Scottish Railway System C.J.A. Robertson,2003-11-24 By comparison with their English counterparts Scottish nineteenth century railways have suffered from a degree of neglect by economic historians Most of the existing literature is written for the railway enthusiast concentrating mainly on topography mechanical developments and entertaining episodes Few of these books cover the whole of Scotland and most are treatments of single companies or of particular dramatic events This study covers the earliest period of Scottish railway history from the years of the first waggonway developments in the eighteenth century to the advent of the railway mania of the 1840s It concentrates on the planning and formation of the various railways the problems and achievements associated with their construction and the financial records of the companies up to 1844 The first two chapters cover the horse drawn waggonways of the eighteenth century and the coal railways of the early nineteenth

Johnson, 2011-04-18 New Contexts for Eighteenth Century British Fiction is a collection of thirteen essays honoring Professor Jerry C Beasley who retired from the University of Delaware in 2005 The essays written by friends

collaborators and former students reflect the scholarly interests that defined Professor Beasley's career and point to new directions of critical inquiry. The initial essays which discuss Tobias Smollett, Elizabeth Singer Rowe, and Samuel Richardson suggest new directions in biographical writing including the intriguing discourse of life writing explored by Paula Backscheider. Subsequent essays enrich understandings of eighteenth century fiction by examining lesser known works by Jane Barker, Eliza Haywood, and Charlotte Lennox. Many of the essays, especially those that focus on Smollett, use political pamphlets, material artifacts, and urban legends to place familiar novels in new contexts. The collection's final essay demonstrates the vital importance of bibliographic study.
