The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Scottish History* J. D. Mackie,2013-08-22 The National Book League was a precursor to the current Booktrust and was set up in 1924 by the Society of Bookmen in order to promote reading particularly among the young To that end the NBL issued Reader s Guides on a variety of subjects each written by an author with expertise in that field and containing an annotated bibliography of recommended titles on the subject J D Mackie had a distinguished career as a historian of Scotland and was appointed Historiographer Royal for Scotland in 1957 the year after this guide was published This guide includes an introduction defending Scottish history as a subject independent from general British history and a bibliography divided by period and by specific points of interest including Scottish art and the role played by Scots in the development of the British Empire *The International Directory of Booksellers and Bibliophile's Manual* James Clegg,1914 Beside the Bard George S. Christian,2020-03-13 *Beside the Bard* argues that Scottish poetry in the age of Burns reclaims not a single past dominated and overwritten by the unitary national language of an elite ruling class but a past that conceptualizes the Scottish nation in terms of local self identification linguistic multiplicity cultural and religious difference and transnational political and cultural affiliations This fluid conception of the nation may accommodate a post Union British self identification but it also recognizes the instrumental and historically contingent nature of Britishness Whether male or female loyalist or radical literati or autodidacts poets such as Alexander Wilson Carolina Olyphant Robert Tannahill and John Lapraik among others adamantly refuse to imagine a single nation British or otherwise instead preferring an open polyvocal field on which they can stage new national and personal formations and fight new revolutions In this sense Scotland is a revolutionary category always subject to creative destruction and reformation Published by Bucknell University Press Distributed worldwide by Rutgers University Press **The English Catalogue of**
