landlords tenants and estate management and the cultural context within which agriculture was imagined The disastrous famine of 1622 23 is analysed in detail The volume is completed by a comprehensive survey of recent historiography setting agricultural history in its broader context      **The Oxford Handbook of Modern Scottish History** T. M. Devine,Jenny Wormald,2012-01-26 A landmark study which reconsiders in fresh and illuminating ways the classic themes of the nation s history since the sixteenth century as well as a number of new topics which are only now receiving detailed attention Places the Scottish experience firmly in an international historical experience      Modern Scottish History: 1707 to the Present Anthony Cooke,Ian Donnachie,Ann MacSween,Christopher A. Whatley,2008-01-30 This is the first volume of a distance learning history of Scotland course The 26 major topics are covered in five books designed for self study and written to accompany the course These volumes are two tutorial volumes two volumes of reprinted articles and essays and a volume of documents The first half of the course covers the period 1707 to 1850 Beginning with the Union of 1707 and Jacobitism the course considers topics including industrialization politics religion the environment class demography and culture as well as looking at the differences between Highland and Lowland society and economy The project team for this part of the course includes C G Brown G Carruthers A J Cooke I Donnachie W H Fraser M T G Fry B Harris A I Macinnes I Maver T C Smout N L Tranter C A

Whatley I D Whyte and D J Withrington The period 1850 to the present is covered in the second half of the course Again a wide range of topics is studied and some topics such as industrialization demography urbanization religion class education culture and Highland and Lowland society is continued The project team for this second part of the course includes R D Anderson R Anthony C G Brown E A Cameron R J Finlay J O Foster C Harvie W Kenefick R A Lambert I Levitt A J MacIvor R J Morris and P L Payne

**Shades of Green** Ruth Tittensor,2016-10-31 This book takes a fresh look at the most disliked tree in Britain and Ireland explaining the reasons it was introduced and why it became ubiquitous in the archipelagos of northwest Europe Sitka spruce has contributed to the Pacific Coast landscapes of North America for over ten millennia For the Tlingit First Nation it is the most important tree in terms of spiritual relationships art and products in daily use such as canoes containers fish traps and sweet cakes Since the late nineteenth century it has also been the most important tree to the timber industry of west coast North America The historical background to the modern use of Sitka spruce is explored The lack of cultural reference may explain negative public response when treeless uplands in the UK and Ireland were afforested with introduced conifer species particularly Sitka spruce following two World Wars The multipurpose forestry of today recognizes that Sitka spruce is the most important tree to the timber industry and to a public which uses its many products but fails to recognize the link between growing trees and bought goods The apparently featureless and wildlife less Sitka spruce plantations in UK uplands are gradually developing recognizable ecological features Sitka spruce has the potential to form temperate rain forests this century as well as to produce much needed goods for society The major contribution of Sitka spruce to landscapes and livelihoods in western North America is by contrast widely accepted But conserving natural old growth forests sustaining the needs of First Nations and producing materials for the modern timber industry will be an intricate task

**Nature Contested** T. C. Smout,2019-08-07 This work deals with four centuries of conflict over some of the most valued landscapes in Europe Based on a series of lectures given by the author at Oxford University in 1999 it combines social and cultural history with ecology and geography

**An Environmental History of the Middle Ages** John Aberth,2013 The Middle Ages was a critical and formative time for Western approaches to our natural surroundings eeAn Environmental History of the Middle Ages is a unique and unprecedented cultural survey of attitudes towards the environment during this period Humankind e tm s relationship with the environment shifted gradually over time from a predominantly adversarial approach to something more overtly collaborative until a series of ecological crises in the late Middle Ages With the advent of shattering events such as the Great Famine and the Black Death considered efflorescences of the climate downturn known as the Little Ice Age that is comparable to our present global warming predicament medieval people began to think of and relate to their natural environment in new and more nuanced ways They now were made to be acutely aware of the consequences of human impacts upon the environment anticipating the cyclical new ecology approach of the modern world Exploring the entire medieval period from 500 to 1500 and ranging across the whole of Europe from

England and Spain to the Baltic and Eastern Europe John Aberth focuses his study on three key areas the natural elements of air water and earth the forest and wild and domestic animals Through this multi faceted lens An Environmental History of the Middle Ages sheds fascinating new light on the medieval environmental mindset It will be essential reading for students scholars and all those interested in the Middle Ages The Nature of the Cairngorms Philip Shaw,Des B.A.

Thompson,2006-06-12 The Cairngorms area is arguably the most significant for nature conservation in the British Isles and contains its largest National Park In this book 35 authors drawing on published and unpublished sources present an up to date review of the area s natural features including plants animals habitats geology and landforms The review falls into three parts The first and largest part describes the area s rich diversity of nature with each chapter summarising recent research findings trends and conservation issues for a different landform habitat or species group The second part considers deer management recreation and projected climate change impacts Part three focuses on rare and threatened species and identifies areas and habitats rich in species for which the Cairngorms are nationally and internationally important **Trees,**

**Forested Landscapes and Grazing Animals** Ian D. Rotherham,2013 In this comprehensive book the critical components of the European landscape forest parkland and other grazed landscapes with trees are addressed The book considers the history of grazed treed landscapes of large grazing herbivores in Europe and the implications of the past in shaping our environment today and in the future Debates on the types of anciently grazed landscapes in Europe and what they tell us about past and present ecology have been especially topical and controversial recently This treatment brings the current discussions and the latest research to a much wider audience The book breaks new ground in broadening the scope of wood pasture and woodland research to address sites and ecologies that have previously been overlooked but which hold potential keys to understanding landscape dynamics Eminent contributors including Oliver Rackham and Frans Vera present a text which addresses the importance of history in understanding the past landscape and the relevance of historical ecology and landscape studies in providing a future vision Elite Hunting Culture and Mary, Queen of Scots John M. Gilbert,2024-12-03

Examines the political significance and performativity of elite hunting in sixteenth century Scotland Hunting during the early modern period was not simply a popular form of elite entertainment it also had an important part in court politics and royal governance However little attention has been devoted to it in sixteenth century Scotland This study of the role that hunting played in the life of Mary Queen of Scots in France and in Scotland aims both to shed new light on the subject and to provide a new perspective on Mary herself Drawing on the hunting treatises of Gaston Phoebus and Henri de Ferri res the histories of Robert Lindsay of Pitscottie and John Lesley and a wide variety of other literary and visual sources including letters administrative records and fieldwork evidence it reveals the full significance of the hunt in Mary s life and career She is shown to be an able and enthusiastic huntress using this pastime to establish herself as a Stewart monarch demonstrate her royal authority and particularly during the later stages of her reign to attempt to hold together a fractious Scottish

aristocracy      *Landscape and History since 1500* Ian D. Whyte, 2004-03-03 Landscape and History explores a complex relationship over the past five centuries The book is international and interdisciplinary in scope drawing on material from social economic and cultural history as well as from geography archaeology cultural geography planning and landscape history In recent years as the author points out there has been increasing interest in and concern for many aspects of landscape within British European and wider contexts This has included the study of the history development and changes in our perception of landscape as well as research into the links between past landscapes and political ideologies economic and social structures cartography art and literature There is also considerable concern at present with the need to evaluate and classify historic landscapes and to develop policies for their conservation and management in relation to their scenic heritage and recreational value This is manifest not only in the designation of particularly valued areas with enhanced protection from planning developments such as national parks and world heritage sites but in the countryside more generally Further Ian D Whyte argues changes in European Union policies relating to agriculture with a greater concern for the protection and sustainable management of rural landscapes are likely to be of major importance in relation to the themes of continuity and change in the landscapes of Britain and Europe      *Eighteenth Century Scotland* Tom M. Devine, John R. Young, 2022-01-06 This impressive collection of essays is based on a two year seminar series of the Research centre in Scottish History at the University of Strathclyde New and original research as well as historiographical overviews and commentaries illuminate the study of this formative century in the creation of modern Scotland Contributors are leading figures in their fields and the Scottish experience is examined within an international dimension Topics include Scottish modernisation before the Industrial Revolution the Union of 1707 Scotland and British expansion Scottish Jacobitism the Catholic underground Scottish national identity the Scottish Enlightenment urbanisation demographic change Scottish Gaeldom Highland estate management and tenant emigration and Scottish radicalism Contributors Thomas M Devine John R Young Michael Fry Allan I Macinnes James F McMillan Alexander Murdoch Richard J Finlay Jane Rendall Bernard Aspinwall Ian D Whyte Robert E Tyson T C Smout Andrew Mackillop Christopher A Whatley Elaine W McFarland
