The Scottish and Welsh Wars 1250-1400 Christopher Rothero, 1984

Armies of the Hundred Years' War

1337-1453 Gabriele Esposito, 2025-03-30 The Hundred Years War is one of the most famous conflicts in British history featuring such renowned battles as Crecy Poitiers and Agincourt It is a period littered with such legendary names as the Black Prince Henry V and Joan of Arc and a fascinating one for the development of warfare weapons and armour Gabriele Esposito puts the conflict in context with an overview of earlier Anglo French conflicts and the roots of the dispute between the Plantagenet and Valois dynasties He then devotes several chapters to giving a concise overview of the dramatic events of the war before moving on to describe in detail the organization tactics weapons armour and equipment of all the varied forces Those drawn in by various alliances such as Scottish Spanish and Burgundian troops are not forgotten He shows the evolution of warfare across the period from the early dominance of the longbowmen over the French knights to the increasing importance of artillery in the Valois recovery As usual for The Armies of the Past series Gabriele Esposito's informative text is lavishly illustrated with colour photographs of replica weapons armour and clothing in use *Armies of Feudal Europe 1066-1300* Ian Heath, 2016-06-03 This is a reprint of the 1989 second edition of this book in our Armies and Enemies series It includes details of armies from Andalusia Bulgaria England Estonia France the Holy Roman Empire Hungary Ireland Italy Morocco the Ordensstaat of the Teutonic Knights the Earldom of Orkney the Papal State Poland Prussia Lithuania the Low Countries Kievan Russia Scandinavia Scotland Serbia Sicily Spain Venice Wales and Wendland

Armies of Plantagenet England, 1135-1337 Gabriele Esposito, 2023-10-05 The ascent of the Plantagenets to the English throne in 1154 led to the beginning of a new historical phase in the British Isles which was marked by numerous wars that were fought between the Kingdom of England and the Celtic nations of Wales Scotland and Ireland During the rule of the Norman kings the English armies had not completed the conquest of Wales and had established only some footholds in Ireland Scotland was still independent and was ready to contest the Plantagenets' possession of northern England As a result of this situation the two centuries between the rise of the new dynasty and the beginning of the Hundred Years War were characterized by a series of wars that ravaged feudal England Gabriele Esposito covers all these conflicts following the campaigns of Richard the Lionheart as well as those of his younger brother who was defeated on the continent at the large Battle of Bouvines the conquest of Wales is analyzed in detail as well as the First Scottish War of Independence that saw William Wallace playing a prominent role The organization and equipment of all the troop types taken into account is described in full detail and lavishly illustrated with color images of reenactors bringing these forces to life *The Scottish and Welsh Wars 1250-1400* Christopher Rothero, 1984-07-26 On 28 September 1066 William of Normandy landed near Hastings and prepared to meet the Anglo Saxon army of King Harold Godwinson On 10 October 1066 the two armies met and after six hours of fighting what became known as the Battle of Hastings the Anglo Saxon army was crushed and their king

slain The Normans set up castles to control the native population and four fifths of all England's land changed ownership However despite initial Norman success it was fully two centuries before the Anglo Norman kings managed to penetrate the wild interiors of Wales and Scotland and many more centuries before the countries of Scotland Wales and England were united under one crown

Welsh Castle Builders John Marshall, 2022-12-02 The Edwardian castles of north Wales were built by a Savoyard master mason but also by many other artisans from Savoy What is more extraordinary is that the constables of Flint Rhuddlan Conwy and Harlech were also Savoyards the Justiciar and Deputy Justiciar at Caernarfon were Savoyards and the head of the English army leading the relief of the sieges of Flint and Rhuddlan was a future Count of Savoy The explanatory story is fundamentally of two men the builder of castles Master James of St George and Justiciar Sir Otho de Grandson and the relationship of these two men with King Edward I But it is also the story of many others a story that begins with the marriage of Alianor de Provence to Edward's father Henry III and the influx of her kinsmen to England such as Pierre de Savoie It is impossible to understand the development of the castles in north Wales without an understanding of the Savoyards where they came from and their impact on English and Welsh history The defining work of Arnold Taylor in exploring the Savoyard history of Welsh castles is now many years past and mostly out of print it is time for the story to be revisited and expanded upon in the light of new evidence

Peter of Savoy John Marshall, 2025-08-05 Where did the story that ended with the great Edwardian castles of north Wales begin How was it that hundreds of men from Savoy built castles in north Wales Whose stylised statue sits outside the Savoy Hotel in London on the site of his former palace Whose castle of Pevensey endured successfully the longest English siege Why does much of Switzerland speak French to this day Why do we find elements of the Magna Carta in the Statutes of Savoy Who was one of the greatest figures of the thirteenth century Peter of Savoy known to chroniclers of his homeland as The Little Charlemagne Peter of Savoy came to England as the uncle of Queen Alianor de Provence the consort of King Henry III He quickly found favour as one of Henry's closest advisers and noblemen Peter was in effect Queen Alianor's right hand man in England her protector and subsequently the protector of Lord Edward the future King Edward I He played a key role in Henry's military and diplomatic efforts to recover his ancestral lands in France which culminated in the 1259 Treaty of Paris This rapprochement between the Capetians and Plantagenets might have warded off the Hundred Years War but it was not to be Nonetheless the nineteenth century monks of Savoy thought it his greatest accomplishment Peter played a key role in the Second Baronial War which engulfed Henry's reign at first siding with Simon de Montfort but then changing sides as the reform movement veered toward xenophobia Returning to Savoy he laid the foundations for the County of Savoy to become a powerful Duchy which in turn almost became a country before it was dismembered by Switzerland Italy and France His historical reputation suffered at the hands of English chroniclers keen to eulogise the Montfortian regime This work is an attempt to discover the real Peter of Savoy

Border Fury John Sadler, 2013-11-26 Border Fury provides a fascinating account of the period of Anglo

Scottish Border conflict from the Edwardian invasions of 1296 until the Union of the Crowns under James VI of Scotland James I of England in 1603 It looks at developments in the art of war during the period the key transition from medieval to renaissance warfare the development of tactics arms armour and military logistics during the period All the key personalities involved are profiled and the typology of each battle site is examined in detail with the author providing several new interpretations that differ radically from those that have previously been understood *Osprey Men-At-Arms* Martin Windrow,2012-01-20 *Osprey Men at Arms* A Celebration is a very special volume detailing some of the wonderful artwork that has graced Osprey s renowned Men at Arms series over the last forty years Beautifully presented in luxurious cloth embossed and foil blocked with head and tails bands and a ribbon bookmark the collection contains the most treasured illustrations from the vast archives of this respected series and is a classic collectable item for all military history enthusiasts

Infantry ,1985 **Lost Battlefields of Wales** Martin Hackett,2014-07-15 Takes us through the numerous battles in Wales *A Cumulative Bibliography of Medieval Military History and Technology* Kelly DeVries,2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense *The Scottish and Welsh Wars 1250-1400* Christopher Rothero,1989 *Othon de Grandson* John Marshall,2025-08-30 Studies the remarkable life of Othon de Grandson crusader diplomat and close companion to King Edward I There were once two little boys they met when they were both quite young one was born in what s now Switzerland by Lake de Neuch tel his name Othon de Grandson and the other was born in London his name Prince Edward son of King Henry the third of that name Othon was probably born in 1238 and Edward we know in June 1239

These two little boys grew up and had adventures together They took the cross together the ninth crusade in 1271 and 1272 Othon reputedly sucking poison from Edward when the latter was attacked by an assassin In 1277 and 1278 they fought the First Welsh War against the House of Gwynedd Othon doing much to negotiate the Treaty of Aberconwy in 1278 which ended hostilities When war broke out again in 1282 they fought the Second Welsh War together Othon led Edward s army across the Bridge of Boats from Anglesey and was the first to sight the future sites of castles at Caernarfon and Harlech Edward made his friend the first Justiciar Viceroy of North Wales When Edward and Othon went to Gascony in 1287 Othon stayed in Zaragoza as a hostage for Edward s good intentions between Gascony and Castille Later in 1291 when Acre was threatened by the Mamluks Edward sent Othon as head of the English delegation of knights When Acre finally fell to the Mamluks bringing the Crusades to a close who was the last knight onto the boats Othon de Grandson helping his old friend the wounded Jean de Grailly onto the boat When Othon returned from the East he found England at war with Scotland and France he would spend his last years in Edward s service building alliances and negotiating peace before retiring to his home in what is now Switzerland after the king s death in 1307 Grandson lived in the time of Marco Polo Giotto Dante Robert the Bruce and the last Templars He was right there at the centre of the action in two crusades war with Wales Scotland and France the Sicilian Vespers and suppression of the Templars he walked with a succession of kings and popes a knight of great renown This is his story **The Golden Spurs of Kortrijk** Randall Fegley,2010-06-28 The Franco Flemish region of medieval Flanders was a locus of important trade routes in the 13th and 14th centuries Located in a prime position between the Holy Roman Empire and the North Sea present day northern Belgium the urban centers of the region were surpassed in population only by the city states of central and northern Italy This positioning afforded the Flemish citizens of the region great prosperity and they formed guilds to protect their rights regulate their working hours and standardize their wages These guilds produced a cohesive unit of people eager to retain the rights they had gained In 1302 French cavalry faced the determined Flemish soldiers on foot at Kortrijk Courtrai This book analyzes the battle that ensued its origins consequences and legacy It also examines the everyday lives of the inhabitants of Flanders urban dwellers knights nobles women and others This is the first major English language study of the historic 14th century battle between the French and the Flemish a conflict whose repercussions linger in modern Belgium Instructors considering this book for use in a course may request an examination copy here [Mailing List \(Infantry School \(U.S.\)\)](#) ,1985 *Grampian Battlefields* Peter Marren,1990 [The Israeli Army in the Middle East Wars 1948-73](#) John Laffin,Mike Chappell,1982-07-29 Israel assumes in advance that defeat in war means an end to the Jewish nation and it wages war accordingly This fact influences the Israeli approach to its army and to the strategy tactics training and conduct of war Surrounded by hostile nations Israel has fought six victorious wars between 1948 and 1973 For a force which began as an irregular impoverished and improvised group this is a formidable record Backed by plenty of photographs and eight full page colour plates this fine text examines the six wars fought between

1948 73 including the extraordinary Israeli victory of 1967 **US Cavalry on the Plains 1850-90** Philip Katcher, 1985 Two events in the 19th century turned the minds of Americans westwards towards eventual and inevitable conflict with the Plains Indians The first was victory in the Mexican American War which brought millions of acres of new land in the West The second was the discovery of gold in California One of the results of this migration was conflict with the Indians who inhabited the Plains So it was natural that the Army the nation's armed peace keepers should be sent to garrison the West This book by Philip Katcher tells the absorbing story of the US cavalymen who patrolled the Plains from 1850 90 **Clash of Arms** Julian Humphrys, 2006 Some battles Hastings Bosworth Naseby have a major and lasting effect on the history of this country and remain strongly etched in the public consciousness Others are relatively unknown even to the people living on or around the battle sites Yet what they have in common is the memorable and often devastating effect they had on the participants and for many people it is this story of ordinary individuals in extraordinary circumstances that give battles a particular fascination Clash of Arms examines twelve very different English battles and explains how vital often unpredictable and sometimes overwhelming factors may have influenced their eventual outcomes Each chapter contains vivid battle narratives fascinating contemporary accounts and information about the battle's historical context and significance Special sections cover themes such as weapon development changes in battlefield tactics biographies of some of the most influential leaders battlefield archaeology and how studying the landscape can aid our understanding of a battle Lavishly illustrated with maps contemporary pictures historical re enactments and photographs of the battlefields it is the story of how men at war changed a country forever
